SETUP

1. Battery Installation

The Pupstar puppy requires batteries to operate. Locate the battery compartment, usually on the underside of the toy.

1. Using a small Phillips head screwdriver, open the battery compartment cover.
2. Insert the required number and type of batteries (e.g., 3 x AAA batteries, not included), ensuring correct polarity (+/-).

3. Replace the battery compartment cover and secure it with the screw.

Important: Always use new batteries of the same type. Do not mix old and new batteries, or different types of batteries. Remove batteries if the toy will not be used for an extended period.
