3. SETUP

Before first use, inspect the gloves for any signs of damage, tears, or defects. Do not use damaged gloves as their protective capabilities may be compromised. Ensure the gloves are the correct size (Size 11) for a comfortable and secure fit, allowing for full dexterity.

4. OPERATING INSTRUCTIONS

Wear the gloves on both hands, ensuring they fit snugly but do not restrict circulation. These gloves are intended for general work applications where hand protection from cold and minor abrasions is required. They are not designed for

protection against chemical hazards, extreme heat, or sharp objects unless specified by additional safety ratings not listed here.

- Ensure a proper fit to prevent slippage or discomfort during use.
- Use for tasks within their intended protective scope.
- Remove gloves carefully after use to avoid transferring any contaminants.
