BG 44K_4PACK_A

BG 44K Fuel System Cleaner Power Enhancer

INSTRUCTION MANUAL

Brand: BG | Model: 44K_4PACK_A

Product Overview

BG 44K fuel system cleaner is designed to effectively clean the entire fuel system of a vehicle. This includes critical components such as fuel injectors, intake valves, ports, and combustion chambers.

Image: Four 11oz cans of BG 44K Fuel System Cleaner, packaged together.

The product's primary function is to address and reduce issues caused by deposit build-up within the engine. These issues can manifest as engine surge, stalling, stumbling, hesitation, and a reduction in power. By efficiently removing these upper engine deposits, BG 44K aims to restore engine performance and improve overall vehicle driveability.

Key benefits include:

- One can treats up to 20 gallons (75 liters) of gasoline.
- Quickly cleans fuel injectors, valves and combustion chambers.
- Restores performance and gas mileage.
- Great for Direct Injection Gas Engines.
- Compatible with all fuel system materials, alcohol-blended fuels and common fuel additives.
- Contains no alcohol.
- Catalytic converter, and oxygen sensor safe.

Safety Information and Warnings

WARNING: This product can expose you to chemicals which are known to the State of California to cause cancer and birth defects or other reproductive harm. For more information, visit www.P65Warnings.ca.gov.

Always handle chemical products with care. Ensure adequate ventilation when using this product. Avoid prolonged skin contact. In case of accidental ingestion or contact with eyes, seek immediate medical attention and refer to the product's Safety Data Sheet (SDS).

Usage Instructions

1. **Preparation:** Ensure your vehicle's fuel tank is at least half full before adding BG 44K.
2. **Application:** Carefully open one 11oz bottle of BG 44K Fuel System Cleaner. Pour the entire contents directly into the vehicle's fuel tank.
3. **Dosage:** One 11oz can is formulated to treat up to 20 gallons (approximately 75 liters) of gasoline. Adjust quantity if your tank capacity is significantly different, though typically one can is sufficient for most passenger vehicles.
4. **Operation:** Drive the vehicle as normal. The cleaner will mix with the fuel and begin to clean the fuel system components during regular operation.
5. **Frequency:** For optimal performance and to maintain a clean fuel system, consult your vehicle's service manual or a qualified mechanic for recommended fuel system cleaning intervals.

Maintenance and Performance

BG 44K is a preventative and restorative maintenance product. Regular use helps to prevent the accumulation of harmful deposits that can degrade engine performance over time. It is particularly effective at providing quick clean-up of coked fuel injectors and corrosive deposits on the fuel sending unit.

By maintaining a clean fuel system, the product contributes to:

- Restored engine power and acceleration.
- Improved fuel efficiency.
- Smoother engine idle and reduced hesitation.
- Extended lifespan of fuel system components.

Troubleshooting

If, after using BG 44K as directed, your vehicle continues to exhibit symptoms such as severe engine
