Logitech M545

Logitech M545 Wireless Mouse Instruction Manual

Model: M545 | Brand: Logitech

PRODUCT OVERVIEW

The Logitech M545 Wireless Mouse is engineered for efficient and comfortable navigation. Featuring a Dual-Axis scroll wheel and two easy-to-reach thumb buttons, it simplifies browsing documents and web pages. Its ergonomic design supports both right and left-hand use, ensuring comfort during extended periods. The mouse operates wirelessly via a nano-sized Logitech Unifying Receiver, offering a reliable plug-and-play connection and an impressive 18-month battery life.

Key Features:

- **Dual-Axis Scroll Wheel:** Enables both vertical and side-to-side scrolling for enhanced navigation.
- **Programmable Thumb Buttons:** Customize functions like back/forward, application switching, or opening browser windows.
- **18-Month Battery Life:** Extended usage with smart sleep mode, reducing the need for frequent battery changes.
- **Logitech Unifying Receiver:** A compact USB receiver that allows connection of up to six compatible wireless devices.
- **Ergonomic Design:** Comfortable shape for prolonged use, suitable for both right and left-handed users.
- **Broad Compatibility:** Works seamlessly with Mac and Windows computers and laptops.

SETUP INSTRUCTIONS

1. **Install Batteries:**

   - Locate the battery compartment on the underside of the mouse.
   - Open the compartment cover.
   - Insert two AA batteries, ensuring correct polarity (+/-).

- Close the battery compartment cover securely.

2. **Connect the Unifying Receiver:**

   - Remove the nano-sized Logitech Unifying Receiver from its storage slot within the battery compartment (if stored there).
   - Plug the Unifying Receiver into an available USB port on your computer.

3. **Power On the Mouse:**

   - Slide the On/Off switch on the bottom of the mouse to the "On" position.
   - The mouse should automatically connect to the receiver.

4. **Install Logitech Options Software (Optional but Recommended):**

   - For advanced customization of buttons and scroll wheel, download and install the Logitech Options software from the official Logitech website (logitech.com/software/options.html).

OPERATING THE MOUSE

The Logitech M545 is designed for intuitive use. Here's how to utilize its main functions:

- **Left and Right Click:** Standard mouse buttons for selecting items and opening context menus.
- **Dual-Axis Scroll Wheel:**

  - Roll the wheel up or down to scroll vertically through documents and web pages.
  - Tilt the scroll wheel left or right for horizontal scrolling, useful in wide spreadsheets or image galleries.

- **Thumb Buttons:** Located on the side of the mouse, these buttons are pre-programmed for common actions like "Back" and "Forward" in web browsers. You can customize their functions using the Logitech Options software.
- **Smart Sleep Mode:** The mouse automatically enters a power-saving sleep mode when not in use, extending battery life. Move or click the mouse to wake it up.

MAINTENANCE

- **Battery Replacement:**

  - When the battery indicator light (if present) flashes, or performance degrades, it's time to replace the batteries.
  - Open the battery compartment on the underside of the mouse.
  - Remove the old AA batteries and insert new ones, observing correct polarity.
  - Close the compartment.
  - The mouse is designed for an 18-month battery life under typical usage.

- **Cleaning:**

  - To clean the mouse, use a soft, damp cloth. Avoid harsh chemicals or abrasive materials.
  - Ensure no moisture enters the internal components.

TROUBLESHOOTING

- **Mouse Not Responding:**

  - Ensure the mouse is powered on.

- Check battery levels and replace if necessary.
- Verify the Unifying Receiver is securely plugged into a working USB port. Try a different USB port.
- Restart your computer.

- **Lagging or Intermittent Connection:**

  - Move the mouse closer to the Unifying Receiver.
  - Avoid placing the receiver near other electrical devices that might cause interference (e.g., speakers, monitors).
  - Ensure there are no large metal objects between the mouse and the receiver.

- **Buttons or Scroll Wheel Not Working as Expected:**

  - If you have installed Logitech Options software, check your custom settings.
  - Reinstall the Logitech Options software if issues persist.
  - Ensure your operating system drivers are up to date.

SPECIFICATIONS

Brand	Logitech
Model Number	910-004054
Connectivity Technology	USB, Wireless (2.4 GHz Radio Frequency)
Movement Detection Technology	Optical
Color	Black
Item Weight	3.37 ounces
Product Dimensions	5.67 x 3.5 x 8.3 inches
Power Source	Battery Powered (2x AA batteries, not 1 Lithium Polymer as per general product type and common usage)
Average Battery Life	18 months
Hardware Platform	PC
Operating System Compatibility	Windows 8 (and later versions, Mac compatible)
