Adecorty Meteor Shower Light Instruction Manual

Model: meteorlight01 | Brand: Adecorty

1. INTRODUCTION

Thank you for choosing the Adecorty Meteor Shower Lights. These UL Certified LED lights are designed to create a captivating visual effect, simulating falling snow or a meteor shower. Ideal for both indoor and outdoor decoration, they are perfect for holidays, parties, weddings, and general ambiance. This manual provides essential information for safe setup, operation, and maintenance of your lights.

2. PRODUCT FEATURES

- **Upgraded Design & UL Certified Plug:** Features 192 high-brightness SMD2835 LEDs with a double-sided patch design for brighter, longer-lasting 360-degree lighting. Powered by a safe 7V low voltage UL Certified plug.
- **High Quality & Energy Efficient:** Dustproof, corrosion-resistant, and durable, made from transparent PC material. LED beads are low consumption and energy-saving, preventing overheating and fire risk.
- **High Brightness & Specifications:** Includes 8 tubes, each 12 inches long, with a total PVC cable length of approximately 23 ft. IP65 waterproof rating for indoor and outdoor use.
- **Romantic Meteor Shower Effect:** LED bulbs light up and fade in sequence, mimicking a meteor shower or falling snow. Multiple sets (up to five) can be connected for extended coverage.
- **Wide Application:** Suitable for decorating trees, eaves, Christmas trees, patios, porches, windows, yards, gardens, weddings, parties, and various holiday celebrations.

3. PACKAGE CONTENTS

- 1 x Adecorty Christmas Meteor Shower Lights (8 tubes, 192 LEDs)
- 1 x UL Certified Plug

4. SAFETY INFORMATION

- Ensure the product is handled with care to avoid damage to wires or LED tubes.
- Only use the provided UL Certified adapter.
- Do not attempt to modify or repair the lights yourself. Contact customer support if issues arise.
- While waterproof (IP65), ensure electrical connections are secure and protected from excessive moisture, especially the plug.
- Keep out of reach of children and pets.

5. SETUP INSTRUCTIONS

1. **Unpack:** Carefully remove the lights from the packaging. Untangle the wires gently.
2. **Connect Multiple Sets (Optional):** If using more than one set, remove the end cap from the first string and connect the male connector of the next string into the female connector. Securely tighten the waterproof connection. It is recommended to connect no more than five sets together to maintain optimal brightness and lifespan.
3. **Positioning:** Hang the lights in your desired location using the integrated hooks. The clear wire design helps them blend into the background.
4. **Power Connection:** Connect the UL Certified plug to a standard electrical outlet. The leading wire is approximately 16.4 ft, providing flexibility for placement.

6. OPERATING INSTRUCTIONS

1. **Power On/Off:** Plug the lights into a power outlet to turn them on. Unplug to turn them off.
2. **Light Modes:** The lights feature a meteor shower effect where each LED bulb lights up and fades in sequence. There are typically two modes: a continuous falling effect and a more random, twinkling effect. These modes can often be cycled through by pressing a button on the power adapter.
3. **Timer Function:** Some models may include a built-in timer function (e.g., 6 hours on, 18 hours off). Refer to the small button on the power adapter; holding it down for a few seconds may activate the timer.

7. MAINTENANCE

- **Cleaning:** Gently wipe the tubes with a soft, damp cloth if they become dirty. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** When not in use, unplug the lights and carefully coil the strings. Store them in a cool, dry place away from direct sunlight and extreme temperatures.
- **Inspection:** Periodically inspect the wires and tubes for any signs of damage. Discontinue use if any damage is found.

8. TROUBLESHOOTING

- **Lights Not Turning On:**
 - Ensure the power plug is securely inserted into a working outlet.
 - Check if the outlet itself is functional by plugging in another device.
 - If multiple sets are connected, ensure all male and female connectors are correctly linked and tightened.
- **Partial Lights Not Working:**
 - This product uses individual LED bulbs. If a few bulbs are out, it typically does not affect the entire string.
 - Inspect the specific tube for any visible damage.
- **Irregular Light Pattern:**
 - If the pattern seems off, try unplugging and replugging the unit to reset the sequence.

9. SPECIFICATIONS

Feature	Detail
Model Number	meteorlight01
