UPBRIGHT PBT4000, PBT4001, PBT4002

UpBright 5V AC/DC Adapter Instruction Manual

For Polaroid PBT4000, PBT4001, PBT4002 Portable Turntables and Wireless Devices

INTRODUCTION

This manual provides essential instructions for the safe and effective use of your UpBright 5V AC/DC Adapter. This adapter is designed to provide reliable power to compatible Polaroid portable turntables and other wireless devices requiring a 5V DC power supply. Please read this manual thoroughly before use and retain it for future reference.

IMPORTANT SAFETY INSTRUCTIONS

- **Voltage Compatibility:** Ensure the adapter's input voltage (100-240VAC, 50/60Hz) matches your local power supply.
- **Device Compatibility:** Only use this adapter with devices that specify a 5V DC input and a current draw of 1A (1000mA) or less. Using with incompatible devices may cause damage.
- **Environmental Conditions:** Do not expose the adapter to water, moisture, or extreme temperatures. Use indoors only.
- **Physical Damage:** Do not use the adapter if the cord or plug is damaged. Avoid bending, twisting, or stretching the cable excessively.
- **Ventilation:** Ensure adequate ventilation around the adapter during use to prevent overheating.
- **Children and Pets:** Keep the adapter out of reach of children and pets.
- **Disconnection:** Always unplug the adapter from the power outlet before cleaning or if it will be unused for an extended period.

PACKAGE CONTENTS

- 1 x UpBright 5V AC/DC Adapter

SETUP

1. **Identify Your Device:** Confirm that your device, such as a Polaroid PBT4000, PBT4001, or PBT4002 portable turntable, requires a 5V DC input. Check the device's power input specifications, usually printed near the power port or in its own manual.

2. **Connect to Device:** Carefully insert the adapter's DC output plug into the power input port of your compatible device. Ensure a secure connection.
3. **Plug into Power Outlet:** Insert the AC input plug of the adapter into a standard wall power outlet (100-240VAC, 50/60Hz).

OPERATING INSTRUCTIONS

Once the adapter is correctly connected to your device and a power outlet, your device should receive power. The adapter operates automatically to convert AC wall power to the required 5V DC for your device. No further user interaction is typically required for the adapter itself.

- The adapter is designed for continuous operation when connected to a power source.
- It features built-in protection mechanisms (OVP, OCP, SCP) to safeguard your device.

MAINTENANCE AND CARE

- **Cleaning:** Disconnect the adapter from both the power outlet and your device before cleaning. Use a dry, soft cloth to wipe the surface. Do not use liquid cleaners or abrasive materials.
- **Storage:** When not in use, store the adapter in a cool, dry place, away from direct sunlight and moisture. Avoid tightly coiling the cable to prevent damage.
- **Inspection:** Periodically inspect the adapter, cable, and connectors for any signs of wear or damage. If damage is observed, discontinue use immediately.

TROUBLESHOOTING

Device Not Powering On

- **Check Connections:** Ensure the adapter is securely plugged into both the device and the wall outlet.
- **Verify Outlet:** Test the wall outlet with another known working appliance to confirm it has power.
- **Device Compatibility:** Double-check that your device requires 5V DC and 1A. Incorrect voltage or current requirements can prevent operation.
- **Adapter Condition:** Inspect the adapter cable and plug for any visible damage. If damaged, do not use.

Adapter Overheating

- A slight warmth is normal during operation. However, if the adapter becomes excessively hot, disconnect it immediately.
- Ensure the adapter is not covered or placed in an enclosed space that restricts airflow.
- Confirm the connected device is not drawing more current than the adapter's rated output (1A).

SPECIFICATIONS

- **Input Voltage:** 100-240VAC, 50/60Hz
- **Output Voltage:** 5V DC
- **Output Current:** 1A (1000mA)
- **Protection Features:** OVP (Over Voltage Output Protection), OCP (Over Current Output Protection), SCP (Short Circuit Output Protection)
- **Product Dimensions:** Approximately 3 x 3 x 1 inches
- **Item Weight:** Approximately 3.84 ounces
- **Manufacturer:** UpBright

WARRANTY AND SUPPORT

This UpBright product comes with a warranty. Please refer to the documentation provided with your purchase for specific warranty terms and conditions. Generally, UpBright offers a 30-day refund policy and a 24-month exchange policy for tested units in great working condition.

For technical support or warranty claims, please contact your retailer or the UpBright customer service channel specified in your purchase documentation.
