Mounting Dream MD5401

Mounting Dream MD5401 Height Adjustable Speaker Stands

User Instruction Manual

INTRODUCTION

Thank you for choosing the Mounting Dream MD5401 Height Adjustable Speaker Stands. These stands are designed to provide a stable and adjustable platform for your speakers, enhancing your audio experience by allowing optimal positioning. Please read this manual thoroughly before assembly and use to ensure safe and correct installation.

SAFETY INFORMATION

- Ensure all components are present and undamaged before assembly. Do not use if any parts are missing or defective.
- Do not exceed the maximum weight capacity of 11 lbs (5 kg) per stand. Overloading can cause instability and damage.
- Assemble the stands on a flat, stable surface.
- Keep small parts away from children to prevent choking hazards.
- Periodically check all connections and fasteners to ensure they remain secure.
- Place stands in a low-traffic area to minimize the risk of accidental bumps or tipping.

PACKAGE CONTENTS

Please verify that all the following components are included in your package:

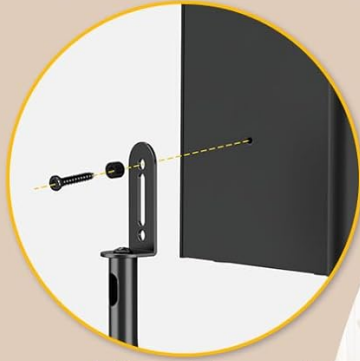

- Speaker Stand Bases (2)
- Lower Support Tubes (2)
- Upper Adjustable Tubes (2)
- Speaker Mounting Plates/Brackets (2 sets)
- Height Adjustment Knobs (2)
- Assorted Screws and Washers for Speaker Attachment
- Cable Ties (for cable management)
- Instruction Manual

SETUP AND ASSEMBLY

Follow these steps to assemble your speaker stands:

1. **Attach the Lower Support Tube to the Base:** Securely fasten the lower support tube to the heavy-duty triangle base using the provided screws. Ensure it is tightened for maximum stability.
2. **Insert the Upper Adjustable Tube:** Slide the upper adjustable tube into the lower support tube.
3. **Attach the Speaker Mounting Plate:** Secure the speaker mounting plate to the top of the upper adjustable tube.
4. **Attach Your Speaker:** The MD5401 stands offer multiple attachment options for various speaker types. Identify the appropriate method for your speaker:

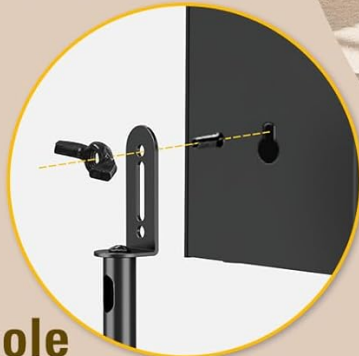

Perfect for back panel installation hole

1. Hole on Flat Panel

2. Inset Hole

3. Keyhole

Image: Speaker attachment methods, including flat panel hole, inset hole, and keyhole options.

- **Hole on Flat Panel:** Use the provided screws to attach speakers with a flat back panel and a screw hole.
- **Inset Hole:** For speakers with an inset screw hole, use the appropriate screw and spacer.
- **Keyhole:** For speakers with a keyhole slot, align and secure the speaker using the keyhole attachment.

Note: The metric screws included may not fit Samsung HW-Q90R speakers. For Samsung Q-series Rear Speakers, please refer to speaker stand MD5402.

FIT MOST SPEAKERS

Recommended Speaker Size

OPERATING AND USAGE

The MD5401 speaker stands are designed for easy height adjustment and stable placement.

- **Height Adjustment:** The extendable tube allows for height adjustment up to a maximum of 39 inches. Loosen the height adjustment knob, slide the upper tube to your desired height, and then securely tighten the knob to lock it in place. This allows for optimum acoustics based on your listening position.

Easy Height Adjustment

MAINTENANCE

To ensure the longevity and optimal performance of your speaker stands, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the stands with a soft, dry cloth to remove dust. For stubborn marks, a slightly damp cloth can be used, followed by immediate drying. Avoid abrasive cleaners or solvents.
- **Fastener Check:** Periodically inspect all screws and connections to ensure they are tight. Re-tighten if necessary to maintain stability.
- **Cable Inspection:** Check speaker cables for any signs of wear or damage, especially where they pass through the cable management hole. Replace damaged cables immediately.

TROUBLESHOOTING

If you encounter any issues with your speaker stands, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Stand feels wobbly or unstable.	Loose connections; uneven floor; overloaded.	Ensure all screws are tightened. Move to a flat surface. Verify speaker weight is within 11 lbs capacity.
Speaker does not attach securely.	Incorrect screw size; incompatible speaker hole type.	Use the correct screws and attachment method for your speaker (flat panel, inset, keyhole). Refer to the 'Setup and Assembly' section.
Height adjustment knob does not tighten.	Knob or threading is stripped/damaged.	Contact customer support for a replacement part.
Cables do not fit through the cable hole.	Cable is too thick.	The cable hole is 0.6" W x 1.2" H. If your cable is thicker, external cable management may be necessary.

SPECIFICATIONS

- **Model:** MD5401
- **Brand:** Mounting Dream
- **Material:** Cast Iron (Base), Steel (Tubes)
- **Color:** Black
- **Weight Capacity:** Up to 11 lbs (5 kg) per stand
- **Adjustable Height:** Max 39 inches
- **Product Dimensions:** 48.11 x 11.06 x 11.06 inches (assembled, approximate)
- **Item Weight:** 8.1 pounds (per pair)
- **Cable Management Hole Dimensions:** 0.6 inches (W) x 1.2 inches (H)
