SAFETY INFORMATION

Important Safety Warning:

- Never leave the canopy erected overnight or under adverse weather conditions such as strong winds, heavy rain, or snow.
- The manufacturer is not responsible for damages resulting from improper use or failure to adhere to weather precautions.
- Ensure the gazebo is securely anchored to the ground at all times during use.
- Keep all flame and heat sources away from the canopy fabric.

PACKAGE CONTENTS

Verify that all components listed below are present before beginning assembly. If any parts are missing or damaged, contact customer support.

- Durable Water Proof Polyethylene Cover (Roof)
- Rust & Corrosion Resistant Powder Coated Steel Framework (Poles and Connectors)
- Removable Sidewalls with Windows (Quantity: 6)
- Solid Sidewalls with Zippered Doors (Quantity: 2)
- Ropes for Stability
- Stakes for Ground Anchoring

SETUP INSTRUCTIONS

Assembly typically requires at least 2-3 people. Ensure you have adequate space and clear instructions before starting.

1. **Unpack and Identify Parts:** Lay out all poles, connectors, cover, and sidewalls. Poles are typically labeled for easy identification.
2. **Assemble the Roof Frame:** Connect the shorter poles and four-way connectors to form the top rectangular frame of the gazebo. Ensure all connections are secure.
3. **Attach Roof Cover:** Carefully drape the polyethylene roof cover over the assembled roof frame. Ensure it is centered and aligned.

4. **Install Leg Poles:** Attach the leg poles to the roof frame connectors. With assistance, lift the frame and insert the leg poles into the ground foot caps.
5. **Secure to Ground:** Fix the foot caps to the ground using the provided ground pegs/stakes. This is crucial for stability.
6. **Adjust Cover Tightness:** Use the cover securing hooks with adjustable positions to ensure the roof cover is taut and properly fitted.
7. **Attach Sidewalls:** The removable sidewalls attach to the frame using Velcro fasteners. Position the windowed sidewalls and zippered solid sidewalls as desired.
8. **Final Anchoring:** Utilize the provided ropes and additional stakes to further secure the gazebo, especially in areas prone to light breezes.

8 REMOVABLE SIDEWALLS

OPERATING INSTRUCTIONS

The F2C Outdoor Gazebo is designed for temporary outdoor use, providing shade and shelter for various events.

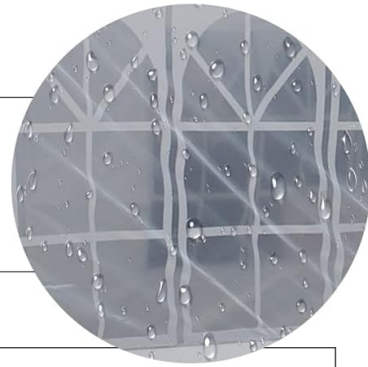

- **Removable Sidewalls:** The gazebo features 6 windowed sidewalls and 2 solid sidewalls with zippered doors. These can be easily attached or removed to adapt to different weather conditions or event needs, allowing for ventilation or enclosure.
- **Weather Protection:** The durable polyethylene cover is waterproof, effectively keeping out rainwater. It also provides UV protection, blocking approximately 90% of the sun's UV rays.

- **Wind Conditions:** While designed for outdoor use, it is not intended for high wind conditions. Always monitor weather forecasts and disassemble the gazebo if strong winds are expected.

Waterproof

Durable water-resistant fabric can effectively keep out rainwater (Not recommend to leave the canopy up overnight or under bad weather)

UV Protection

High quality polyethylene cover can block 90% of the sun UV rays

MAINTENANCE

Proper maintenance will extend the lifespan of your gazebo.

- **Cleaning:** Clean the polyethylene cover and sidewalls with mild soap and water. Avoid harsh chemicals or abrasive cleaners, which can damage the fabric. Rinse thoroughly and allow to air dry completely before storage.
- **Frame Inspection:** Periodically inspect the steel framework for any signs of rust, bending, or damage. Ensure all connections remain tight.
- **Storage:** When not in use, especially during off-season or inclement weather, disassemble the gazebo and store all components in a dry, protected area. Fold the cover and sidewalls neatly to prevent creases and damage.

TROUBLESHOOTING

Refer to these common issues and solutions.

- **Gazebo Instability:** Ensure all ground stakes are fully inserted and ropes are taut. Verify all frame

connections are secure. Disassemble in high winds.

- **Water Pooling on Roof:** Ensure the roof cover is stretched tightly and evenly over the frame. Adjust securing hooks if necessary. Do not allow water to accumulate, as this can cause frame collapse.
- **Difficulty Assembling:** Double-check part labels and refer to the assembly steps. Ensure you have enough people to assist with lifting and connecting larger sections.
- **Damaged or Missing Parts:** If you encounter damaged or missing components upon unboxing or during assembly, contact F2C customer support for assistance.

SPECIFICATIONS

| Feature | Detail |
|------------------------------|--|
| Brand | F2C |
| Model | 10x30 FT Outdoor Gazebo |
| Material | Alloy Steel (Frame), Polyethylene (Cover) |
| Style | Heavy-duty |
| Product Dimensions | 72"L x 120"W x 120"H (Approx. 10'x30'x10') |
| Item Weight | 50 Pounds |
| Water Resistance Level | Waterproof |
| Ultraviolet Light Protection | Yes (Blocks 90% of UV rays) |
| Assembly Required | Yes |
| Color | White |

WARRANTY AND SUPPORT

F2C is committed to providing quality products. While specific warranty details are not provided in this manual, F2C aims for direct communication between customers and factories to continuously optimize products and address concerns.

For assistance with missing parts, damaged components, or any product-related inquiries, please contact F2C customer support through your purchase platform or the official F2C website. Please have your model number and purchase information ready when contacting support.
