Zmodo Pivot 1080p 360° Rotating Wireless Security Camera and Smart Home Hub Instruction Manual

Model: ZM-SHP001B | Brand: Zmodo

1. INTRODUCTION

The Zmodo Pivot is an all-in-one monitoring solution designed for indoor use, featuring a 1080p camera with 360-degree rotation capabilities. It integrates security with smart home features, offering two-way audio, local storage, and environmental monitoring. This manual provides essential information for setting up, operating, and maintaining your Zmodo Pivot device.

2. WHAT'S IN THE BOX

- 1 x Zmodo Pivot Device
- 1 x Power Supply
- 2 x Window/Door Sensors
- 1 x Quick Guide

Image 2: Zmodo Pivot packaging and included components.

3. SETUP

3.1 Initial Device Setup

1. **Power On:** Connect the Zmodo Pivot to the included power supply and plug it into a wall outlet.
2. **Download App:** Download the Zmodo mobile app from your device's app store.
3. **Create Account:** Open the app and create a new Zmodo account or log in with existing credentials.
4. **Add Device:** Follow the in-app instructions to add your Zmodo Pivot. This typically involves scanning a QR code on the device and connecting it to your password-protected 2.4GHz Wi-Fi network with WPA/WPA2 encryption.

3.2 Pairing Door/Window Sensors

The Zmodo Pivot acts as a smart hub for Zmodo accessories, including the provided door and window sensors. To pair these sensors:

1. In the Zmodo app, navigate to the device settings for your Pivot.
2. Select "Connected Accessories" and tap the '+' icon to add a new accessory.

3. Follow the on-screen prompts to activate the sensor (usually by pressing a small button on the sensor itself).
4. Once paired, you can customize rules, such as having the Pivot camera turn to a specific direction when a sensor is triggered.

Your browser does not support the video tag.

4. OPERATING INSTRUCTIONS

4.1 Live View and Camera Control

- Access live 1080p video feed through the Zmodo app.
- Control the 360-degree rotation of the camera directly from the app to view different areas of your space.
- If mounted upside down, use the "Flip Screen" option in the app settings to correct the video orientation.

Image 3: Zmodo app interface displaying live camera view and control options.

4.2 Motion Detection and Alerts

- Receive instant alerts on your smartphone when motion is detected.
- Customize specific areas within the camera's field of view to trigger motion detection alerts, reducing false alarms.
- The Pivot records short video clips (typically 12-15 seconds) upon motion detection, which are stored locally for 24 hours.

4.3 Two-Way Audio

- Utilize the built-in microphone and speaker for two-way communication through the app.

4.4 Smart Home Hub Features

- The Pivot provides real-time temperature and humidity readings for your home environment.
- It functions as a hub for Zmodo smart accessories, allowing for integrated security and automation.
- The device also includes a Bluetooth speaker for audio playback.

4.5 Lighting Schedule and Color Settings

- Set up custom lighting schedules through the app to automatically turn the device's light on or off at specific times.

- Adjust color settings and brightness to suit your preferences or create ambient lighting effects.

5. MAINTENANCE

- **Cleaning:** Gently wipe the camera lens and device exterior with a soft, dry cloth. Avoid abrasive cleaners or solvents.
- **Firmware Updates:** Regularly check the Zmodo app for available firmware updates to ensure optimal performance and security.
- **Placement:** The Zmodo Pivot is designed for indoor use. While it has an IP65 rating (indicating dust-tight and protection against low-pressure water jets), it is not recommended for prolonged outdoor exposure to harsh weather conditions.

6. TROUBLESHOOTING

- **Connection Issues:** Ensure your Zmodo Pivot is connected to a stable 2.4GHz Wi-Fi network with WPA/WPA2 encryption. If connection drops, try restarting your router and the Pivot device.
- **Motion Detection Not Triggering:** Verify that motion detection is enabled in the app settings and that the detection areas are correctly configured. Adjust sensitivity if necessary.
- **Night Vision Clarity:** Ensure there are no obstructions in front of the camera lens that could interfere with infrared illumination.
- **App Responsiveness:** If the app is slow or unresponsive, try closing and reopening it, or reinstalling the app. Ensure your smartphone's operating system is up to date.
- **Changing Wi-Fi Networks:** If you change your Wi-Fi network (e.g., new router or ISP), you will need to re-register the device to the new network through the Zmodo app.

7. SPECIFICATIONS

Feature	Specification
Indoor/Outdoor Usage	Indoor
Video Capture Resolution	1080p
Field Of View	360 Degrees (Rotation) / 135 Degrees (Camera Lens)
Connectivity Technology	Wireless (Wi-Fi 2.4GHz)
Storage	16 GB Flash Memory Installed
Night Vision Range	32 Feet
Audio	Two-Way Audio

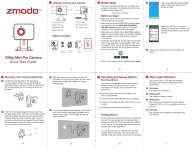

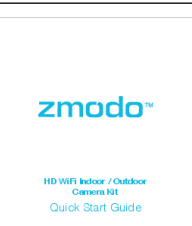

Special Feature	Motion Sensor, Temperature & Humidity Readings, Bluetooth Speaker
Dimensions (L x W x H)	5.3 x 3 x 3 inches
Item Weight	1.25 pounds
Power Source	AC/DC
International Protection Rating	IP65

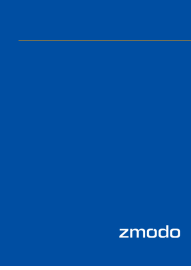

8. WARRANTY AND SUPPORT

The Zmodo Pivot comes with a full 1-Year US Warranty. Complimentary unlimited US-based technical support is included within the warranty period. For assistance, please refer to the contact information provided in your Quick Guide or visit the official Zmodo support website.
