INTRODUCTION TO HUNGRY SHARK WORLD

Welcome to Hungry Shark World, the official sequel to Hungry Shark Evolution! Dive into a vast ocean world filled with delicious prey, dangerous predators, and hidden treasures. Control a powerful shark, grow in size, unlock new species, and explore diverse environments from tropical beaches to icy depths. Your goal is to survive, eat everything in sight, and become the ultimate apex predator of the seas.

This manual provides essential information to help you get started, understand game mechanics, and troubleshoot common issues. Prepare to unleash your inner shark!

SETUP AND INSTALLATION

Hungry Shark World is available on various mobile platforms. Follow these steps to install the game on your device:

- 1. Device Compatibility:** Ensure your device meets the minimum system requirements listed in the [Specifications](#) section.
- 2. Download:**
 - For Android devices, open the Google Play Store app.
 - For iOS devices, open the Apple App Store app.
 - Search for "Hungry Shark World".
- 3. Installation:** Tap the "Install" or "Get" button. The game will download and install automatically. Ensure you have a stable internet connection during this process.
- 4. First Launch:** Once installed, tap the game icon on your device's home screen or app drawer to launch Hungry Shark World.
- 5. Data Download:** The game may require an additional data download upon first launch. Allow this process to complete.

Note: No product images or videos were provided for this section.

OPERATING THE GAME

Basic Controls

The game features intuitive touch controls:

- **Movement:** Touch and drag your finger anywhere on the screen to guide your shark. Your shark will automatically swim forward.
- **Boost:** Tap and hold with a second finger (or tap the boost button if available) to activate a speed boost. This consumes your boost bar.
- **Eating:** Swim into prey to automatically consume them. Larger prey may require multiple bites or a larger shark.

Gameplay Mechanics

- **Health Bar:** Your shark's health bar constantly depletes. Eat to replenish it. If it reaches zero, your shark will die.
- **Gold Rush:** Fill the Gold Rush meter by eating continuously. When activated, you become invincible, gain unlimited boost, and earn bonus gold for a short period.
- **Missions:** Complete various missions to earn gold and gems, and progress through the game. Missions are displayed on the main screen.
- **Sharks:** Unlock and upgrade different shark species, each with unique abilities and stats.
- **Pets & Accessories:** Equip pets and accessories to enhance your shark's abilities and provide bonuses.
- **Worlds:** Explore multiple unique worlds, each with its own ecosystem and challenges.

Note: No product images or videos were provided for this section.

MAINTENANCE AND BEST PRACTICES

To ensure optimal performance and data integrity for Hungry Shark World:

- **Game Updates:** Regularly check for and install game updates from your device's app store. Updates often include bug fixes, performance improvements, and new content.
- **Cloud Save:** Link your game to a cloud service (e.g., Google Play Games, Apple Game Center) to back up your progress. This prevents data loss if you switch devices or reinstall the game.
- **Clear Cache:** If you experience performance issues, try clearing the game's cache through your device's app settings. (*Settings > Apps > Hungry Shark World > Storage > Clear Cache* on Android; iOS typically manages this automatically).
- **Storage Space:** Ensure your device has sufficient free storage space for the game and its updates.
- **Internet Connection:** A stable internet connection is recommended for initial downloads, updates, and certain in-game features.

Note: No product images or videos were provided for this section.

TROUBLESHOOTING COMMON ISSUES

Issue	Possible Solution
-------	-------------------

Issue	Possible Solution
Game crashes or freezes	<ul style="list-style-type: none"> • Restart the game. • Restart your device. • Ensure your device meets minimum specifications. • Clear the game's cache. • Reinstall the game (ensure cloud save is active first).
Game not loading	<ul style="list-style-type: none"> • Check your internet connection. • Ensure sufficient storage space. • Force close and reopen the app. • Check for app updates.
In-app purchase issues	<ul style="list-style-type: none"> • Verify your app store payment method. • Ensure a stable internet connection. • Contact app store support (Google Play/App Store) for billing issues. • Contact game support for in-game item delivery issues.
Lost game progress	<ul style="list-style-type: none"> • Ensure you are logged into the correct cloud save account (Google Play Games/Apple Game Center). • If not linked, progress may be lost if the app is uninstalled or data cleared. • Contact game support with your player ID if available.

SPECIFICATIONS

Minimum system requirements for Hungry Shark World:

- **Operating System:** Android 4.4 or higher / iOS 9.0 or higher
- **RAM:** 2 GB or more recommended
- **Storage:** Approximately 500 MB free space for initial installation, more for updates and game data.
- **Internet Connection:** Required for initial download, updates, and certain online features.
- **Device:** Compatible with most smartphones and tablets. Performance may vary on older devices.

Note: These specifications are general estimates and may vary with game updates.

WARRANTY AND SUPPORT

As a free-to-play mobile application, Hungry Shark World does not typically come with a traditional product warranty. Support for the game is provided by the developer, Ubisoft.

Contacting Support

For technical issues, bug reports, or in-game purchase inquiries, please visit the official Ubisoft Support website or contact them directly through the game's in-app support option (if available).

- **Ubisoft Support Website:** <https://www.ubisoft.com/en-us/help/hungry-shark-world> (This is a placeholder URL, actual URL might differ)

- **In-Game Support:** Look for a "Support" or "Help" button within the game's settings menu.

When contacting support, provide as much detail as possible, including your device model, operating system version, game version, and a clear description of the issue.
