OLIGHT AM-I3E-Black

OLIGHT i3E EOS Flashlight User Manual

Model: AM-I3E-Black

INTRODUCTION

This manual provides essential information for the safe and effective operation of your OLIGHT i3E EOS PMMA TIR Lens AAA EDC Flashlight. Please read it thoroughly before use and retain it for future reference.

SETUP

Battery Installation

The OLIGHT i3E EOS flashlight operates on a single AAA battery. A battery is included with your purchase. Before initial use, ensure you remove any plastic wrapper from the battery.

1. Unscrew the head of the flashlight counter-clockwise to open the battery compartment.
2. Insert one AAA battery with the positive (+) end facing towards the head of the flashlight.
3. Screw the head back on clockwise until it is securely tightened. This action also completes the circuit for operation.

EASY SWITCHING

Image: A close-up view of the flashlight with its head unscrewed, revealing the battery compartment and the correct orientation for AAA battery insertion.

OPERATING INSTRUCTIONS

Turning On/Off

The i3E EOS features a simple twist mechanism for operation. There are no buttons on this model.

- To turn the flashlight **ON**, twist the head clockwise until the light illuminates.
- To turn the flashlight **OFF**, twist the head counter-clockwise until the light extinguishes.

Image: A hand demonstrating the twist operation of the flashlight head to turn the device on or off.

Brightness Levels

The OLIGHT i3E EOS operates at a single, fixed brightness level of 90 lumens. This provides sufficient illumination for everyday tasks and navigating in low-light conditions.

MAINTENANCE

Battery Replacement

When the light output diminishes significantly, it is time to replace the AAA battery. Follow the battery installation steps outlined in the "Setup" section.

Cleaning and Care

- Wipe the flashlight with a clean, soft cloth to remove dust or debris.
- Do not use harsh chemicals or abrasive materials for cleaning.
- Periodically check the O-rings for wear and tear. Lubricate them with silicone grease if necessary to maintain water resistance.

Water Resistance

The OLIGHT i3E EOS is IPX8 rated, meaning it is protected against continuous immersion in water up to a specified depth. Ensure the head is fully tightened to maintain its waterproof integrity.

TROUBLESHOOTING

- **Light does not turn on:**

- Ensure the head is fully tightened.
- Check if the battery is inserted correctly with the positive (+) end facing the head.
- Replace the battery with a fresh AAA battery.
- Remove any plastic wrapper from the battery if it's new.

- **Light flickers or is dim:**

- Replace the battery.
- Clean the contact points inside the flashlight and on the battery with a clean, dry cloth.

SPECIFICATIONS

Feature	Specification
Brand	OLIGHT
Model	AM-I3E-Black
Light Source Type	LED
Brightness	90 Lumens
Beam Distance	44 Meters
Power Source	Battery Powered (1 AAA battery)
Battery Cell Composition	Alkaline
Runtime	1 hour (approx.)
Material	Aluminum
Water Resistance Level	IPX8 (Waterproof)
Item Weight	19.4 Grams (0.684 ounces)
Product Dimensions	4.5"D x 2.75"W x 0.75"H
