ArtToFrames 13x26 inch Black Picture Frame Instruction Manual

Brand: ArtToFrames | Model: 2WOMFRBW72079-13x26

INTRODUCTION

This is a brand new 13x26 picture, photo, diploma, poster frame designed to perfectly fit a 13" x 26" or a 26" x 13" print. Crafted from MDF, this frame measures 1.25" wide and 0.75" deep, with a .375" deep rabbet. It is manufactured to the highest quality industry standards and includes a styrene cover. The Tradewinds designer frame offers a unique aesthetic, ideal for showcasing your most cherished pictures, photos, art gallery prints, posters, photographs, paintings, diplomas, artwork, or craft projects. Its modest design ensures it complements almost any environment. The black finish is particularly versatile, working seamlessly with both black-and-white and color images.

KEY FEATURES

- Includes styrene (clear cover) and a wire hanging set for convenient wall mounting.
- Constructed from durable MDF, ensuring a unique and high-quality custom picture frame.
- Designed to perfectly fit 13x26 inch photos. The actual finished frame size is 15x28 inches, with a frame width of 1.25 inches.
- Features a classic mid-width black frame with a smooth, flat finish, ideal for showcasing black and white photos or bold prints.
- Versatile design suitable for various display needs, including diplomas, adding a professional touch.

SETUP GUIDE

1. Unpacking Your Frame

Carefully unpack your ArtToFrames picture frame from its protective packaging. Ensure all components, including the

frame, styrene (or glass), backing board, and the wire hanging set, are present and undamaged.

2. Inserting Your Picture

To insert your picture or artwork, gently bend back the metal tabs located on the back of the frame. Carefully remove the backing board and the protective styrene sheet. If your frame comes with styrene, remember to peel off the protective film from both sides of the styrene before placing it in the frame to ensure maximum clarity.

Image: A close-up view of the frame's corner, highlighting the smooth black finish and the clear styrene protecting the image. Position your 13x26 inch picture or artwork inside the frame, ensuring it is centered and lies flat against the styrene. Once the picture is in place, return the backing board to the frame and secure it by bending the metal tabs back into their original position.

3. Hanging the Frame

Your ArtToFrames picture frame comes with a wire hanging set for secure wall mounting. Follow these steps for proper installation:

All frames 16x20 and larger (including 12x18 & 13x19) come with .060 plexi , corrugated backing and a hanging wire set

Image: The reverse side of the frame, displaying the corrugated backing and the included wire hanging hardware, ready for installation. For a visual guide on installing the hanging hardware, please refer to the official instruction video below:

Video: How To - Wire, Nails & Hooks Installation. This video demonstrates the process of installing the wire, nails, and hooks for hanging your ArtToFrames picture frame securely on a wall. It covers gathering hardware, measuring placement, attaching hooks, and securing the wire.

Alternatively, some frames may feature a pre-installed sawtooth hanger for simpler hanging, requiring only a single nail or hook in the wall.

OPERATING INSTRUCTIONS

Once your picture is securely framed and the hanging hardware is properly installed, your frame is ready for display. Choose a suitable location on your wall that complements your decor and provides adequate visibility for your artwork. Ensure the frame is hung level and in a position where it will not be easily knocked or damaged. The versatile black finish of this frame is designed to enhance both black-and-white and color photographs, making it a perfect addition to any room.

CARE AND MAINTENANCE

To ensure the longevity and pristine appearance of your ArtToFrames picture frame, regular care is recommended. Dust the frame and its styrene/glass cover periodically with a soft, dry, lint-free cloth. Avoid using abrasive cleaners, paper towels, or harsh chemical sprays, as these can scratch the clear cover or damage the frame's finish. For more stubborn marks on the styrene, a mild, non-abrasive cleaner specifically designed for plastics can be used sparingly. Always apply cleaner to the cloth first, not directly to the frame. Handle the frame by its edges to prevent fingerprints or smudges on the clear cover.

TROUBLESHOOTING

Picture Does Not Fit

If your picture does not fit correctly, double-check the dimensions of your print against the frame size. This frame is specifically designed for 13x26 inch prints. If your print is slightly larger, careful and precise trimming may be necessary. If

your print is smaller, consider using a mat (not included with this frame) to fill the empty space and enhance the presentation.

Frame Appears Scratched or Damaged

First, ensure that all protective films have been removed from both sides of the styrene cover. These films can sometimes mimic scratches. If actual scratches or damage are present on the frame or styrene, please contact ArtToFrames customer support for assistance. Always handle the frame with care during setup and hanging to prevent accidental damage.

Frame Is Not Hanging Straight

Use a level to verify that the hanging hardware (nails, hooks, or sawtooth hanger) is installed evenly on the wall. If using the wire hanging system, ensure the wire is taut and evenly distributed across the D-rings. Adjust the position of the wall hardware or the wire as needed to achieve a perfectly level display.

PRODUCT SPECIFICATIONS

Brand	ArtToFrames
Model Number	2WOMFRBW72079-13x26
Size	13 x 26 inches
Product Dimensions	0.75 x 28 x 15 inches
