Kriega KRR25

Kriega Rally Pack Instruction Manual

Model: KRR25

1. Introduction

The Kriega Rally Pack is a compact, durable, and fully waterproof gear bag designed specifically for motorcycle use, particularly in challenging off-road conditions. It provides secure storage for essential items such as safety equipment, tools, and personal effects, ensuring they remain dry and protected.

This manual provides detailed instructions for the proper installation, operation, and maintenance of your Kriega Rally Pack to ensure optimal performance and longevity.

2. Product Features

- **Exceptional Durability:** Constructed from 1000D Cordura and Rhinotek abrasion-resistant fabric for robust performance.
- **Waterproof Storage:** Features a fully waterproof design with a Drypack taped-seam liner to keep contents completely dry.
- **Secure Mounting System:** Equipped with CNC 6061-T6 alloy fasteners and stainless steel hardware for a strong, flush mount to the rear fender.
- **Easy to Install:** Includes a precise drilling guide and all necessary hardware for straightforward installation.
- **Lightweight and Compact:** Weighs only 300 grams with a practical 2.5-liter capacity, making it an unobtrusive addition to your riding gear.

3. Setup and Installation

The Kriega Rally Pack is designed for a secure, flush mount to the rear fender of your motorcycle. Installation requires careful attention to detail to ensure stability and waterproof integrity.

3.1. Required Tools

- Drill with appropriate bit size (refer to drilling guide)
- Hex keys or wrenches for fasteners
- Marker or pencil
- Protective eyewear

3.2. Installation Steps

1. **Positioning:** Carefully position the Rally Pack on your motorcycle's rear fender to determine the optimal mounting location. Ensure it does not interfere with suspension travel, wheel clearance, or rider movement.
2. **Marking Drill Points:** Use the provided drilling guide to accurately mark the four mounting points on the fender. Double-check alignment before proceeding.
3. **Drilling:** Using the appropriate drill bit, carefully drill holes at the marked points. Ensure clean holes to prevent damage to the fender material.
4. **Attaching Fasteners:** Insert the CNC 6061-T6 alloy fasteners through the Rally Pack's mounting points and align them with the drilled holes in the fender.
5. **Securing:** Use the stainless steel hardware to securely fasten the Rally Pack to the fender. Tighten all bolts evenly to ensure a flush and stable mount. Do not overtighten.

4. Operation

The Kriega Rally Pack is designed for quick and easy access to your essentials while maintaining a waterproof seal.

4.1. Accessing Contents

- To open the main compartment, unclip the quick-release buckles and unroll the top closure.
- The Drypack liner ensures contents remain dry even when the outer fabric is wet.
- After placing items inside, roll down the top closure tightly at least three times to create a waterproof seal.
- Secure the quick-release buckles to keep the roll-top closed and compact.

Image: Hands demonstrating how to open and access items within the Kriega Rally Pack, highlighting its practical design.

4.2. Securing the Pack

Once mounted, the Rally Pack's low profile and robust attachment minimize movement during riding, even over rough terrain. Periodically check the tightness of the mounting hardware, especially after initial installation and before long rides.

5. Maintenance and Care

Proper care will extend the life and maintain the performance of your Kriega Rally Pack.

- **Cleaning:** Clean the exterior with a damp cloth and mild soap. Do not use harsh chemicals or abrasive cleaners, as these can damage the fabric and waterproof coating.
- **Drying:** Allow the pack to air dry completely before storing, especially if it has been exposed to water. Do not tumble dry or use direct heat.
- **Storage:** Store the Rally Pack in a cool, dry place away from direct sunlight when not in use.
- **Hardware Check:** Periodically inspect all fasteners and hardware for signs of wear or corrosion. Replace any damaged components immediately.

6. Troubleshooting

Here are some common issues and their solutions:

6.1. Water Ingress

- **Issue:** Contents inside the pack are damp or wet.
  Solution: Ensure the roll-top closure is rolled down tightly at least three times and that the buckles are securely fastened. Check the Drypack liner for any tears or punctures.

6.2. Loose Mounting

- **Issue:** The Rally Pack feels loose or shifts during riding.

Solution: Re-check the tightness of all four mounting bolts. Ensure they are evenly tightened and that the pack is flush against the fender. Inspect the fender for any cracks or damage around the mounting points.

7. Specifications

Attribute	Value
Model Number	KRR25
Product Dimensions	7.87 x 6.9 x 7.9 inches
Weight	3.53 ounces (approx. 100 grams)
Capacity	2.5 Liters
Materials	1000D Cordura, Rhinotek fabric, Hypalon, CNC 6061-T6 alloy, Stainless steel
Waterproof Rating	100% waterproof main compartment with Drypack liner
