1. PRODUCT OVERVIEW

The Digital Nc LT160HDRP380V is a professional, long-life multi-LED dimmable video light designed for enhanced illumination during photography and videography. It features 160 super white LEDs with a color temperature range of 5600K to 3200K, offering versatile lighting options. The light is dimmable, allowing precise control over brightness. It is powered by a rechargeable battery, providing approximately 2.5 hours of run time on a full charge, and includes an AC/DC rapid charger for convenience.

2. PACKAGE CONTENTS

Please check the package for the following items:

- Digital Nc LT160HDRP380V Multi-LED Dimmable Video Light
- Hot Shoe Mount with 360° Ball Head
- Rechargeable Battery
- AC/DC Rapid Charger
- Sony Active Interface Adapter

3. SETUP INSTRUCTIONS

3.1 Attaching the Video Light to Your Camera

1. Locate the hot shoe mount on your camera.
2. Slide the hot shoe mount with the 360° ball head into your camera's hot shoe.
3. Tighten the locking wheel on the hot shoe mount to secure it to the camera.
4. Attach the Digital Nc LT160HDRP380V video light to the 1/4-inch screw on the ball head mount.
5. Tighten the locking ring on the video light to secure it to the ball head.
6. Adjust the angle of the video light using the 360° ball head and tighten its locking knob to fix the position.

Figure 3.2: The Digital Nc LT160HDRP380V video light attached to a camera via the hot shoe mount.

3.2 Installing the Battery

1. Ensure the video light is turned off.
2. Locate the battery compartment on the back of the video light.
3. Insert the rechargeable battery into the compartment, ensuring the contacts align correctly.
4. Close the battery compartment cover securely.

4. OPERATING INSTRUCTIONS

4.1 Powering On/Off

Locate the power switch on the side or back of the video light. Slide the switch to the 'ON' position to turn on the light. Slide it to the 'OFF' position to power down.

4.2 Adjusting Brightness

The Digital Nc LT160HDRP380V features a brightness adjustment switch. Rotate or slide this switch to increase or decrease the light intensity according to your needs. The light is continuously dimmable for precise control.

4.3 Adjusting Color Temperature

This video light offers a dimmable color temperature range from 5600K (daylight) to 3200K (tungsten). Use the dedicated color temperature adjustment control (if present, often integrated with brightness or a separate dial) to fine-tune the light's warmth or coolness to match your shooting environment or desired effect.

5. MAINTENANCE

5.1 Battery Charging

When the battery level is low, connect the rechargeable battery to the provided AC/DC rapid charger. Plug the charger into a power outlet. The charger will indicate when the battery is fully charged. A fully charged battery provides approximately 2.5 hours of continuous operation.

5.2 Cleaning

To clean the video light, ensure it is turned off and disconnected from any power source. Use a soft, dry cloth to wipe the exterior. For stubborn dirt, a slightly damp cloth can be used, followed by a dry cloth. Do not use harsh chemicals or abrasive cleaners, as these can damage the unit.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Light does not turn on.	Battery is not charged or incorrectly installed.	Ensure the battery is fully charged and correctly inserted. Check power switch position.
Light is dim or flickers.	Low battery charge.	Recharge the battery.
Light is not securely mounted.	Mounting screws or locking mechanisms are loose.	Tighten all mounting screws and locking rings on the hot shoe mount and ball head.
