Sea Gull Lighting 98877S-15

Sea Gull Lighting 98877S-15 24-inch Under Cabinet Fixture

User Manual

IMPORTANT SAFETY INSTRUCTIONS

WARNING: To reduce the risk of fire, electric shock, or injury to persons, follow these instructions:

- Read all instructions carefully before beginning installation.
- Turn off power at the circuit breaker or fuse box before installing or servicing this fixture.
- All wiring connections must be made in accordance with local and national electrical codes. If you are unfamiliar with proper electrical wiring connections, consult a qualified electrician.
- Do not install this fixture in wet or damp locations.
- Ensure the fixture is securely mounted to a structurally sound surface.
- Do not attempt to modify the fixture or its components.
- Use only the specified voltage (120V) for this fixture.

PRODUCT OVERVIEW

The Sea Gull Lighting 98877S-15 is a 24-inch under cabinet fixture designed to provide efficient and stylish illumination. This self-contained Glyde 120V LED fixture features a white finish and a modern style, making it suitable for various kitchen and workspace aesthetics. It utilizes integrated LED technology for long-lasting, energy-efficient lighting.

PACKAGE CONTENTS

Verify that all components are present before beginning installation. If any parts are missing or damaged, do not proceed with installation and contact customer support.

- Sea Gull Lighting 98877S-15 Under Cabinet Fixture (1 unit)

- Mounting Hardware (screws, wire nuts, etc.)
- Installation Guide (this manual)

INSTALLATION INSTRUCTIONS

Note: It is recommended that a qualified electrician perform the installation of this fixture. Ensure power is OFF at the circuit breaker before starting.

1. **Prepare for Installation:** Turn off the main power supply to the installation area at the circuit breaker or fuse box. Ensure the power is off by testing the circuit with a voltage tester.
2. **Identify Mounting Location:** Select a suitable location under a cabinet for the fixture. Mark the mounting points for the screws.
3. **Secure Mounting Bracket (if applicable):** If your fixture includes a separate mounting bracket, attach it to the underside of the cabinet using the provided screws.
4. **Wire Connections:**
 - Connect the bare copper or green ground wire from the fixture to the ground wire from the electrical box.
 - Connect the white wire from the fixture to the white (neutral) wire from the electrical box.
 - Connect the black wire from the fixture to the black (hot) wire from the electrical box.
 - Secure all connections with wire nuts and ensure no bare wire is exposed.
5. **Mount the Fixture:** Carefully align the fixture with the mounting bracket or directly with the marked screw points. Secure the fixture in place using the provided screws.
6. **Restore Power:** Once the fixture is securely mounted and all wiring connections are complete, restore power at the circuit breaker.
7. **Test Operation:** Turn on the light switch to verify the fixture is working correctly.

OPERATION

The Sea Gull Lighting 98877S-15 fixture is designed for simple operation. It is controlled via a remote control (if included) or a standard wall switch.

- **Wall Switch Control:** Flip the connected wall switch to the "ON" position to illuminate the fixture. Flip to "OFF" to turn it off.
- **Remote Control:** The product specifications indicate a remote control method. If your model includes a remote, refer to its specific instructions for pairing and function details (e.g., dimming, color temperature adjustment).

MAINTENANCE

Regular maintenance will help preserve the appearance and functionality of your fixture.

- **Cleaning:** Disconnect power before cleaning. Use a soft, dry, or slightly damp cloth to wipe the exterior surfaces of the fixture. Do not use abrasive cleaners, solvents, or polishes as they may damage the finish.
- **LED Light Source:** The LED light source in this fixture is integrated and not user-replaceable. If the LEDs fail, the entire fixture may need to be replaced.
- **Inspection:** Periodically inspect the wiring and mounting for any signs of wear or loosening.

TROUBLESHOOTING

If you experience issues with your fixture, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Fixture does not light up.	◦ No power to the fixture. ◦ Loose wire connection. ◦ Faulty wall switch or remote.	◦ Check circuit breaker/fuse. ◦ Verify all wire connections are secure (ensure power is off first). ◦ Test wall switch or remote functionality.
Light flickers or dims.	◦ Loose wire connection. ◦ Incompatible dimmer switch (if applicable).	◦ Check wire connections (ensure power is off first). ◦ Ensure any dimmer switch used is compatible with LED fixtures.

If the problem persists after attempting these solutions, contact customer support.

WARRANTY AND SUPPORT

Manufacturer's Warranty

All products purchased have a 30-day replacement parts policy to ensure a fully working item. All products are covered under a 1-year warranty when purchased on Amazon. The warranty period begins on the day the product is originally shipped. The warranty covers all of the items and conditions identified in the original manufacturer's warranty. Some of the items specifically not covered by the warranty are loss and theft, water damage, customer abuse, and finish deterioration due to UV or coastal exposure.

Customer Support

For technical assistance, warranty claims, or to report missing/damaged parts, please contact Sea Gull Lighting customer support. Refer to the product packaging or the official Sea Gull Lighting website for current contact information.
