## 8. TROUBLESHOOTING

### 8.1. Vest Fit Issues

If the vest does not fit properly, ensure the side straps are adjusted correctly. The straps are designed to accommodate a range of sizes. If the vest is too large for a very young child, it may be intended for older children or teens.

### 8.2. Dart Storage

If darts are not staying securely in the loops or clips, ensure they are inserted fully. Over time, elastic loops may loosen slightly, but they should still provide adequate retention for standard NERF Elite Darts.
