

iPort Launch BaseStation

iPort Launch BaseStation iPad Stand User Manual

Model: Launch BaseStation | Brand: iPort

1. INTRODUCTION

The iPort Launch BaseStation is a sophisticated inductive charging stand designed for your iPad. It provides a convenient and secure location to hold, charge, and protect your iPad on a tabletop. This system works in conjunction with an iPort Launch Case (sold separately) to enable seamless wireless charging and versatile placement options.

The BaseStation allows your iPad, when enclosed in a compatible Launch Case, to be magnetically mounted and inductively charged. It supports both portrait and landscape orientations, making it ideal for various uses, from home automation control to business presentations.

2. WHAT'S IN THE BOX

Please verify that all components are present before proceeding with the setup.

- iPort Launch BaseStation
- iPort 15V 2A Power Supply
- QuikStart Guide (this manual)

3. SETUP

3.1 Unpacking and Placement

Carefully remove the BaseStation and its components from the packaging. Place the BaseStation on a stable, flat surface where you intend to use your iPad. Ensure there is a power outlet nearby.

I PORT LAUNCH

EXPERIENCE IPAD® IN A WHOLE NEW WAY

I PORT LAUNCH is a wireless charging system for iPad designed to hold, charge and protect iPad on a table, wall or in a vehicle. The LAUNCH system consists of a case, and the option between a BaseStation or WallStation for mounting and charging on a table top or wall.

Figure 1: iPort Launch BaseStation with labeled components, including the inductive charging interface and power input.

3.2 Connecting Power

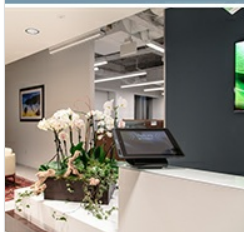

Connect the provided iPort 15V 2A Power Supply to the power input port on the BaseStation. Plug the power supply into a standard electrical outlet. The BaseStation is now ready to charge your iPad.

3.3 Preparing Your iPad

The iPort Launch BaseStation requires an iPort Launch Case (sold separately) to function. Ensure your iPad is securely installed within a compatible iPort Launch Case. The Launch Case features a magnetic and inductive charging interface on its rear, which aligns with the BaseStation.

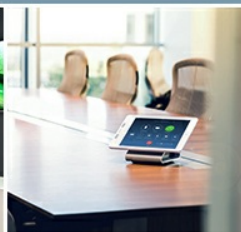

TAKE YOUR BUSINESS TO THE NEXT LEVEL WITH IPORT AT WORK

Business is driven by Apps. iPad Deployments have become a necessity. The optimal solution for iPad deployments in business is the combination of the iPad, applications, and the method to hold, charge, and protect the device. IPORT products complete iPad, ensuring it is always charged, protected, and accessible... wherever the road may take it.

Lobby / Guest Check-In

4. OPERATING INSTRUCTIONS

4.1 Placing the iPad for Charging

With your iPad in its iPort Launch Case, simply place it onto the BaseStation. The magnets in the case and BaseStation will align, securing the iPad in place. Inductive charging will begin automatically upon proper connection.

The BaseStation allows for flexible orientation. You can place your iPad in either portrait or landscape mode, and charging will continue uninterrupted.

5. MAINTENANCE

To maintain the appearance and functionality of your iPort Launch BaseStation, follow these simple guidelines:

- **Cleaning:** Use a soft, dry, lint-free cloth to wipe the surface of the BaseStation. For stubborn marks, a slightly damp cloth with mild soap can be used, ensuring no liquid enters any openings.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or aerosol sprays, as these can damage the finish.
- **Environmental Conditions:** Keep the BaseStation in a dry environment and avoid extreme temperatures.

6. TROUBLESHOOTING

If you encounter issues with your iPort Launch BaseStation, please refer to the following common solutions:

- **iPad Not Charging:**
 - Ensure the power supply is securely connected to both the BaseStation and a working electrical outlet.
 - Verify that your iPad is correctly seated on the BaseStation, with the magnetic and inductive charging interfaces aligned. You should feel a secure magnetic connection.
 - Confirm that your iPad is enclosed in an official iPort Launch Case, as the BaseStation is only compatible with these cases.
 - Check if the iPad's battery is completely depleted. It may take a few minutes for the charging indicator to appear if the battery is very low.
- **Unstable iPad Connection:**
 - Ensure the BaseStation is placed on a flat, stable surface.
 - Inspect the magnetic interface on both the BaseStation and the Launch Case for any obstructions or damage.
- **BaseStation Feels Warm:**

- It is normal for the BaseStation to become slightly warm during operation, especially during active charging. If it becomes excessively hot, disconnect the power supply and contact support.

If these steps do not resolve your issue, please contact iPort customer support for further assistance.

7. SPECIFICATIONS

Feature	Detail
