Turtle Wax FG5197

Turtle Wax Wax It Dry Car Wax Spray (Model FG5197) - Instruction Manual

Your guide to achieving a brilliant, protected car finish.

1. PRODUCT OVERVIEW

The Turtle Wax Wax It Dry Car Wax Spray offers a quick and easy method to provide your vehicle with a smooth, shiny finish while drying it in a single step. This spray wax is designed for maintaining a streak-free shine on well-kept vehicles. It is safe for all clear coat surfaces and also performs effectively on rubber and plastic trim.

Formulated with a blend of carnauba wax, polymers, and UV protectors, it enhances shine, repels water, and offers sun protection, giving your car a "freshly waxed" appearance in minutes without the complexities of traditional waxing.

Key Features:

- **Quick One-Step Application:** Wax and dry your car simultaneously, saving time and achieving a smooth, shiny, streak-free finish.
- **Enhanced Shine and Depth:** Carnauba wax and polymer blend delivers a high-gloss, long-lasting finish, improving color depth.
- **Water and Dirt Repellency:** Advanced formula repels water, dirt, and grime, keeping your car cleaner longer and minimizing water spots and streaks.
- **Safe for All Surfaces:** Suitable for clear coats, plastic, rubber, glass, and trim, providing comprehensive protection without streaking or staining.
- **UV Protection:** Integrated UV protectors shield the vehicle's surface from sun damage, preserving paint and trim for a radiant, durable finish.

Image 1.1: Before and after comparison demonstrating the enhanced shine and depth achieved with Turtle Wax Wax It Dry Car Wax Spray. The left side shows the car's original finish, while the right side displays a significantly glossier, protected surface.

2. SAFETY INFORMATION

Always read the product label before use. Keep out of reach of children and pets. Use in a well-ventilated area.

- **Allergic Reaction:** This product contains BENZISOTHIAZOLINONE, which may produce an allergic reaction in sensitive individuals. If skin irritation or rash occurs, seek medical advice.
- **Eye Contact:** In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
- **Ingestion:** If swallowed, do not induce vomiting. Immediately call a poison center or doctor.
- **Storage:** Store in a cool, dry place away from direct sunlight and extreme temperatures.

3. SETUP AND PREPARATION

Proper preparation ensures optimal results and a streak-free finish.

1. **Wash Vehicle:** Thoroughly wash your vehicle to remove all loose dirt, grime, and contaminants. Use a quality car wash soap and rinse completely.
2. **Rinse Vehicle:** Ensure the vehicle is fully rinsed, leaving no soap residue.
3. **Keep Wet:** The Turtle Wax Wax It Dry spray is designed to be applied to a wet surface, immediately after rinsing and before drying. Do not allow the vehicle to air dry before application.
4. **Shake Bottle:** Shake the product bottle well before each use to ensure the formula is properly mixed.

4. OPERATING INSTRUCTIONS

Follow these steps for a quick and effective wax and dry process.

1. **Spray Application:** While the vehicle is still wet after washing and rinsing, lightly mist the Turtle Wax Wax It Dry spray onto one section of the vehicle at a time. A few sprays per panel are usually sufficient.
2. **Spread and Dry:** Immediately after spraying, use a clean, soft microfiber drying towel to spread the product evenly and dry the section. Work in small sections to ensure even coverage and prevent the product from drying on its own.
3. **Buff for Shine:** For an even higher gloss, use a second clean, dry microfiber towel to lightly buff the treated section.
4. **Repeat:** Continue this process section by section until the entire vehicle is waxed and dried.

ENCERAR Y SECAR EN UN SOLO PASO QUE AHORRA TIEMPO

Image 4.1: This image illustrates the two-step application: spraying the product onto a wet car surface and then immediately wiping it dry with a microfiber towel. This demonstrates the "wax and dry in one step" feature.

Image 4.2: A close-up of a hand drying a wet car surface with a microfiber towel, highlighting the product's ability to accelerate drying time and repel water, reducing water spots.

5. MAINTENANCE

Regular use of Turtle Wax Wax It Dry helps maintain your vehicle's shine and protection.

- **Regular Application:** For best results and continuous protection, apply the product after every wash or as needed to refresh the shine and water repellency.
- **Towel Care:** Use clean, high-quality microfiber towels. Wash towels regularly to prevent scratching and ensure optimal performance.
- **Protective Barrier:** The product creates a protective barrier that helps repel water and dirt, making subsequent washes easier.

Image 5.1: This image shows water beading on the car's surface, illustrating the protective barrier formed by the wax. This barrier helps guard against UV rays and environmental contaminants.

6. TROUBLESHOOTING

If you encounter issues during application, consider the following:

- **Streaks or Haze:**

- Ensure the vehicle surface is thoroughly clean before application.
- Do not apply too much product. A light mist is sufficient.
- Immediately wipe and dry the section after spraying. Do not let the product dry on its own.
- Use a clean, dry microfiber towel for wiping and a separate clean, dry towel for buffing.
- Work in smaller sections, especially in warmer conditions, to prevent premature drying.

- **Uneven Coverage:**

- Ensure even spraying across the panel.
- Thoroughly spread the product with your drying towel across the entire section.

- **Product Not Performing:**

- Ensure the bottle is shaken well before each use.
- Confirm the surface is wet when applying.

7. SPECIFICATIONS

Product Name	Turtle Wax Wax It Dry Car Wax Spray
Model Number	FG5197
Volume	500 ml
Product Form	Liquid Spray
Recommended Use	Automotive exterior surfaces
Key Ingredients	Carnauba wax, Polymers, UV Protectors, BENZISOTHIAZOLINONE
Dimensions	4.5 x 9 x 25 cm
Weight	554 g
