INNOVA DX Beast

INNOVA DX Beast Distance Driver Golf Disc User Manual

Model: DX Beast

INTRODUCTION

This manual provides essential information for the proper use, care, and maintenance of your INNOVA DX Beast Distance Driver Golf Disc. Please read this manual thoroughly to ensure optimal performance and longevity of your disc.

Image: A blue INNOVA DX Beast Distance Driver Golf Disc. The disc features the INNOVA DISC GOLF logo, "Beast Distance Driver" text, and flight ratings (10 | 5 | -2 | 2) printed in white.

SETUP AND PREPARATION

The INNOVA DX Beast Distance Driver is ready for use directly out of the packaging. No assembly or special setup is required.

Pre-Flight Check

- **Inspect for Damage:** Before each use, visually inspect the disc for any cracks, chips, or deformities that could affect its flight characteristics or safety.
- **Cleanliness:** Ensure the disc surface is clean and free of dirt, mud, or debris for consistent grip and flight.

OPERATING INSTRUCTIONS

The DX Beast is designed as a distance driver, suitable for players seeking long, controlled flights. Its flight characteristics are:

Speed: 10 (Indicates how fast the disc must be thrown to achieve its intended flight path.)

Glide: 5 (Represents the disc's ability to stay aloft.)

Turn: -2 (Describes the disc's tendency to move right for a right-hand backhand throw during the initial part of its flight.)

Fade: 2 (Indicates the disc's tendency to hook left for a right-hand backhand throw at the end of its flight.)

Throwing Techniques

For optimal distance and control, experiment with different grip styles and release angles. The -2 turn rating suggests it will have a gentle high-speed turn, making it suitable for S-curve shots or for players with moderate arm speed.

CARE AND MAINTENANCE

- **Cleaning:** Wash the disc with mild soap and water to remove dirt and grime. Avoid abrasive cleaners or harsh chemicals that could damage the plastic.
- **Storage:** Store the disc flat in a cool, dry place away from direct sunlight or extreme temperatures to prevent warping.
- **Avoid Impact:** While durable, repeated impact with hard surfaces (e.g., trees, rocks, concrete) can cause damage and alter flight characteristics.

TROUBLESHOOTING COMMON ISSUES

Issue	Possible Cause	Solution
Disc not flying as expected	Improper throwing technique, disc damage, or environmental factors (wind).	Review throwing form, inspect disc for damage, adjust for wind conditions.
Reduced grip	Dirty disc surface, moisture.	Clean disc thoroughly, ensure hands and disc are dry before throwing.

PRODUCT SPECIFICATIONS

- **Model:** DX Beast
- **Brand:** INNOVA
- **Plastic Type:** DX Plastic
- **Weight Range:** 151-159g (*Note: Actual weight may vary per disc*)
- **Flight Ratings:** Speed 10, Glide 5, Turn -2, Fade 2
- **Item Weight:** Approximately 5.6 ounces (158.7 grams)
- **ASIN:** B017L121OI

WARRANTY INFORMATION

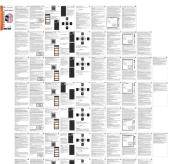

INNOVA Discs are manufactured to high standards. For specific warranty details regarding manufacturing defects, please refer to the official INNOVA Discs website or contact their customer support directly. Damage due to normal wear and tear, misuse, or impact is typically not covered under warranty.

CUSTOMER SUPPORT

For further assistance, questions, or to report issues, please contact INNOVA Discs customer support through their official channels. You can typically find contact information on the manufacturer's website.
