

Sunjoy L-GZ098PST

Sunjoy L-GZ098PST-1B Double Roof Weist Gazebo User Manual

Model: L-GZ098PST-1B

1. INTRODUCTION

This manual provides essential instructions for the assembly, operation, and maintenance of your Sunjoy L-GZ098PST-1B Double Roof Weist Gazebo. Please read this manual thoroughly before assembly and retain it for future reference. This gazebo is designed to provide shade and protection from insects in outdoor settings.

2. SAFETY INFORMATION

WARNING: Failure to follow these safety instructions may result in injury or damage to the product.

- Ensure all parts are present and undamaged before beginning assembly.
- Assembly should ideally be performed by two or more adults.
- This freestanding shelter must be secured to a stable foundation. Use appropriate anchoring methods for your specific ground type.
- **Do not use this gazebo in windy conditions.** High winds can cause the structure to become unstable and collapse, leading to property damage or personal injury.
- Remove the canopy during strong winds, heavy rain, or snow to prevent damage to the gazebo and ensure safety.
- Keep children and pets away from the assembly area.
- Do not hang heavy objects from the gazebo frame.
- Keep all flame and heat sources away from the gazebo fabric.

3. PARTS LIST

Before assembly, verify that all components listed below are present. If any parts are missing or damaged, contact Sunjoy customer service.

- Main Frame Poles (various lengths and shapes)

- Corner Connectors
- Canopy Fabric (Main Roof and Small Top Roof)
- Mosquito Netting Panels
- Ground Stakes or Anchors (if included)
- Spring Buckles (pre-attached or separate)
- Ropes (for securing mosquito net)

4. SETUP AND ASSEMBLY INSTRUCTIONS

The Sunjoy L-GZ098PST-1B gazebo features an easy assembly design with no hardware, connecting with spring buckles. Follow these general steps for assembly:

4.1. Frame Assembly

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, flat surface.
2. **Assemble Base Frame:** Connect the horizontal base poles using the corner connectors. Ensure spring buckles snap into place securely.
3. **Attach Vertical Legs:** Insert the vertical leg poles into the base frame connectors.
4. **Construct Upper Frame:** Connect the upper horizontal poles and roof support poles. This forms the structure for the main canopy and the double roof.

Figure 1: Fully assembled Sunjoy L-GZ098PST-1B Double Roof Weist Gazebo. This image shows the complete structure with the tan canopy and black mosquito netting installed, providing an overview of the product's appearance and design.

4.2. Canopy and Mosquito Net Installation

5. **Install Main Canopy:** Drape the large canopy fabric over the main roof frame. Secure it to the frame using the integrated fasteners or ties. Ensure the canopy is taut and evenly distributed.

6. **Install Small Top Roof:** Place the smaller canopy fabric over the upper, smaller roof frame. This creates the double-roof design for improved airflow. Secure it in place.
7. **Attach Mosquito Netting:** The mosquito netting attaches to the gazebo frame. Follow the specific attachment points (e.g., hooks, rings) to hang the netting around the perimeter. The netting is secured by 8 ropes.
8. **Secure Gazebo:** Once assembled, secure the gazebo to the ground using the provided stakes or other suitable anchoring methods. This is crucial for stability.

Figure 2: Dimensional view of the Sunjoy L-GZ098PST-1B Gazebo. This image illustrates the overall dimensions of the gazebo, showing it measures approximately 120 inches (10 feet) in length, 120 inches (10 feet) in width, and 120 inches (10 feet) in height.

5. OPERATING INSTRUCTIONS

5.1. Using the Mosquito Net

The integrated mosquito netting provides protection from insects. The netting panels can be zipped together to fully enclose the gazebo or tied back to the legs when not needed. Use the provided ropes to secure the netting as desired.

5.2. Airflow Management

The double roof design promotes air circulation, helping to keep the interior cooler. Ensure the top canopy is properly installed to facilitate this airflow.

6. MAINTENANCE

- **Canopy Care:** Clean the polyester canopy with mild soap and water. Do not use harsh chemicals or abrasive cleaners. Allow to air dry completely before storage.
- **Frame Care:** The powder-coated steel frame is designed for durability. Wipe down the frame with a

damp cloth to remove dirt and debris. Inspect for rust or damage periodically.

- **Storage:** For prolonged periods of non-use or during severe weather, disassemble the gazebo and store all components in a dry, protected area. This will extend the product's lifespan.
- **Inspection:** Regularly inspect all connections, ropes, and fabric for wear and tear. Replace damaged parts as necessary.

7. TROUBLESHOOTING

- **Gazebo is unstable:** Ensure all frame connections are fully engaged with spring buckles. Verify that the gazebo is properly anchored to the ground. This is a light-weight temporary structure not made to withstand windy conditions; disassemble or secure properly in adverse weather.
- **Canopy does not fit properly:** Ensure the frame is assembled correctly and the canopy is oriented in the right direction. Some stretching may occur over time.
- **Mosquito net gaps:** Ensure all zippers are fully closed and the netting is secured to the legs with the provided ropes.

8. SPECIFICATIONS

Feature	Detail
Model Number	L-GZ098PST
Product Dimensions	118.11"L x 118.11"W x 108.27"H (Approx. 10' x 10' x 9')
Floor Area	98.4 Square Feet
Frame Material	Powder Coated Alloy Steel
Canopy Material	140 Gram Polyester
Water Resistance Level	Water Resistant
Item Weight	26.4 pounds
Assembly Required	Yes
UPC	841057102831

9. WARRANTY AND SUPPORT

For warranty information or technical support, please contact Sunjoy customer service directly. Refer to your purchase documentation for specific warranty terms and contact details. Keep your proof of purchase for any warranty claims.
