# Nerf HyperFire Motorized Elite Blaster Instruction Manual

Model: B5573F07

## 1. INTRODUCTION

The Nerf HyperFire Motorized Elite Blaster is designed for rapid-fire dart blasting, capable of firing up to 5 darts per second. This manual provides essential information for assembly, operation, maintenance, and troubleshooting to ensure a safe and enjoyable experience with your blaster.

This blaster includes a 25-dart drum and 25 Official Elite Darts, offering significant firepower for extended play.

## 2. SAFETY INFORMATION

---

**WARNING: Small parts may be generated. Not for children under 3 years.**

- Do not aim at eyes or face.
- Use only official NERF darts. Other darts may not meet safety standards.
- Do not modify darts or blaster.
- Adult supervision is recommended for younger users.

## 3. WHAT'S IN THE BOX

---

- 1 x Nerf HyperFire Motorized Elite Blaster
- 1 x 25-Dart Drum
- 25 x Official Elite Darts

AGES  
8+

Figure 2: Product contents as received in frustration-free packaging.

## 4. SETUP

### 4.1. Battery Installation

The Nerf HyperFire Blaster requires 4 x 1.5V D alkaline batteries (not included). To install batteries:

1. Locate the battery compartment on the side of the blaster.
2. Using a Phillips head screwdriver, unscrew the battery compartment cover.
3. Insert 4 D batteries, ensuring correct polarity (+/-) as indicated inside the compartment.
4. Replace the cover and tighten the screw.

### 4.2. Loading the Dart Drum

The blaster comes with a 25-dart drum. To load darts:

1. Ensure the blaster is powered off and the flywheel trigger is not engaged.
2. Insert the 25-dart drum into the blaster's magazine well until it clicks securely into place.
3. Push the Official Elite Darts into the slots of the drum until they are fully seated. Ensure darts are not bent or damaged, as this can cause jamming.

Figure 4: The 25-dart drum ready for use.

## 5. OPERATING THE BLASTER

### 5.1. Powering On and Firing

The HyperFire Blaster features a motorized firing mechanism. Proper operation is key to preventing jams and ensuring continuous firing.

1. **Engage the Flywheel:** Press and hold the lower acceleration trigger (flywheel trigger) to power up the motor. Wait approximately one second for the flywheel to reach full speed.
2. **Fire Darts:** While holding the acceleration trigger, press the upper firing trigger to launch darts. The blaster will fire darts rapidly as long as both triggers are held and darts are available.
3. **Stop Firing:** To stop firing, first release the upper firing trigger. Then, after a brief moment (approximately one second), release the lower acceleration trigger. This sequence helps prevent darts from jamming in the mechanism.

Figure 6: Blaster in action, demonstrating rapid-fire capability.

## 6. MAINTENANCE

### 6.1. Cleaning

Wipe the blaster with a clean, damp cloth. Do not submerge the blaster in water or use harsh chemicals, as this can damage the electronic components.

### 6.2. Dart Care

Always use clean, undamaged Official Elite Darts. Darts that are bent, torn, or excessively dirty can lead to poor performance and jamming. Store darts in a clean, dry place.

### 6.3. Battery Care

Remove batteries from the blaster when not in use for extended periods to prevent battery leakage and

corrosion, which can damage the blaster's electronics.

## 7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Blaster does not power on or fire.	Dead or incorrectly installed batteries.	Check battery polarity. Replace with fresh 1.5V D alkaline batteries.
Darts jam frequently.	Flywheel not at full speed before firing; damaged darts; improper firing sequence.	Ensure flywheel trigger is held for 1 second before firing. Use only undamaged darts. Release firing trigger before acceleration trigger when stopping.
Reduced firing range or power.	Low batteries; worn darts.	Replace batteries. Use new, undamaged darts.

## 8. SPECIFICATIONS

- **Model Number:** B5573F07
- **Product Dimensions:** 4.06 x 12.05 x 24.13 inches
- **Item Weight:** 4.04 pounds
- **Power Source:** 4 x 1.5V D alkaline batteries (not included)
- **Dart Capacity:** 25 darts (drum)
- **Rate of Fire:** Up to 5 darts per second (with fresh batteries)
- **Recommended Age:** 8 years and up
- **Manufacturer:** Hasbro
- **Country of Origin:** China

## 9. WARRANTY AND SUPPORT

For warranty information and customer support, please refer to the documentation provided with your purchase or visit the official Hasbro website. Keep your purchase receipt as proof of purchase for any warranty claims.

For additional assistance, you may contact Hasbro customer service directly.
