Keter 6048

Keter Springwood Outdoor Plastic Storage Box

Model: 6048 | Brand: Keter

PRODUCT OVERVIEW

The Keter Springwood Outdoor Plastic Storage Box is a versatile and durable solution for outdoor storage. Designed to be weather-resistant and maintenance-free, it offers a generous 305-liter capacity, ideal for storing garden tools, furniture cushions, and other outdoor accessories. Its robust construction also allows it to comfortably seat two adults, providing additional functionality to your outdoor space.

Key features include a decorative wood panel-style finish, built-in handles for easy relocation, and a lockable option for enhanced security (padlock not included).

SETUP AND ASSEMBLY

The Keter Springwood Storage Box is designed for quick and straightforward assembly. Most users report assembly can be completed in approximately five minutes.

1. Unpack all components and verify against the included parts list.
2. Ensure a flat, stable surface for assembly.
3. Follow the step-by-step instructions provided in the packaging for connecting the side panels, base, and lid. Components are designed to click securely into place.
4. Confirm all connections are firm before use.

Note: While assembly is simple, having an extra person may assist with aligning larger panels.

OPERATING INSTRUCTIONS

To open the storage box, simply lift the flip-top lid using the integrated handle. The lid is hinged for smooth operation.

- **Storage:** Utilize the 305-liter internal capacity for items such as garden tools, pool accessories, patio cushions, and children's outdoor toys.

- **Seating:** The robust lid is designed to comfortably seat two adults. Ensure the lid is fully closed and latched before using as a seat. The maximum weight recommendation for seating is 250 kg (approximately 550 lbs).
- **Security:** For added security, a padlock (not included) can be attached to the designated lockable area on the front of the box.
- **Portability:** The box features built-in handles and wheels, allowing for easy movement and repositioning as needed.

Important: Do not store hazardous materials or items sensitive to temperature fluctuations inside the box.

Maintenance

The Keter Springwood Storage Box is constructed from durable, weather-resistant, and maintenance fade-free plastic, requiring minimal upkeep.

- **Cleaning:** To clean, simply wipe down the exterior with a damp cloth and mild soap. Rinse thoroughly with water. Avoid abrasive cleaners or harsh chemicals, as these may damage the plastic.
- **Weather Protection:** While water repellent, ensure the lid is properly closed during heavy rain to prevent water ingress. The design promotes ventilation to keep contents dry.
- **Longevity:** Regular cleaning and ensuring the box is not overloaded will help maintain its appearance and structural integrity for many years.

The material is designed to resist fading even with prolonged exposure to outdoor elements.

Troubleshooting

- **Lid not closing properly:** Check for any obstructions inside the box or along the rim. Ensure the box is on a level surface.
- **Water inside the box:** Verify the lid is fully closed and latched. Inspect for any cracks or damage to the plastic. Ensure the box is not submerged in standing water.
- **Difficulty moving the box:** Ensure the wheels are clear of debris. If heavily loaded, empty some contents before attempting to move.

For persistent issues not covered here, please refer to the manufacturer's support contact information.

Specifications

Feature	Detail
Brand	Keter
Model Number	6048
Color	Brown
Material	Durable, Weather-Resistant, Maintenance Fade-Free Plastic

External Dimensions (L x W x H)	123 x 53.5 x 57 cm (48.43" L x 21.06" W x 22.44" H)
