1. INTRODUCTION

The Remington HC5855 Virtually Indestructible Haircut Kit & Beard Trimmer is engineered for durability and precision. Featuring a high-impact polycarbonate casing and a powerful super magnet motor, this clipper delivers efficient and consistent cutting performance. Its design ensures longevity and ease of use for both haircutting and beard trimming needs.

2. PACKAGE CONTENTS

Please ensure all items listed below are present in your package:

- Remington HC5855 Hair Clipper
- 9 Length Adjusting Guide Combs
- Beard Brush
- Styling Comb
- Blade Oil
- Blade Guards
- Soft Storage Pouch

Image: The Remington HC5855 clipper shown with all included accessories: various guide combs, a beard brush, a styling comb, blade oil, blade guards, and a storage pouch.

3. SETUP

3.1 Unpacking and Initial Inspection

1. Carefully remove all components from the packaging.
2. Inspect the clipper and accessories for any signs of damage. Do not use if damaged.
3. Retain packaging for future storage or transport.

3.2 Attaching Guide Combs

Select the desired guide comb for your preferred hair length. Each comb is clearly marked with its cutting length. To attach, align the comb with the clipper blade and push firmly until it clicks into place. To remove, gently pull the comb away from the blade.

3.3 Power Connection

The HC5855 is a corded clipper. Ensure your hands are dry before plugging the clipper into a standard electrical outlet. Verify that the voltage of your outlet matches the requirements specified on the clipper (e.g., 110V for North America).

4. OPERATING INSTRUCTIONS

4.1 General Use

Before cutting, ensure hair is clean and dry. For best results, comb hair in the direction of growth. Hold the clipper with the blade flat against the head and move it slowly against the direction of hair growth. Overlapping strokes will ensure an even cut.

4.2 Powercut Blade System & Precision Ground Blades

The exclusive Powercut Blade System maintains proper blade alignment, preventing snagging and pulling for a smooth, even cut. The precision ground blades are expertly sharpened to cut through even thick hair with ease, providing a superior cutting experience.

PRECISION GROUND BLADES

Perfectly ground edges provide
the ultimate cutting experience,
even on thick hair

4.3 Super Magnet Motor

Equipped with a super magnet motor, the HC5855 delivers maximum power to the cutting system, resulting in 2x faster cutting performance. This powerful motor ensures consistent speed and efficiency, even when cutting through dense hair.

SUPER MAGNET MOTOR

Drives maximum power for fast, clean cutting performance

4.4 Safety Precautions

- Do not immerse the clipper in water.
- Keep the clipper away from children.
- Always unplug the clipper before cleaning or maintenance.
- Do not use the clipper if the cord or plug is damaged.
- This appliance is for household use only.

5. CARE & MAINTENANCE

5.1 Cleaning the Blades

The blades are rinseable for easy cleaning. After each use, detach the blade assembly from the clipper body. Rinse the blades under running water to remove hair clippings. Ensure the blades are completely dry before reattaching or storing.

REMOVABLE BLADE

Provides easy clean-up and maintenance

Image: Hands demonstrating the removal of the blade assembly from the Remington HC5855 clipper, illustrating the easy clean-up and maintenance feature.

5.2 Oiling the Blades

Regular oiling is crucial for maintaining blade sharpness and smooth operation. After cleaning and drying the blades, apply 1-2 drops of the supplied blade oil across the top of the blades. Turn the clipper on for a few seconds to distribute the oil evenly. This reduces friction, keeps blades cool, and extends performance.

5.3 Storage

Store the clipper and all accessories in the provided soft storage pouch. Ensure the clipper is clean, oiled, and dry before storing. Store in a cool, dry place, away from direct sunlight and moisture.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Clipper does not turn on.	Not plugged in correctly; Power outlet issue.	Ensure the clipper is securely plugged into a working electrical outlet. Test the outlet with another appliance.
Clipper pulls or snags hair.	Blades are dull or dirty; Insufficient oiling.	Clean the blades thoroughly and apply blade oil. If the problem persists, blades may need replacement.
Clipper is noisy or vibrates excessively.	Blades are not properly aligned or oiled.	Ensure blades are clean and well-oiled. Check that the blade assembly is securely attached.
Clipper gets hot during use.	Blades are not oiled; Prolonged use.	Apply blade oil. Allow the clipper to cool down if used for extended periods.
Clipper plug does not fit outlet.	Incorrect plug standard for your region.	This product is designed for specific regional electrical standards (e.g., 110V for North America). An adapter may be required for use in other regions, but ensure voltage compatibility to avoid damage.

7. SPECIFICATIONS

Model Number: HC5855B

Power Source: Corded

Blade Material: Precision Ground Steel

Casing Material: High-Impact Polycarbonate

Motor Type: Super Magnet Motor

Color: Yellow

Dimensions: 3.63 x 5 x 9.63 inches

Weight: 1.46 Pounds

UPC: 074590538953

8. WARRANTY & SUPPORT
