Lighting EVER LE 33ft 100 LED Warm White Copper Wire Fairy String Lights Instruction Manual

Model: B0196H75KA

1. INTRODUCTION

Thank you for choosing the Lighting EVER LE 33ft 100 LED Warm White Copper Wire Fairy String Lights. This manual provides essential information for the safe and effective use of your new lighting product. Please read it thoroughly before installation and operation.

Image: The LE 33ft 100 LED Warm White Copper Wire Fairy String Lights, coiled with its UL Certified power adapter and on/off switch.

2. SAFETY INFORMATION

- Ensure the power adapter is kept away from water. The string lights are IP65 waterproof, but the adapter is IP44 and not fully waterproof.
- Do not cut or connect this string light to other string lights.
- The lights operate at a low voltage (6.5V DC output) and low current, making them safe to touch and preventing overheating.
- Always unplug the lights from the power source before cleaning or when not in use for extended periods.
- Do not attempt to repair or modify the product. Contact customer support for assistance.

3. PRODUCT FEATURES

- **Charming Lighting:** 100 LEDs provide 3000K warm white light with 360° illumination.
- **Waterproof Material:** IP65 waterproof rating for the string lights part. The adapter is IP44 rated.
- **Flexible and Bendable:** Made with sturdy copper wire, allowing for easy shaping and wrapping around objects.

- **Power Adaptor Included:** UL Certified Power Adapter with standard US plug and 6.6 feet extension cord.
- **Safe to Touch:** Low power consumption ensures the lights remain cool, even after prolonged use.

Safe and Cool to Touch

4. PACKAGE CONTENTS

Upon opening the package, please ensure all items are present and undamaged:

- 1 x 33ft 100 LED Copper Wire Fairy String Lights
- 1 x UL Certified Power Adapter with Standard US Plug
- 1 x 6.6 Feet Extension Cord
- 1 x User Manual (this document)

5. SETUP INSTRUCTIONS

1. Carefully uncoil the 33ft copper wire fairy string lights. Avoid tangling the wire.
2. Connect the fairy light string to the 6.6 feet extension cord.

3. Connect the extension cord to the UL Certified Power Adapter.
4. Plug the power adapter into a standard US electrical outlet.
5. Position the lights as desired. The flexible copper wire allows for various shapes and placements.
6. Ensure the power adapter is in a dry location, especially if using the lights outdoors, as it is not fully waterproof.

7. MAINTENANCE

- To clean the lights, ensure they are unplugged. Gently wipe the copper wire and LEDs with a soft, dry cloth.
- Do not use harsh chemicals or abrasive cleaners.
- Store the lights in a cool, dry place when not in use, preferably in their original packaging to prevent tangling and damage.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Lights do not turn on.	No power supply or loose connection.	Ensure the power adapter is securely plugged into a working outlet. Check all connections between the light string, extension cord, and adapter.
Lights flicker or are dim.	Insufficient power or faulty connection.	Verify the power source is stable. Check for any damage to the wire or connections.
Some LEDs are not working.	Individual LED failure.	LEDs are integrated and not user-replaceable. If a significant number fail, contact customer support.

9. SPECIFICATIONS

- **Model:** B0196H75KA
