Mcage Mcage XX

Mcage XX Extra Large Dome Top Bird Parrot Cage Instruction Manual

Model: Mcage XX | ASIN: B018NB2CGM

1. PRODUCT OVERVIEW

The Mcage XX Extra Large Dome Top Bird Parrot Cage is designed to provide a spacious and secure environment for large birds such as macaws and cockatoos. This cage features a durable wrought iron construction with a powder-coated finish, ensuring longevity and safety for your pet.

Key features include:

- Huge dometop design for ample vertical space.
- Large access door (17" opening) for easy interaction and cleaning.
- Removable tray and grate for convenient waste management.
- Three swing-out feeder doors with locking food bowls to prevent spillage.
- One natural hardwood perch and three stainless steel feeders included.
- Integrated stand with four rolling casters for easy mobility.
- 6mm extra strong wire with 1 1/4" bar spacing.
- Flared steel seed skirt to help contain mess.

2. SAFETY INFORMATION

Please read and understand all safety instructions before assembling and using the bird cage. Failure to follow these instructions may result in injury to your pet or damage to the product.

- **Adult Assembly Required:** This product contains small parts and requires adult assembly. Keep children and pets away during assembly.
- **Proper Placement:** Place the cage on a level, stable surface away from direct sunlight, drafts, and extreme temperatures. Ensure it is not near any hazards such as electrical cords or toxic plants.
- **Bar Spacing:** The bar spacing is 1 1/4 inches. Ensure this is appropriate for your bird's species to prevent escape or injury.
- **Regular Inspection:** Periodically check all parts for tightness and damage. Replace any worn or damaged components immediately.
- **Secure Doors:** Always ensure all doors, including the main access door and feeder doors, are securely latched to prevent your bird from escaping.
- **Cleaning:** Use only bird-safe cleaning products. Rinse thoroughly to remove any chemical residues.

3. PACKAGE CONTENTS

Before beginning assembly, verify that all parts listed below are present and undamaged. If any parts are missing or damaged, do not proceed with assembly and contact customer support.

- Cage panels (front, back, sides, top, bottom)
- Removable tray
- Removable grate
- Seed guard panels
- Natural wood perch
- Stainless steel feeder cups (3)
- Casters (4)
- Assembly hardware (bolts, nuts, washers, screwdriver/wrench)

4. ASSEMBLY INSTRUCTIONS

Assembly is designed to be straightforward. It is recommended to have two adults for easier assembly. Clear a large, open area for assembly.

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out and identify each component using the package contents list.
2. **Attach Casters:** Turn the base frame upside down. Insert the four casters into the designated holes on the bottom of the stand. Ensure they are securely seated.
3. **Assemble Base:** Attach the side panels to the front and back panels of the lower stand section using the provided bolts and nuts. Do not fully tighten until all panels are aligned.
4. **Install Main Cage Panels:** Connect the main cage side panels to the front and back panels. Align the pre-drilled holes and secure with bolts and nuts.
5. **Attach Dometop:** Place the dometop panel onto the assembled cage structure, ensuring it aligns correctly with the top edges of the side panels. Secure with hardware.
6. **Insert Grate and Tray:** Slide the removable grate into the designated slots above the removable tray. Then, slide the removable tray into the bottom of the cage.

7. **Install Seed Guard:** Attach the seed guard panels around the base of the cage. These are designed to float, allowing for easy removal for cleaning.
8. **Install Perch and Feeders:** Insert the natural wood perch through the cage bars at a suitable height. Place the stainless steel feeder cups into the swing-out feeder doors and secure them.
9. **Final Tightening:** Once all components are in place and aligned, carefully tighten all bolts and nuts using the provided tools. Do not overtighten.
10. **Check Stability:** Gently shake the assembled cage to ensure it is stable and all connections are secure.

5. USAGE GUIDELINES

This section provides guidance on how to best utilize your Mcage XX bird cage for your pet's well-being.

- **Placement:** Position the cage in a quiet, well-lit area of your home, away from direct drafts, heating/cooling vents, and direct sunlight. Ensure the room temperature is stable.
- **Food and Water:** Fill the stainless steel feeder cups with fresh food and water daily. The swing-out doors allow for easy access without disturbing your bird.
- **Perches:** Utilize the provided natural wood perch. Consider adding additional perches of varying diameters and textures to promote foot health.
- **Toys:** Introduce appropriate bird toys to keep your pet mentally stimulated. Ensure toys are securely attached and bird-safe.
- **Security:** Always ensure the main access door and feeder doors are securely latched when your bird is inside the cage. The locking food bowls provide extra security.
- **Mobility:** Use the rolling casters to easily move the cage for cleaning or repositioning. Engage the caster locks if available, or ensure the cage is stable once moved.

6. MAINTENANCE AND CLEANING

Regular cleaning and maintenance are crucial for your bird's health and the longevity of the cage.

- **Daily Cleaning:**
 - Empty and clean food and water bowls daily.
 - Remove and clean the removable tray. Replace liner if used.
- **Weekly Cleaning:**
 - Remove the removable grate and clean thoroughly.
 - Wipe down all accessible surfaces of the cage with a bird-safe disinfectant or mild soap and water. Rinse thoroughly.
 - Clean the seed guard panels.
- **Monthly Deep Cleaning:**
 - If possible, move your bird to a temporary cage.
 - Disassemble removable parts (perches, feeders, grate, tray, seed guard) and clean them thoroughly.
 - Wash the entire cage structure with a bird-safe cleaner. Use a brush to reach crevices.
 - Rinse the entire cage thoroughly with clean water to remove all cleaning solution residue.
 - Allow all parts to dry completely before reassembling and returning your bird.
- **Perch Maintenance:** Inspect the natural wood perch regularly for signs of wear, splintering, or excessive chewing. Replace if necessary.

- **Hardware Check:** Periodically check all bolts and nuts to ensure they remain tight. Tighten as needed.

7. TROUBLESHOOTING

This section addresses common issues you might encounter with your bird cage.

Problem	Possible Cause	Solution
Cage feels wobbly after assembly.	Bolts not fully tightened; uneven floor surface.	Ensure all assembly bolts are securely tightened. Move the cage to a level surface.
Bird is escaping.	Doors not latched; bar spacing too wide for bird species.	Always double-check that all doors (main, feeder, breeder) are securely latched. Confirm the 1 1/4" bar spacing is suitable for your bird.
Seed/debris spilling outside cage.	Seed guard not installed or positioned correctly; bird is messy eater.	Ensure the flared steel seed skirt is properly installed around the base. Consider using deeper feeder bowls or a different feeding method if spillage persists.
Casters not rolling smoothly.	Debris in casters; casters not fully inserted.	Clean any hair or debris from the caster wheels. Ensure casters are fully inserted into their sockets.

8. SPECIFICATIONS

Model Name:	Mcage XX
