KAWADA NBC181

KAWADA nanoblocks NBC181 Bengal Tiger Building Kit Instruction Manual

Introduction

Welcome to the world of nanoblocks! This instruction manual provides detailed guidance for assembling your KAWADA nanoblocks NBC181 Bengal Tiger Building Kit. Nanoblocks are a construction product known for their unique tiny-sized blocks, allowing for intricate model making. These miniature building block sets are designed to create highly detailed projects. Please read these instructions carefully before beginning assembly.

Product Overview

The nanoblocks NBC181 Bengal Tiger Building Kit allows you to construct a detailed miniature model of a Bengal Tiger. This kit contains over 160 pieces of high-quality ABS plastic blocks, colored using soy ink. The blocks are approximately 1/8th the size of standard building bricks, enabling a high level of detail in the finished model.

Package Contents

Upon opening your nanoblocks NBC181 Bengal Tiger Building Kit, you should find the following items:

- Assorted nanoblocks (over 160 pieces)
- Detailed instruction sheet with step-by-step diagrams

Assembly Instructions

Assembly of the nanoblocks Bengal Tiger requires patience and attention to detail due to the small size of the blocks. The recommended minimum age for assembly is 12 years.

1. **Preparation:** Open the package and carefully empty all nanoblocks onto a clean, flat surface. It is recommended to sort the blocks by color and shape to facilitate easier assembly.
2. **Follow the Instruction Sheet:** Refer to the detailed instruction sheet included in your kit. This sheet provides step-

by-step diagrams illustrating how to connect the blocks to form the Bengal Tiger model. Each step will show which blocks to use and where to place them.

3. **Connect Blocks Securely:** Ensure each block is firmly pressed into place. Due to their small size, precise alignment is crucial for a stable model.
4. **Patience is Key:** If a step seems difficult, take a break and re-examine the diagram. The intricate nature of nanoblocks means some steps may require careful manipulation.
5. **Alternative Rebuilds:** While the primary goal is to build the Bengal Tiger, nanoblocks also encourage creativity. The blocks can be used to create alternative designs, limited only by your imagination.

Operating Instructions (Display)

Once your nanoblocks Bengal Tiger model is complete, it is ready for display. Place the assembled model on a stable, flat surface where it will not be easily knocked over. Avoid direct sunlight or extreme temperatures to prevent potential material degradation over time.

Maintenance

To keep your nanoblocks Bengal Tiger model in good condition:

- **Cleaning:** Dust the model regularly with a soft, dry brush or a can of compressed air. For more stubborn dirt, gently wipe with a slightly damp cloth, then dry immediately. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** If disassembling or storing the model, keep the blocks in a sealed container to prevent loss and protect them from dust.

Troubleshooting

Here are solutions to common issues you might encounter:

- **Missing Pieces:** Carefully check all packaging materials. If a piece is genuinely missing, contact the retailer or manufacturer for assistance.
- **Difficulty Connecting Blocks:** Ensure the blocks are correctly oriented and aligned before applying pressure. Sometimes a slight adjustment is needed for a secure fit.
- **Model Instability:** If the model feels unstable, re-examine the connections in the affected area. Loose connections can lead to structural weakness. Refer back to the instruction sheet to verify all blocks are placed correctly.

Specifications

- **Brand:** KAWADA
- **Model Number:** NBC181
- **Number of Pieces:** Over 160
- **Material Type:** High-quality ABS Plastic
- **Coloring:** Soy Ink
- **Theme:** Animal (Bengal Tiger)
- **Recommended Minimum Age:** 12 years (144 months)
- **Approximate Package Dimensions:** 7.08 x 4.13 x 0.51 inches
- **Approximate Package Weight:** 0.03 Kilograms
