Plantronics BT600 Network Adapter User Manual

Model: 205250-01

INTRODUCTION

The Plantronics BT600 Network Adapter is a compact USB device designed to provide instant wireless connectivity to your computer. This external adapter simplifies the process of adding Bluetooth capabilities, eliminating the need for internal installation. It is compatible with both desktop and notebook computers, offering a seamless solution for connecting your Plantronics Bluetooth headsets and other compatible devices.

Figure 1: The Plantronics BT600 Network Adapter. This small, black USB dongle features the Plantronics logo on its textured surface and a small pairing button on its side. It plugs into a standard USB port to enable Bluetooth connectivity.

WHAT'S IN THE BOX

- Plantronics BT600 Network Adapter

The package contains the Plantronics BT600 USB adapter. Additional accessories or documentation may be included depending on the specific product bundle.

SETUP INSTRUCTIONS

1. **Insert the Adapter:** Locate an available USB port on your desktop or notebook computer. Carefully insert the Plantronics BT600 Network Adapter into the USB port. The adapter is designed for a snug fit.
2. **Driver Installation:** In most modern operating systems (Windows, macOS, Linux), the necessary drivers for the BT600 adapter will install automatically upon insertion. Wait for your operating system to confirm that the device is ready for use.
3. **Pairing with a Device:**
 - Ensure your Plantronics Bluetooth headset or other compatible device is in pairing mode. Refer to your device's manual for specific instructions on how to activate pairing mode.
 - Locate the small pairing button on the side of the BT600 adapter. Press and hold this button for a few seconds until the LED indicator on the adapter begins to flash, indicating it is in pairing mode.
 - Your computer's Bluetooth settings or the Plantronics Hub application (if installed) should detect the device. Select your device from the list to complete the pairing process.
4. **Confirmation:** Once successfully paired, the LED indicator on the BT600 adapter will typically show a solid blue light. Your audio should now route through the connected Bluetooth device.

OPERATING INSTRUCTIONS

The Plantronics BT600 Network Adapter operates primarily as a dedicated Bluetooth interface for your Plantronics devices, optimizing performance and connectivity. Once paired, the adapter manages the wireless connection automatically.

- **LED Indicators:** The BT600 features an LED light that provides status information:
 - **Solid Blue:** Indicates a successful connection and active use.
 - **Flashing Blue/Red:** Indicates pairing mode.
 - **Solid Red:** For compatible Plantronics headsets, a solid red light indicates that your microphone is muted. This visual cue is helpful during calls.
- **Range:** The adapter provides an extended Bluetooth range compared to standard computer Bluetooth modules, typically up to 30 meters (100 feet) depending on environmental factors and the connected device.
- **Unified Communications (UC) Integration:** The BT600 is optimized for UC applications like Skype, Microsoft Teams, and WebEx, ensuring seamless audio and call control functionality with compatible Plantronics headsets.

MAINTENANCE

The Plantronics BT600 Network Adapter requires minimal maintenance to ensure optimal performance and longevity.

- **Cleaning:** Gently wipe the adapter with a dry, soft cloth to remove dust or smudges. Avoid using liquid cleaners or abrasive materials.
- **Storage:** When not in use, store the adapter in a cool, dry place. If your Plantronics headset comes with a charging case, it may have a dedicated slot for the BT600, providing convenient and safe storage.
- **Firmware Updates:** Periodically check for firmware updates for your BT600 adapter using the Plantronics Hub software (available for download from the official Plantronics website). Keeping the firmware updated ensures compatibility, performance improvements, and access to new features.

