JR Products 10245 Stainless Steel Square Baggage Door Catch

INSTRUCTION MANUAL

Product Overview

The JR Products 10245 Stainless Steel Square Baggage Door Catch is designed to securely hold RV baggage compartment doors open. This spring-loaded clip mechanism ensures the door remains in an open position when needed and conveniently lays flat against the surface when not in use, providing a clean and unobtrusive appearance. It is constructed from durable stainless steel for longevity and resistance to outdoor elements.

Setup and Installation

Proper installation of the baggage door catch ensures reliable operation. Follow these steps for mounting:

- 1. Identify Mounting Location:** Choose a suitable flat surface on your RV's baggage compartment door and the adjacent frame where the catch will hold the door open. Ensure the catch will not interfere with door closure or other components.
- 2. Prepare Mounting Surface:** Clean the mounting area thoroughly to remove any dirt or debris.
- 3. Mark Screw Holes:** Position the base of the door catch on the desired mounting surface. Use a pencil or marker to accurately mark the locations for the mounting screws through the pre-drilled holes in the catch's base.
- 4. Drill Pilot Holes:** Using an appropriate drill bit size for your mounting screws (not included), carefully drill pilot holes at the marked locations. Ensure not to drill too deep.
- 5. Secure the Catch:** Align the door catch with the pilot holes and secure it firmly using suitable stainless steel screws. Do not overtighten.
- 6. Test Operation:** Once installed, test the catch by opening the baggage door and engaging the catch. Ensure it holds the door securely and releases smoothly. Verify that the catch lays flat when the door is closed.

Image 1: The JR Products 10245 Stainless Steel Square Baggage Door Catch. This image shows the catch in a partially open position, highlighting its spring-loaded mechanism and the two mounting holes on its base. The durable stainless steel construction is visible.

Operating Instructions

The JR Products 10245 Baggage Door Catch is designed for simple and effective operation:

- **To Engage:** Open your RV's baggage compartment door to the desired open position. Gently push the door against the catch until the spring-loaded mechanism engages and holds the door securely.
- **To Disengage:** To close the door, simply pull the door away from the catch. The spring mechanism will release, allowing the door to swing freely.
- **When Not in Use:** When the door is closed, the catch is designed to lay flat against the mounting surface, minimizing protrusion and maintaining a streamlined appearance.

Maintenance

To ensure the longevity and optimal performance of your JR Products 10245 Baggage Door Catch, periodic maintenance is recommended:

- **Cleaning:** Clean the catch regularly with a mild soap and water solution. Rinse thoroughly and dry with a soft cloth. Avoid abrasive cleaners or harsh chemicals that could damage the stainless steel finish.
- **Inspection:** Periodically inspect the catch for any signs of wear, damage, or loose mounting screws. Ensure the spring mechanism operates smoothly.
- **Lubrication:** If the spring mechanism feels stiff, a small amount of silicone-based lubricant can be applied to the pivot points. Avoid oil-based lubricants that can attract dirt.

Troubleshooting

If you encounter issues with your baggage door catch, consider the following:

- **Catch Not Holding Door:**
 - Check if the catch is properly aligned with the door. Adjust its position if necessary.
 - Inspect the spring mechanism for damage or obstruction. Clean any debris.
 - Ensure mounting screws are tight and the catch is securely fastened.
- **Catch Not Laying Flat:**
 - Verify that there is no obstruction preventing the catch from fully retracting.
 - Clean the pivot points and apply a small amount of silicone lubricant if stiffness is observed.

- Check for any physical damage to the catch itself.

Specifications

Feature	Detail
Model Number	10245
Material	Stainless Steel
Type	Square Baggage Door Catch
Mechanism	Spring-loaded
Manufacturer	JR Products
ASIN	B01BTUHTEE
Date First Available	February 16, 2016
