Diversey End Bac II Spray Disinfectant

Model 04832 Instruction Manual

PRODUCT OVERVIEW

The Diversey End Bac II Spray Disinfectant is a quaternary-based aerosol germicide designed for disinfecting pre-cleaned hard, non-porous surfaces. It is effective as a fungicidal, tuberculocidal, and pseudomonacidal agent. This product helps to eliminate odors and prevent the growth of mold and mildew. It features a fresh scent and comes in a 15-ounce aerosol can.

SETUP AND PREPARATION

Before First Use

1. **Shake Well Before Using:** Ensure the can is thoroughly shaken to mix contents for optimal performance.
2. **Clean Surfaces:** Prior to application, thoroughly clean all surfaces to be treated to remove gross filth or heavy soil. This ensures the disinfectant can work effectively.

OPERATING INSTRUCTIONS

Follow these directions for effective disinfection and control of mold, mildew, and fungus.

General Disinfection

1. Hold the can upright and spray from a distance of 6 to 8 inches until the area for treatment is thoroughly moistened.
2. Allow the surface to remain wet for 10 minutes.
3. Air dry, wipe surfaces to dry and remove any residue, or rinse with potable water as necessary.

Control of Mold and Mildew

1. Spray the surface until thoroughly moistened.
2. Air dry, wipe surfaces to dry and remove any residue, or rinse with potable water as necessary.
3. Repeat application in 7 days for continued control.

Control of Fungus

1. Spray the surface until thoroughly moistened.
2. Allow surfaces to remain wet for 10 minutes.
3. Air dry, wipe surfaces to dry and remove any residue, or rinse with potable water as necessary.