TROUBLESHOOTING

If you encounter issues with your Plantronics BT600 Network Adapter, refer to the following common troubleshooting steps:

Problem	Possible Cause / Solution
Adapter not recognized by computer.	• Ensure the adapter is fully inserted into the USB port. • Try a different USB port on your computer. • Restart your computer. • Check Device Manager (Windows) or System Information (macOS) to see if the device is listed.
Cannot pair with headset/device.	• Ensure both the BT600 and your headset are in pairing mode. • Move the devices closer to each other. • Ensure no other Bluetooth devices are interfering. • Try resetting both the adapter (by re-inserting) and the headset.
Poor audio quality or intermittent connection.	• Reduce the distance between the adapter and the headset. • Minimize obstacles (walls, large metal objects) between the devices. • Check for sources of interference (Wi-Fi routers, other Bluetooth devices). • Ensure your headset's battery is sufficiently charged. • Update the firmware of both the BT600 and your headset via Plantronics Hub.
Mute function not working or LED not indicating mute.	• Ensure you are using a compatible Plantronics headset. • Verify that the Plantronics Hub software is installed and updated. • Check the settings within your communication application (e.g., Microsoft Teams, Skype) to ensure the BT600 is selected as the audio device.

SPECIFICATIONS

Feature	Detail
Brand	Plantronics
Model Number	205250-01
Wireless Type	Bluetooth (802.11abg)
Host Interface	USB 1.1 (compatible with USB 2.0/3.0 ports)
Form Factor	External USB Dongle
Compatible Devices	Desktop Computers, Notebooks
Data Link Protocol	Bluetooth, USB

Feature	Detail
Data Transfer Rate	Up to 43 Megabytes Per Second
Color	Black
Item Weight	0.64 ounces (approx. 0.04 pounds)
Product Dimensions (LxWxH)	4.2 x 3 x 1.9 inches

WARRANTY AND SUPPORT

For information regarding warranty coverage, technical support, or service for your Plantronics BT600 Network Adapter, please refer to the official Plantronics (now Poly) website or contact their customer support directly. Warranty terms and conditions may vary by region and purchase date.

It is recommended to register your product on the manufacturer's website to receive updates and support notifications.

	Voyager Focus UC Fehlerbehebung: Sende-/Empfangsbildschirm Audio Nicht Routing auf das Headset Artikel ID: 00002794 Question Mehrere, wenn ich die Voyager Focus UC mit meinem PC-Audio aus der PC Lautsprecher und nicht über Routing auf das Headset aus dem BT6000 Audio, wie es sollte. Manchmal lässt sich das PC-Microfon immer noch meine Stimme und richt über das Headset. Wie kann ich dieses Problem beheben? Answer Grundsätzlich können wir anhand der Benutzer die Musik, die über den Webbrowser zu hören oder einen Anruf tätigen versucht über die Webex oder ein Smartphone als Microsoft Link oder über das Headset (wenn es als Bluetooth) Produkte überhöhteste Nutzung (wie Skype für Business und Microsoft Link). In diesem Problem Report sollte nicht auf die Artikel, aufgrund. Um dieses Problem zu beheben, müssen Sie zunächst sicher sein in den Einstellungen für die UC mit dem PC, um zu überprüfen, die BT6000 ist als Standardgeräusch für die Webdelegation und Aufnahme Audio. Wenn Sie Audio nicht als gewünscht um sicherzustellen, dass Voyager Focus UC: 1. Öffnen Sie die Registeigenschaften "Sound" mit der rechten Maustaste in der Taskleiste und klicken Sie auf "Sound". 2. In der Registerkarte "Wiedergabe" wählen Sie "Speaker" und klicken Sie auf den rechten Pfeil, um die Lautstärke zu erhöhen. Nehmen Sie die gleiche Aktion für die Registerkarte "Aufnahme" und klicken Sie auf "Default" oder "BT6000". Hinweis: Es ist möglich, dass das Headset und Mikrofon nicht über die Audio nehmen um sicherzustellen, dass die Geräte mit der rechten Maustaste auf und klicken Sie auf "Sound" und dann unter "Geräte" unter "Anschließen" in der Lautsprecher. Jedoch werden die Lautsprecher immer verwendet, wenn aktiviert, wenn Musik, die über die PC-Lautsprecher erneut übertragen wird. Funktionen und Spezifikationen - Statische Versand - Fluoreszenz des Displaymoduls für dieses Produkt - CE-Zertifizierung - CE-Zertifizierung Funktionen und Spezifikationen - Spezifizieren Sie bis zu 3 Stunden - Spezifizieren Sie bis zu 3 Stunden 4-Adressierte Fernmarke mit Platform Hub 4-Adressierte digitale Signalerweiterung (DSP)
