### Product Overview Video

Video: An overview of the SteelSeries Nimbus Bluetooth Mobile Gaming Controller, highlighting its features and compatibility with iPhone, iPad, and Apple TV, and its impressive 40+ hour battery life.

## KEY FEATURES

---

- **Wireless Connectivity:** Seamless Bluetooth 4.1 connection for iOS devices and Mac.
- **Extended Battery Life:** Over 40 hours of gameplay on a single charge, rechargeable via Lightning connector.
- **Ergonomic Design:** Full-sized, comfortable console-style layout for prolonged gaming sessions.
- **Pressure-Sensitive Buttons:** Provides precise control for enhanced gameplay.
- **Player Status LEDs:** Four LED indicators to display player status during multiplayer games.
- **MFi Certified:** Ensures full compatibility and optimal performance with Apple devices.

## SETUP GUIDE

---

### Pairing Your Nimbus Controller

To connect your SteelSeries Nimbus controller to your Apple device, follow these steps:

1. Ensure your Nimbus controller is charged.
2. On your iOS device (iPhone, iPad) or Apple TV, navigate to **Settings > Bluetooth**.
3. On the Nimbus controller, press and hold the Bluetooth pairing button (usually located on the top edge or back) until the LED indicators begin to flash, indicating it's in pairing mode.
4. On your device, select "SteelSeries Nimbus" from the list of available Bluetooth devices.
5. Once connected, the LED indicators on the controller will show a solid light, indicating successful pairing.

### First Use and Charging

For optimal performance, fully charge your controller before its first use. The Nimbus controller recharges conveniently using a standard Lightning cable, similar to your iPhone or iPad.

## OPERATING INSTRUCTIONS

---

### Basic Controls

The Nimbus controller features a familiar layout for intuitive gameplay:

- **Dual Analog Sticks:** For precise movement and camera control.
- **D-Pad:** For directional input, often used in menu navigation or specific game actions.
- **Action Buttons (A, B, X, Y):** Standard gaming input buttons.
- **Shoulder Buttons (L1, R1) and Triggers (L2, R2):** For various in-game actions, including shooting, accelerating, or special abilities.
- **Menu Button:** Used to navigate menus on Apple TV or access in-game options.

## Battery Status

The four LED lights on the controller indicate the battery level. A full charge provides over 40 hours of gameplay. When the battery is low, the LEDs will flash, signaling that a recharge is needed.

## MAINTENANCE

### Cleaning Your Controller

To maintain the cleanliness and longevity of your SteelSeries Nimbus controller, regular cleaning is recommended. The controller's design allows for easy cleaning.

Simply use a soft, damp cloth or a wet paper towel to gently wipe down the surface of the controller. Pay attention to areas around buttons and joysticks where dirt or grime might accumulate. Avoid using harsh chemicals or abrasive materials, as these can damage the controller's finish.

After cleaning, ensure the controller is completely dry before storage or next use.

## TROUBLESHOOTING

### Common Issues and Solutions

Problem	Possible Cause	Solution
Controller not pairing	Bluetooth not enabled, controller not in pairing mode, low battery.	Ensure Bluetooth is on, press and hold pairing button, charge controller.
Buttons/Joysticks unresponsive	Connection issue, game incompatibility.	Reconnect controller, check game's controller support.
Short battery life	Incomplete charging, aging battery.	Ensure full charge cycle, contact support if issue persists.
Lag or input delay	Interference, distance from device.	Reduce interference (other Bluetooth devices), move closer to device.
