SCANPAN CTX SC65002403 Non-Stick Frying Pan User Manual

Model: SC65002403

INTRODUCTION

This manual provides essential information for the proper use and care of your SCANPAN CTX SC65002403 Non-Stick Frying Pan. Please read these instructions carefully before first use to ensure optimal performance and longevity of your cookware.

PRODUCT FEATURES

- **CTX Non-Stick Coating:** Designed for efficient cooking with minimal oil, allowing for braising, searing, grilling, and

deglazing.

- **Durable Construction:** Combines aluminum and stainless steel for robust performance and even heat distribution.
- **Ergonomic Handle:** Stainless steel handle designed to stay cool during stovetop use for comfortable handling.
- **Versatile Compatibility:** Suitable for use on electric, gas, and induction stovetops. Oven safe up to 260°C (500°F).
- **Danish Design:** A blend of minimalism and functionality, suitable for modern kitchens.

SETUP AND FIRST USE

1. **Unpacking:** Carefully remove all packaging materials and labels from the frying pan.
2. **Initial Cleaning:** Before first use, wash the pan thoroughly with warm soapy water and a soft sponge. Rinse and dry completely.
3. **Seasoning (Optional but Recommended):** For enhanced non-stick performance and longevity, lightly rub a small amount of cooking oil (e.g., vegetable oil) over the entire non-stick surface with a paper towel. Heat the pan over low heat for 30 seconds, then remove from heat and wipe off any excess oil.

OPERATING INSTRUCTIONS

Cooking on Stovetops

- **Heat Settings:** Use low to medium heat for most cooking tasks. High heat is generally not necessary due to the pan's efficient heat distribution and can damage the non-stick coating over time.
- **Oil/Fat Usage:** While the pan is non-stick, a small amount of oil or butter is recommended for flavor and to assist in browning. Avoid aerosol cooking sprays, as they can leave a residue that may affect the non-stick surface.
- **Utensils:** Always use wooden, silicone, or plastic utensils to protect the non-stick coating. Avoid metal utensils, which can scratch and damage the surface.
- **Handle Safety:** The stainless steel handle is designed to stay cool on the stovetop, but always exercise caution and use oven mitts if necessary, especially during prolonged cooking or when using in the oven.

Oven Use

The SCANPAN CTX frying pan is oven safe up to 260°C (500°F). This allows for versatile cooking, such as starting dishes on the stovetop and finishing them in the oven.

MAINTENANCE AND CARE

Cleaning

- **Cool Down:** Always allow the pan to cool completely before washing. Submerging a hot pan in cold water can

cause warping.

- **Hand Washing:** Hand washing with warm soapy water and a soft sponge or cloth is recommended for optimal longevity of the non-stick coating.
- **Dishwasher Use:** While the pan is dishwasher safe, frequent dishwasher use is not recommended as it can shorten the lifespan of the non-stick surface and dull the exterior finish over time.
- **Stubborn Food:** For stubborn food residues, fill the pan with warm water and a small amount of dish soap, let it soak for 15-20 minutes, then clean with a soft sponge. Avoid abrasive cleaners, steel wool, or scouring pads.

Storage

When storing pans, place a soft cloth or pan protector between them to prevent scratching the non-stick surface.

TROUBLESHOOTING

- **Food Sticking:**
 - Ensure the pan is clean and free of residue from previous cooking or cooking sprays.
 - Re-season the pan as described in the "Setup and First Use" section.
 - Avoid using excessively high heat, which can degrade the non-stick coating.
- **Warping:**
 - Avoid sudden temperature changes, such as placing a hot pan under cold water. Always allow the pan to cool naturally.
- **Discoloration:**
 - Minor discoloration can occur over time, especially on the exterior stainless steel. This is typically cosmetic and does not affect performance.

SPECIFICATIONS

Feature	Detail
Brand	Scanpan
Model Name	CTX
Item Model Number	SC65002403
Material	Aluminum (body), Stainless Steel (exterior and handle)
Non-Stick Coating	Yes
Diameter	24 cm (9.45 inches)
Capacity	4.5 Liters
Color	Stainless Steel
Compatible Devices	Gas, Electric, Smooth Surface Induction
Oven Safe	Yes, up to 260°C (500°F)
Dishwasher Safe	Yes (hand washing recommended for longevity)

Item Weight	1.07 Kilograms (2.35 pounds)
Product Dimensions	9.45 x 6.42 x 3.15 inches
UPC	083421103215
