Nispira Refrigerator Air Filter Replacement (Model W10311524 AIR1)

Instruction Manual

INTRODUCTION

This manual provides essential information for the installation and maintenance of your Nispira Refrigerator Air Filter Replacement, compatible with Whirlpool W10311524 AIR1. This filter is designed to help maintain a fresh and odor-free environment within your refrigerator by utilizing activated carbon media.

PRODUCT OVERVIEW

The Nispira Refrigerator Air Filter is a premium replacement designed to effectively neutralize common food odors in your refrigerator. It features activated carbon media that actively passes air through the filter to deodorize unfavorable smells.

Key Features:

- **Odor Neutralization:** Activated carbon media efficiently absorbs and neutralizes common food odors.
- **Compatibility:** Designed as a replacement for Whirlpool W10311524 AIR1 filters, also compatible with KitchenAid, Maytag, Amana, and Jenn-Air refrigerators.
- **Easy Installation:** Simple to install without the need for special tools.
- **Recommended Replacement:** For optimal performance, replace every 6 months.

SETUP & INSTALLATION

Follow these steps to install your new Nispira Refrigerator Air Filter:

1. **Locate Filter Housing:** Open your refrigerator and locate the air filter housing, typically found at the top center or rear of the fresh food compartment.
2. **Access Old Filter:** Depending on your refrigerator model, you may need to lift or remove a cover to access the old filter.
3. **Remove Old Filter:** Gently pinch the tabs on both sides of the old filter and pull it straight out from the housing.
4. **Insert New Filter:** Take a new Nispira air filter from its packaging. Align the new filter with the housing and push it straight in until it clicks securely into place.
5. **Close Housing Cover:** Replace or close the filter housing cover.
6. **Reset Filter Indicator (if applicable):** If your refrigerator has a filter indicator light, consult your refrigerator's user manual for instructions on how to reset it. This usually involves pressing and holding a specific button for a few seconds.

OPERATING & MAINTENANCE

Once installed, the air filter operates continuously to purify the air inside your refrigerator. No further action is required for its daily operation.

Maintenance Schedule:

It is recommended to replace the Nispira Refrigerator Air Filter every **6 months** to ensure optimal odor reduction and air freshness. Regular replacement prevents the filter from becoming saturated and losing its effectiveness.

TROUBLESHOOTING

If you notice odors returning to your refrigerator before the recommended 6-month replacement period, consider the following:

- **Check Food Storage:** Ensure all food items are properly sealed and stored to prevent strong odors from escaping.
- **Filter Installation:** Verify that the air filter is correctly installed and securely seated in its housing.
- **Filter Age:** If the filter is nearing or past its 6-month lifespan, it may be time for a replacement.

SPECIFICATIONS

Brand	Nispira
Model Number (Nispira)	HB415A
Compatible Part Number	W10311524 AIR1
Dimensions (L x W x Th)	1.75" x 1.75" x 3.25"
Material	Activated Carbon
Item Weight	2.08 ounces (0.06 Kilograms)
Number of Filters Included	4
