COMMERCIAL RENTAL

Q2 OFFICE OCCUPANCY TO RISE BY YEAR END

With South Side, slated to be completed this year, we project office rents to bottom by 2H. Grade A space rents expected to rise. Not only is this reflective of the expected spike in occupancy rates in the overall Downtown Core area, but is also a market clearing lead to entice a company to move into a new office given the much lower fit-out costs. Next year is expected to start strong.
