Fastrack NR3084NM01

Fastrack Men's Analog Grey Dial Watch NR3084NM01 User Manual

1. INTRODUCTION

This manual provides essential information for the proper setup, operation, and maintenance of your Fastrack Men's Analog Grey Dial Watch, model NR3084NM01. Please read these instructions carefully to ensure optimal performance and longevity of your timepiece.

Figure 1: Fastrack Men's Analog Grey Dial Watch NR3084NM01 , front view.

2. PRODUCT OVERVIEW

The Fastrack NR3084NM01 is an analog watch featuring a grey dial, stainless steel case, and a stainless steel band. It is powered by a quartz movement and offers water resistance up to 50 meters.

Key Components:

- **Crown:** Used for setting time.
- **Dial:** Displays hours, minutes, and seconds.
- **Case:** Protects the internal movement.
- **Band:** Secures the watch to your wrist.
- **Clasp:** Push Button Foldover Clasp With Safety for secure fastening.

Figure 2: Close-up view of the watch dial and crown, highlighting the time-setting mechanism.

3. SETUP

3.1 Setting the Time

1. Gently pull the crown (located on the right side of the watch case) outwards to the first position.
2. Rotate the crown clockwise or counter-clockwise to adjust the hour and minute hands to the correct time.

3. Once the time is set, push the crown back into its original position to start the watch movement.

3.2 Adjusting the Band

The stainless steel band features a Push Button Foldover Clasp With Safety. For initial fitting, the band may require adjustment by a professional watchmaker to remove or add links for a comfortable fit. Ensure the clasp engages securely after wearing.

Figure 3: The Fastrack watch worn on a wrist, demonstrating typical fit.

4. OPERATING THE WATCH

Your Fastrack watch is designed for straightforward operation. Once the time is set, the quartz movement will keep accurate time. The watch is battery-powered and does not require winding.

Water Resistance

This watch is water resistant up to 50 meters (5 ATM). This means it is suitable for everyday use and can withstand splashes, rain, and brief immersion in water. It is **not** suitable for swimming, diving, or showering with hot water, as steam and temperature changes can compromise the seals.

Important: Do not operate the crown or push buttons while the watch is wet or submerged in water.

5. MAINTENANCE

5.1 Cleaning

To maintain the appearance of your watch:

- Wipe the case and band regularly with a soft, dry cloth.
- For stainless steel bands, a slightly damp cloth can be used, followed by a dry cloth.
- Avoid using chemical cleaners, solvents, or abrasive materials, as these can damage the watch's finish.

5.2 Battery Replacement

The watch is powered by 1 Lithium Polymer battery. When the watch stops or the second hand begins to skip, it indicates a low battery. Battery replacement should be performed by a qualified watch technician to ensure proper sealing and maintain water resistance.

5.3 Storage

When not in use, store your watch in a cool, dry place, away from direct sunlight and extreme temperatures. The original packaging (can-shaped box) can be used for safe storage.

Figure 4: The Fastrack watch is supplied in a distinctive can-shaped packaging, suitable for storage.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Watch not running	• Crown is pulled out. • Battery is depleted.	• Push the crown back into its normal position. • Replace the battery (professional service recommended).
Time is inaccurate	• Battery is low. • Exposure to strong magnetic fields. • Internal movement issue.	• Replace the battery. • Keep watch away from strong magnets. • Contact customer support for service.
Condensation inside crystal	• Water resistance compromised. • Extreme temperature changes.	• Seek immediate professional service to prevent further damage.

7. SPECIFICATIONS

Model Number	NR3084NM01
Display Type	Analog
Movement Type	Quartz
Case Material	Stainless Steel
Case Diameter	39.5 Millimetres
Case Thickness	6.35 Millimetres
Band Material	Stainless Steel
Band Colour	Silver
Dial Colour	Grey
Crystal Material	Glass

Water Resistance Depth	50 Metres
Power Source Type	Battery Powered (1 Lithium Polymer battery)
Clasp Type	Push Button Foldover Clasp With Safety
Item Weight	180 Grams
Manufacturer	Fastrack, Titan Company Ltd
