## Respekta NEWYORK100X50S

# Respekta Black Glass Sink 100cm Model NEWYORK100X50S Instruction Manual

### PRODUCT OVERVIEW

This manual provides essential information for the safe and efficient installation, operation, and maintenance of your Respekta Black Glass Sink 100cm, model NEWYORK100X50S. This kitchen sink features two stainless steel basins and an integrated black glass draining board, designed for reversible installation in a 60 cm under-cabinet space.

### SAFETY INFORMATION

- Always handle glass components with care to prevent breakage.
- Wear appropriate personal protective equipment (PPE) such as gloves and safety glasses during installation.

- Ensure all plumbing connections are secure and watertight to prevent leaks.
- Do not place excessively heavy objects on the glass draining board. The maximum weight load is 100 kg.
- Avoid sudden temperature changes on the glass surface, although it is temperature resistant up to 180 °C.
- Keep cleaning agents away from children.

## PACKAGE CONTENTS

- Respekta Black Glass Sink (100cm)
- Basket Valve
- Excenter Fitting
- Drain and Overflow Fitting

## SPECIFICATIONS

Feature	Detail
Brand	Respekta
Model Number	NEWYORK100X50S
Color	Black
Material	Glass (ESG, 8 mm thickness), Steel (304, 1 mm thickness)
Size	us4/100cm
Product Dimensions (H x W x D)	21 cm x 100 cm x 50 cm (8.27"H x 39.37"W x 19.69"D)
Basin Depth	210 mm / 140 mm
Installation Type	Drop In, Reversible
Minimum Cabinet Size	60 cm
Tap Holes	2 (punched)
Drain Type	Pop-Up
Temperature Resistance	Up to 180 °C
Max. Weight Load (Glass)	100 kg
Item Weight	9 kg (19.8 pounds)

## INSTALLATION

### Pre-Installation Checklist

- Verify all package contents are present and undamaged.
- Ensure the countertop opening matches the cut-out dimensions (approximately 61.8 cm x 47 cm).

- Confirm adequate space for a 60 cm under-cabinet installation.
- Gather necessary tools (e.g., sealant, screwdriver, wrench, measuring tape).

The Respekta Black Glass Sink installed in a kitchen countertop, featuring a faucet and showing the two basins and draining area.

## Installation Steps

1. **Prepare the Countertop:** Carefully cut the opening in your countertop according to the specified dimensions. Ensure edges are smooth and clean.
2. **Position the Sink:** Place the Respekta Black Glass Sink into the prepared opening. The sink is designed for reversible installation, allowing you to choose the orientation of the basins and draining board.
3. **Secure the Sink:** Use appropriate clips or fasteners (not explicitly listed but standard for drop-in sinks) to secure the sink to the countertop. Apply a silicone sealant around the perimeter of the sink to create a watertight seal.
4. **Install Faucet:** Mount your kitchen faucet into one of the two pre-punched tap holes. Secure it according to the faucet manufacturer's instructions.
5. **Install Drain and Overflow Fittings:** Assemble and install the basket valve, excenter fitting, and the drain and overflow fitting into the sink basins. Ensure all connections are tightened properly to prevent leaks.
6. **Connect Plumbing:** Connect the faucet water supply lines and the drain assembly to your household plumbing. Test for leaks by running water through the faucet and checking all connections.

*Note: Professional installation is recommended for optimal results and to ensure compliance with local plumbing codes.*

## OPERATION

The Respekta Black Glass Sink is designed for standard kitchen use. The two basins allow for versatile tasks such as washing dishes in one basin and rinsing in the other. The integrated draining board provides a convenient area for drying dishes or preparing food.

- **Water Flow:** Use your installed faucet to control water flow and temperature.
- **Drainage:** The basket valve in each basin helps to catch food debris, preventing clogs. The excenter fitting allows for remote control of the main drain plug.
- **Draining Board:** Utilize the glass draining board for air-drying dishes, fruits, or vegetables.

## MAINTENANCE AND CARE

Proper care will ensure the longevity and appearance of your Respekta Black Glass Sink.

- **Daily Cleaning:** After each use, wipe the sink surfaces (glass and stainless steel) with a soft, damp cloth and mild dish soap. Rinse thoroughly with clean water.
- **Drying:** As per product instructions, wipe with a dry cloth to prevent water spots and streaks, especially on the black glass surface.
- **Stain Removal:** For stubborn stains on stainless steel, use a non-abrasive stainless steel cleaner. For glass, use a glass cleaner. Always follow the cleaner manufacturer's instructions.
- **Avoid Abrasives:** Do not use abrasive cleaners, scouring pads, or harsh chemicals (e.g., bleach, ammonia-based cleaners) on either the glass or stainless steel surfaces, as these can cause scratches or damage.
- **Prevent Scratches:** Avoid dragging heavy or sharp objects across the glass draining board.
- **Drain Maintenance:** Regularly clean the basket valves to remove accumulated food debris and prevent blockages.

## TROUBLESHOOTING

This section addresses common issues you might encounter with your sink.

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Water leaks around the sink edge	Inadequate sealant or improper installation.	Check the silicone seal around the sink. Reapply sealant if necessary. Ensure mounting clips are secure.
Slow drainage or blockage	Accumulation of food debris in the basket valve or drain pipe.	Remove and clean the basket valve. Use a drain cleaner or plumbing snake for deeper blockages. Avoid pouring grease down the drain.
Water spots or streaks on glass	Hard water residue or improper drying.	Wipe the glass surface dry immediately after use. Use a glass cleaner or a vinegar solution for hard water spots.
Scratches on stainless steel	Abrasive cleaning or contact with sharp objects.	Use non-abrasive cleaners and soft cloths. Minor scratches may be buffed out with specialized stainless steel scratch removal kits (follow product instructions carefully).

## WARRANTY AND SUPPORT
