## Hanes G507

# Hanes Womens X-Temp Foam Wire-free Bra

## USER MANUAL

### Product Overview

---

The Hanes X-Temp Foam Wire-free Bra is designed for all-day comfort, adapting to your body temperature and activity level to keep you cool and dry. It features smooth foam cups that naturally lift and shape, along with convertible straps for versatile wearing options. The bra incorporates mesh accents and contrasting colors for a sporty aesthetic.

Front view of the Hanes X-Temp Foam Wire-free Bra, showcasing its wire-free design, foam cups, and adjustable straps. The bra is white with grey trim and a subtle lime green stripe along the band.

Back view of the Hanes X-Temp Foam Wire-free Bra, highlighting the adjustable grey shoulder straps and the secure hook-and-eye closure at the back. The X-Temp technology helps manage moisture.

## Setup and Sizing

Proper sizing is crucial for comfort and support. Please refer to the following guide to determine your correct bra size.

Easy as **one, two, three!** Use our Bra Size Calculator as a guide to determine your bra size.

### 1 BAND SIZE

- Wear your favorite bra
- Use a soft tape measure. (in inches)
- Wrap the tape measure around your chest to the front, above your bust.
- This measurement is your band size.
- If the band number is odd, round down to the closest even number.

### 2 BUST MEASUREMENT

- Measure completely around the fullest part of your bust keeping the tape measure level.
- If this measurement falls on the 1/2 inch, round up.

For example, if your bust measurement is 35 1/2" use 36 as your bust measurement

### 3 CUP SIZE

- Subtract the band size (Step 1) from the bust measurement (Step 2).
- This number equates to the letter of your cup size.

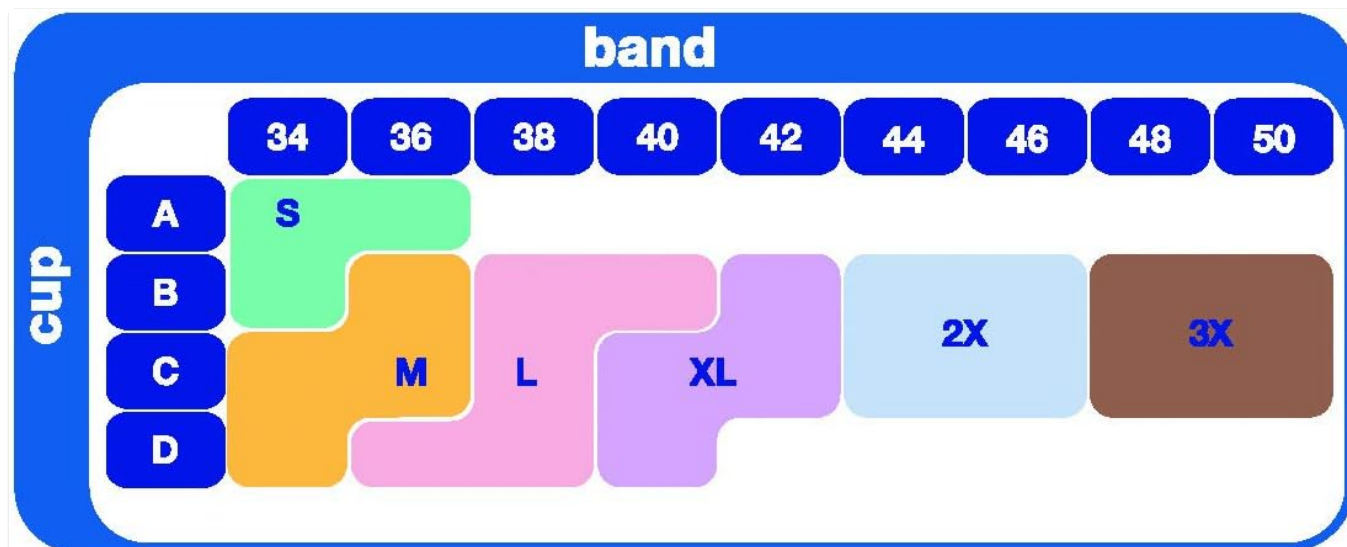

**BUST MEASUREMENT – BAND SIZE = CUP SIZE**

For example, if your bust measurement is 36" and your band size is 34, you wear a 34B.

#### DIFFERENCE SIZE

1 inch	A
2 inches	B
3 inches	C
4 inches	D
5 inches	DD
6 inches	DDD
7 inches	G
8 inches	H

Detailed instructions on how to measure your band size and bust measurement to find your ideal bra size. This image guides you through the process step-by-step.

A visual representation of the bra size chart, correlating band and cup measurements with the corresponding Hanes sizes (S, M, L, XL, 2X, 3X).

## Measuring Guide:

1. **Band Size:** Wear your favorite bra. Use a soft tape measure. Wrap the tape measure around your chest to the front, above your bust. This measurement is your band size. If the band number is odd, round down to the closest even number.
2. **Bust Measurement:** Measure completely around the fullest part of your bust, keeping the tape measure level. If this measurement falls on the  $\frac{1}{2}$  inch, round up.
3. **Cup Size:** Subtract the band size from the bust measurement. This number equates to the letter of your cup size. For example, if your bust measurement is 36 inches and your band size is 34, you wear a 34B.

To wear the Hanes X-Temp Foam Wire-free Bra:

1. Fasten the hook-and-eye closure at the back, ensuring a comfortable but snug fit around your rib cage.
2. Adjust the shoulder straps to provide adequate lift and support without digging into your shoulders. The straps are convertible, allowing you to wear them in a traditional or criss-cross (racerback) style for different outfits and support needs.
3. Ensure your breasts are fully encompassed by the foam cups for optimal shaping and comfort.

## Maintenance and Care

---

To ensure the longevity and performance of your Hanes X-Temp Foam Wire-free Bra, please follow these care instructions:

- **Hand Wash Only:** Gently hand wash the bra in cool water with a mild detergent. Avoid harsh chemicals or bleach.
- **Do Not Tumble Dry:** Air dry by laying flat or hanging. Direct heat from a dryer can damage the foam cups and elastic.
- **Do Not Iron:** Ironing can damage the fabric and foam.
- **Storage:** Store bras flat or hung to maintain cup shape.

## Troubleshooting

---

If you encounter issues with your bra, consider the following:

- **Bra feels too tight or too loose:** Re-measure yourself using the sizing guide in the 'Setup and Sizing' section. Ensure you are using the correct band and cup size. The band should be snug but not uncomfortable, and the cups should fully contain your breast tissue without gaping or spilling.
- **Straps are digging in or falling off:** Adjust the strap length. If straps continue to dig in, the band might be too loose, causing the straps to bear too much weight. If they fall off, they might be too loose or set too wide for your shoulder width. Consider using the convertible strap option for a racerback style if straps consistently slip.
- **Cups are wrinkling or gapping:** This often indicates the cup size is too large. Try a smaller cup size.
- **Cups are spilling over:** This indicates the cup size is too small. Try a larger cup size.

## Specifications

---

- **Model Number:** G507
- **Brand:** Hanes
- **Department:** Womens
- **Underwire Type:** Wire Free
- **Strap Type:** Convertible
- **Pattern:** Solid
- **Cup Back Material:** 50% Nylon, 37% Polyester, 13% Spandex
- **First Available:** 10 May 2025

## Warranty and Support

---
