Gardena 19031-20

Gardena 19031-20 Smart Water Module Control User Manual

Model: 19031-20

1. Introduction

The Gardena 19031-20 Smart Water Module Control is designed to automate the water supply in your garden, providing flexible and efficient irrigation for your plants. This device integrates seamlessly into the existing Gardena smart system, allowing for remote control and scheduling via the Gardena smart app. This manual provides essential information for the proper installation, operation, and maintenance of your Smart Water Module Control.

2. Safety Information

Please read and understand all safety instructions before operating this product. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Do not immerse the device in water or expose it to extreme weather conditions beyond its intended use.
- Ensure all connections are secure to prevent leaks.
- Use only the specified battery type (1.5 Volts) and ensure correct polarity.
- Keep out of reach of children.

- Do not attempt to open or repair the device yourself. Contact Gardena customer support for assistance.

3. Package Contents

Verify that all components are present in the packaging:

- Gardena Smart Water Module Control (Model 19031-20)
- User Manual (this document)
- Required adapters for tap connection (if included in your specific package)

Image 4.2: Multiple perspectives of the Gardena Smart Water Module Control, illustrating its design and connection points.

5. Setup

5.1 Battery Installation

1. Locate the battery compartment on the device.
2. Insert the required 1.5 Volt batteries, ensuring correct polarity.
3. Securely close the battery compartment.

5.2 Attaching to Water Tap

1. Screw the Gardena Smart Water Module Control onto a standard outdoor water tap. Ensure a tight, leak-free connection.
2. Connect your garden hose to the outlet of the Smart Water Module Control.

5.3 Connecting to Gardena Smart System

The Smart Water Module Control is designed to extend your existing Gardena smart system. Follow the instructions provided with your Gardena smart Gateway and the Gardena smart app to add the Water Module Control to your system. This typically involves:

- Ensuring your Gardena smart Gateway is powered on and connected to the internet.
- Opening the Gardena smart app on your smartphone or tablet.
- Following the in-app instructions to discover and pair the new device.

Image 5.3: Another view of the Smart Water Module Control integrated into a garden, demonstrating its discreet placement.

6. Operation

6.1 Manual Control

Press the orange button on the device to manually start or stop irrigation. The LED indicators will show the current status (e.g., watering active, battery low).

6.2 App Control and Scheduling

For advanced control and scheduling, use the Gardena smart app. Through the app, you can:

- Set up custom irrigation schedules based on days, times, and duration.
- Monitor the status of your irrigation system.
- Adjust settings remotely.
- Integrate with other Gardena smart system components for optimized watering.

Image 6.2: A close-up view of the device installed, blending into the garden environment while managing water flow.

7. Maintenance

7.1 Cleaning

Wipe the exterior of the device with a damp cloth. Do not use abrasive cleaners or solvents. Ensure no water enters the battery compartment or electronic components.

7.2 Winter Storage

Before the first frost, disconnect the Smart Water Module Control from the tap and hose. Remove the batteries. Store the device in a dry, frost-free location indoors to prevent damage from freezing water.

7.3 Battery Replacement

When the battery low indicator illuminates, replace the batteries promptly to ensure continuous operation. Refer to section 5.1 for battery installation instructions.

8. Troubleshooting

If you encounter issues with your Gardena Smart Water Module Control, try the following:

- **No water flow:** Check if the tap is fully open. Ensure the hose is not kinked or blocked. Verify battery charge.

- **Device not responding:** Check battery charge and replace if necessary. Ensure the device is within range of your Gardena smart Gateway.
- **App connectivity issues:** Ensure your Gardena smart Gateway is online and connected to the internet. Restart the Gardena smart app.
- **Leaks:** Tighten all connections. Check for damaged O-rings or seals and replace if needed.

For further assistance, please contact Gardena customer support.

9. Specifications

Feature	Specification
Brand	Gardena
Model Number	19031-20
Product Dimensions	12.3 x 12.3 x 15.9 cm
Item Weight	399 g
Colour	Black
Voltage	1.5 Volts
Material	Kunststoff (Plastic)
Display Type	LED
Manufacturer	Gardena

10. Warranty and Support

Gardena products are manufactured to high quality standards. For information regarding warranty terms and conditions, please refer to the warranty card included with your product or visit the official Gardena website. For technical support, spare parts, or service inquiries, please contact your local Gardena service center or authorized dealer. Contact information can typically be found on the Gardena website or in your product documentation.
