

## DRABEST ALDD2-150

# Drabest PRO Series Double Aluminum Household Ladder 2x2 Steps

Model: ALDD2-150

## INTRODUCTION

This instruction manual provides essential information for the safe and effective use of your Drabest PRO Series Double Aluminum Household Ladder, model ALDD2-150. Please read this manual thoroughly before initial use and retain it for future reference. Adherence to these instructions ensures your safety and the longevity of the product.

## SAFETY INSTRUCTIONS

**WARNING: Failure to follow these safety instructions may result in serious injury or death.**

- **Maximum Load Capacity:** Do not exceed the maximum load of 150 kg (including user and tools).
- **Stable Surface:** Always place the ladder on a firm, level, and non-slip surface. Avoid soft ground, uneven floors, or slippery areas.
- **Inspection Before Use:** Before each use, inspect the ladder for any damage, loose components, or wear. Do not use a damaged ladder.
- **Proper Setup:** Ensure the ladder is fully opened and locked into position before climbing. Check all hinges and locking mechanisms.
- **Maintain Three Points of Contact:** Always maintain three points of contact (two hands and one foot, or two feet and one hand) when ascending or descending the ladder.
- **Face the Ladder:** Always face the ladder when climbing up or down.
- **Do Not Overreach:** Keep your body centered between the side rails. Do not overreach to the side, as this can cause the ladder to tip.

- **One User Only:** This ladder is designed for use by one person at a time.
- **Footwear:** Wear appropriate, non-slip footwear when using the ladder.
- **Electrical Hazards:** Be aware of electrical hazards. Do not use the ladder near live electrical wires or equipment.
- **Weather Conditions:** Avoid using the ladder in strong winds, rain, or icy conditions.
- **Children and Pets:** Keep children and pets away from the ladder during use and storage.

This ladder complies with EN 131 standards and is TÜV Rheinland certified, ensuring high quality and safety when used correctly.

## SETUP

1. **Unfolding the Ladder:** Place the folded ladder on a flat, stable surface. Gently pull the two sections apart until the locking mechanisms engage and the ladder is fully extended into its A-frame position.
2. **Verify Stability:** Before climbing, ensure all four feet are firmly on the ground and the ladder does not wobble. Check that the spreaders or hinges are fully locked.

## OPERATING INSTRUCTIONS

1. **Ascending/Descending:** Always climb and descend facing the ladder, using both hands to grip the side rails.
2. **Working Position:** Position yourself centrally on the steps. The wide, ribbed aluminum steps provide enhanced grip and comfort.
3. **Platform Use:** The top platform is designed for standing. Ensure you are stable before performing tasks.
4. **Task Suitability:** This ladder is suitable for various household tasks such as cleaning windows, changing light bulbs, or light painting and renovation work.

## MAINTENANCE

---

1. **Cleaning:** Clean the ladder with a damp cloth and mild detergent. Avoid abrasive cleaners or solvents that could damage the aluminum or plastic components.
2. **Storage:** After use, fold the ladder for compact storage. Store it in a dry place, away from direct sunlight and extreme temperatures.
3. **Regular Inspection:** Periodically check all parts for wear, corrosion, or damage. Pay close attention to the steps, feet, hinges, and locking mechanisms. Replace any damaged parts immediately or discontinue use.

## Pratique et facile à ranger

L'échelle est facile à plier pour un rangement pratique, même dans les petits espaces. Excellente pour les travaux à la maison, au bureau ou dans les magasins. Compacte mais extrêmement robuste, elle est toujours prête à l'emploi !

## TROUBLESHOOTING

- **Ladder feels unstable:** Ensure the ladder is fully opened and locked. Check that all four feet are on a flat, stable, and non-slip surface. Adjust the position if necessary.
- **Difficulty folding/unfolding:** Check for any obstructions in the hinges or locking mechanisms. Ensure no debris is preventing smooth operation. Do not force the ladder.
- **Damaged components:** If any part of the ladder is bent, cracked, or broken, discontinue use immediately. Do not attempt to repair structural damage yourself. Contact customer support.

## SPECIFICATIONS

Feature	Detail
Brand	DRABEST
Model Number	ALDD2-150
Material	Aluminum, Plastic
Number of Steps	2x2 (Double-sided 2 steps)
Product Dimensions (L x W x H)	39 x 12.67 x 41 cm (folded)
