**2. Dispensing Feed:**

- Position the feeding trough directly beneath the silo's dispensing hatch.
- Locate the lever on the side of the silo, near the bottom.
- Push or pull the lever to open the hatch, allowing feed to fall into the trough.
- Release the lever to close the hatch and stop the flow of feed.

**3. Using the Wheelbarrow:** The wheelbarrow can be used by the farmer figure to transport feed from the silo to other areas or to collect it from the trough.

## 5. MAINTENANCE

To ensure the longevity and cleanliness of your Schleich Farm World Silo Set, follow these simple maintenance guidelines:

- **Cleaning:** Wipe all components with a damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the paint or plastic.
- **Drying:** Ensure all parts are completely dry before storing to prevent moisture damage.
- **Storage:** Store the set in a clean, dry place away from direct sunlight and extreme temperatures to prevent material degradation.

## 6. TROUBLESHOOTING

If you encounter any issues with your silo set, consider the following common solutions:

- **Feed Not Dispensing:**
  - Ensure the dispensing lever is fully engaged to open the hatch.
  - Check the silo's fill level; it may be empty.
  - Verify that no foreign objects are obstructing the dispensing mechanism.
- **Small Parts:** Always supervise children during play, especially those under the recommended age, to prevent accidental ingestion of small feed pellets or accessories.
