Mitel Aastra 6869i Gigabit SIP Telephone User Manual

Model: 6869i

INTRODUCTION

This manual provides comprehensive instructions for the setup, operation, and maintenance of your Mitel Aastra 6869i Gigabit SIP Telephone. Please read this manual thoroughly to ensure proper use and to maximize the features of your device.

PACKAGE CONTENTS

Verify that all items are present in your product package:

- Mitel Aastra 6869i IP Telephone Unit
- Handset
- Handset Cord
- Ethernet Cable
- Power Adapter (if not using Power over Ethernet)
- Desk Stand

PHYSICAL FEATURES AND COMPONENTS

The Mitel Aastra 6869i features a large color display and a comprehensive set of keys for efficient communication. Refer to the image below for a visual guide to the phone's components.

Figure 1: Mitel Aastra 6869i IP Telephone Overview

This image displays the Mitel Aastra 6869i IP telephone from an angled perspective, showing the handset resting on the cradle, the large color display, the numeric keypad, and various function keys. The display shows an active call interface with contact names and call duration. The Aastra logo is visible above the display.

Key Components:

- **Color Display:** Large, backlit display for call information, menus, and directories.
- **Soft Keys:** Context-sensitive buttons located below the display, their functions change based on the current screen.
- **Navigation Cluster:** Central directional pad for menu navigation.
- **Numeric Keypad:** Standard 0-9, *, # keys for dialing.
- **Line Keys (L1, L2, etc.):** Dedicated buttons for managing multiple lines or programmable features.
- **Function Keys:** Dedicated buttons for features like Speakerphone, Headset, Mute, Volume, Hold, Transfer, Conference, Voicemail, and Home.
- **Handset:** Traditional telephone receiver.

SETUP GUIDE

Follow these steps to set up your Mitel Aastra 6869i telephone.

1. **Attach the Desk Stand:** Align the desk stand with the slots on the back of the phone unit and snap

it into place.

2. **Connect the Handset:** Plug one end of the coiled handset cord into the handset and the other end into the handset port on the back of the phone unit (marked with a handset icon).
3. **Connect to Network (Ethernet):**
 - Plug one end of the Ethernet cable into the LAN port on the back of the phone (marked with a network icon).
 - Plug the other end of the Ethernet cable into your network switch or router.
 - *Note: If your network supports Power over Ethernet (PoE), the phone will power on automatically.*
4. **Connect Power (if not using PoE):** If PoE is not available, connect the power adapter to the power port on the back of the phone and then plug it into a standard electrical outlet.
5. **Connect Headset (Optional):** If using a headset, plug it into the dedicated headset port on the phone (marked with a headset icon).
6. **Initial Boot-up:** The phone will power on and begin its boot sequence. This may take a few minutes. The display will show the boot progress and then the main idle screen once connected to the network and registered with your SIP server.

OPERATING INSTRUCTIONS

Basic Call Functions

- **Making a Call:**
 - a. Lift the handset, press the Speakerphone button, or press an available Line key.
 - b. Dial the desired number using the numeric keypad.
 - c. Press the **Dial** soft key or wait for the call to connect automatically.
- **Answering a Call:**
 - a. When the phone rings, lift the handset, press the Speakerphone button, or press the flashing Line key.
- **Ending a Call:**
 - a. If using the handset, place it back in the cradle.
 - b. If using speakerphone or headset, press the **End Call** soft key or the Speakerphone/Headset button.

Advanced Call Functions

- **Hold:** During an active call, press the **Hold** soft key or dedicated Hold button. To resume, press the flashing Line key or the **Resume** soft key.
- **Transfer:** During an active call, press the **Xfer** (Transfer) soft key or dedicated Transfer button. Dial the transfer destination number, then press the **Transfer** soft key again.
- **Conference:** During an active call, press the **Conf** (Conference) soft key or dedicated Conference button. Dial the number of the third party, and once connected, press the **Conf** soft key again to join all parties.

Using the Display and Soft Keys

The color display provides visual information about calls, menus, and phone status. The soft keys located directly below the display change their function based on the current context. Their labels on the screen indicate their current action (e.g., Pickup, Conf, Xfer, Voicemail, Home).

Voicemail

To access your voicemail, press the dedicated **Voicemail** button. Follow the audio prompts to listen to messages, change greetings, or adjust settings.

Directory/Contacts

Access your phone's directory by pressing the **Directory** soft key or a dedicated button (if configured). Use the navigation cluster to scroll through contacts and press the **Dial** soft key to initiate a call.

Volume Control

Adjust the volume during a call using the **Volume Up** and **Volume Down** buttons. When the phone is idle, these buttons control the ringer volume.

MAINTENANCE

Cleaning the Phone

- Disconnect the phone from power before cleaning.
- Use a soft, damp, lint-free cloth to wipe the phone's surfaces.
- Do not use abrasive cleaners, waxes, or solvents, as these can damage the finish.
- Avoid spraying liquids directly onto the phone.

Storage

Store the phone in a cool, dry place away from direct sunlight and extreme temperatures when not in use for extended periods.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Phone does not power on.	No power connection or PoE issue.	• Ensure the power adapter is securely connected to the phone and a working electrical outlet. • If using PoE, verify the Ethernet cable is connected to a PoE-enabled port on your network switch. • Try a different power outlet or Ethernet port.

Problem	Possible Cause	Solution
No dial tone.	Network connectivity issue or SIP registration failure.	• Check Ethernet cable connection. • Restart the phone by disconnecting and reconnecting power. • Contact your system administrator to verify SIP registration and network settings.
Display is blank or frozen.	Software issue or power problem.	• Perform a power cycle (unplug and replug the power). • If the issue persists, contact technical support.
Cannot hear caller or caller cannot hear me.	Volume settings, handset/headset connection, or microphone issue.	• Adjust the volume using the volume buttons. • Ensure the handset or headset is properly connected. • Check if the Mute function is active.

SPECIFICATIONS

Feature	Detail
Model Number	80C00003AAA-A
Product Dimensions	15 x 12 x 10 inches
Item Weight	2.53 pounds
Brand	Mitel
Color	Black
Telephone Type	Corded
Material	Plastic
Power Source	Corded Electric (PoE capable)
Dialer Type	Single Keypad
Answering System Type	Digital
Conference Call Capability	Basic

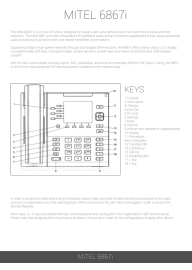

WARRANTY AND SUPPORT

For information regarding product warranty, please refer to the warranty card included with your purchase or visit the official Mitel website. For technical support, contact your system administrator or the vendor from whom you purchased the device.

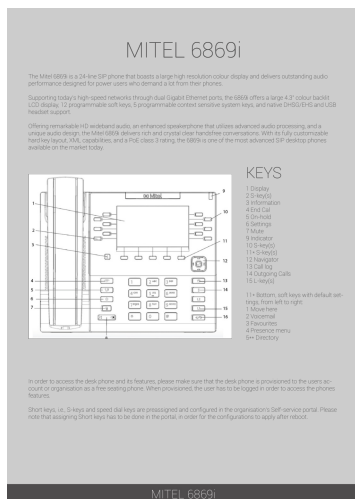

Note: This manual is for informational purposes only. Specifications and features are subject to change without notice.
