3. OPERATING YOUR SUNGLASSES

Oakley Holbrook sunglasses are designed for optimal visual clarity and protection in various bright light conditions. They are suitable for activities such as golf and hiking.

3.1 Lens Technology: Prizm Grey

Your sunglasses are equipped with Prizm Grey lenses. Prizm lens technology fine-tunes vision for specific environments, enhancing color, contrast, and detail. For Prizm Grey lenses:

- **Light Transmission:** 17%
- **Light Conditions:** Bright Light
- **Base Lens Color:** Grey

These lenses are ideal for everyday use and activities in bright, sunny conditions, providing a natural color perception while enhancing visual detail.

3.2 Impact Protection

Oakley lenses are designed and tested under extreme high mass and high velocity circumstances to ensure uncompromising protection across a wide range of demanding conditions. While highly durable, they are not indestructible. Avoid direct impacts from sharp objects or excessive force.

4. CARE AND MAINTENANCE

Proper care will extend the life and maintain the performance of your Oakley Holbrook sunglasses.

4.1 Cleaning Lenses and Frame

- **Use the Oakley Microbag:** The included Microbag is specifically designed for cleaning and storing your Oakley eyewear. Use it to gently wipe lenses clean.
- **Water and Mild Soap:** For more thorough cleaning, rinse the lenses under lukewarm water. Apply a small drop of mild liquid dish soap (non-abrasive, no lotions or moisturizers) to your fingertips and gently rub the lenses. Rinse thoroughly and air dry, or gently blot with a clean, soft, lint-free cloth.
- **Avoid Harsh Chemicals:** Do not use paper towels, clothing, or harsh household cleaners (e.g., window cleaners, ammonia-based sprays) on your lenses, as they can scratch or damage the lens coatings.

4.2 Storage

- Always store your sunglasses in their protective case or Microbag when not in use to prevent scratches and damage.
- Avoid leaving sunglasses in extreme heat (e.g., on a car dashboard in direct sunlight), as this can warp the frame material or damage lens coatings.

5. TROUBLESHOOTING

This section addresses common issues you might encounter with your Oakley Holbrook sunglasses.

Problem	Possible Cause	Solution
Lenses appear blurry or smudged after cleaning.	Residue from cleaning solution, improper cleaning cloth, or oil from skin.	Rinse lenses with lukewarm water and clean with a fresh, clean Oakley Microbag or a mild soap solution as described in the Maintenance section. Ensure hands are clean before handling.
Frame feels loose or uncomfortable.	Minor frame adjustment needed due to wear or handling.	Oakley frames are designed to be durable. For minor adjustments, visit an authorized Oakley dealer or optician. Avoid attempting significant adjustments yourself to prevent damage.
Scratches on lenses.	Improper cleaning, abrasive contact, or dropping.	Scratches on lenses are generally not repairable. To prevent future scratches, always store sunglasses in their case and clean with appropriate materials. Replacement lenses may be available through Oakley or authorized dealers.
