Abus 72IB/30

Abus 72IB/30 Red Aluminium Padlock User Manual

Model: 72IB/30

1. PRODUCT OVERVIEW

The Abus 72IB/30 is a durable padlock designed for securing various items and locations. It features an anti-corrosive anodized aluminum body and a stainless steel bow, making it suitable for both indoor and outdoor use. This padlock is equipped with a precision 6-pin cylinder for enhanced security.

2. KEY FEATURES

- **Material:** Anti-corrosive anodized aluminum body with a stainless steel bow.
- **Size:** 30mm body width.
- **Security:** Precision 6-pin cylinder, double latch lock mechanism.
- **Application:** Suitable for securing doors, gates, cabinets, lockers, tool boxes, and basement windows.
- **Color:** Red finish.

3. SETUP

- 1. Inspect Contents:** Upon unboxing, verify that the padlock and its keys are present and undamaged.
- 2. Key Identification:** Each padlock comes with a set of keys. Keep one key in a safe, accessible location and store spares securely.
- 3. Initial Test:** Before deployment, insert a key into the keyway and turn it to ensure the locking mechanism operates smoothly. The shackle should open and close without excessive force.

Image 2: A close-up of the Abus padlock key, showing its unique cut and branding.

4. OPERATING INSTRUCTIONS

4.1. Locking the Padlock

1. Ensure the shackle is in the open position.
2. Position the padlock around the items or through the hasp you wish to secure.
3. Push the shackle firmly into the padlock body until it clicks into place. This indicates it is locked.
4. Gently pull on the shackle to confirm it is securely locked.

4.2. Unlocking the Padlock

1. Insert the correct key into the keyway.
2. Turn the key clockwise (or counter-clockwise, depending on the lock mechanism) until the shackle springs open or can be pulled open.
3. Remove the key.

5. MAINTENANCE

Regular maintenance ensures the longevity and reliable operation of your Abus padlock.

- **Cleaning:** Periodically wipe the padlock body and shackle with a clean, dry cloth to remove dirt and grime. For outdoor use, clean more frequently.
- **Lubrication:** Apply a small amount of graphite-based lubricant or a specialized lock lubricant into the keyway and around the shackle entry points once or twice a year. Avoid using oil-based lubricants as they can attract dust and debris.

- **Key Care:** Do not force the key if it feels stiff. Ensure the key is fully inserted before turning. Avoid using keys for purposes other than operating the lock.

6. TROUBLESHOOTING

- **Key is Stiff or Hard to Turn:**

Ensure the key is fully inserted. Apply a small amount of lock lubricant into the keyway. Check for any debris obstructing the keyway.

- **Shackle Does Not Lock:**

Verify that the shackle is properly aligned with the locking holes. Check for any obstructions preventing the shackle from fully entering the body. The internal mechanism might require lubrication.

- **Shackle Does Not Open:**

Ensure you are using the correct key. Turn the key completely. If the lock has been exposed to extreme weather, the mechanism might be frozen; try warming it gently (e.g., with warm breath, not open flame).

7. SPECIFICATIONS

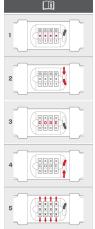

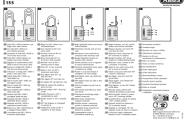

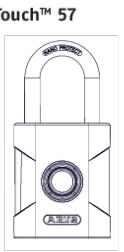

Brand	Abus
Model Number	72IB/30
Lock Type	Key Lock
Material	Aluminium, Stainless Steel
Body Width	30mm
Color	Red
Item Dimensions (L x W x H)	2.56 x 1.18 x 0.59 inches
