Bajaj SM02

Bajaj Platini SM02 Stand Mixer Instruction Manual

Model: SM02

Introduction

This manual provides detailed instructions for the safe and efficient operation of your Bajaj Platini SM02 Stand Mixer. Please read all instructions carefully before use and retain this manual for future reference.
The Bajaj Platini SM02 is a versatile 1000-watt stand mixer featuring a 5.2-liter stainless steel bowl, 8 stepless speed settings, and a tilt-head design. It comes with multiple attachments for kneading, whisking, mixing, mincing, and blending, making various kitchen tasks easier.

Safety Instructions

General Safety:

- Always ensure the appliance is switched off and unplugged before assembling, disassembling, or cleaning.
- Keep hands, hair, clothing, and utensils away from moving parts during operation to prevent injury.
- Do not operate the appliance with a damaged cord or plug, or if it malfunctions or has been dropped or damaged.
- This appliance is for household use only. Do not use outdoors.
- Do not immerse the motor unit in water or any other liquid.
- Supervise children closely when the appliance is in use.
- Ensure the appliance is placed on a stable, flat, and dry surface during operation.

Specific Safety for Attachments:

- When using the meat mincing attachment, ensure all parts are correctly assembled and secured.
- Use the food pusher provided with the mincing attachment; never use fingers or other utensils.
- Do not operate the blender without the lid securely in place.
- Avoid overfilling the mixing bowl or blender jar.

Product Components

Your Bajaj Platini SM02 Stand Mixer comes with the following components:

- Stand Mixer Base with Motor Unit
- 5.2-Liter Stainless Steel Mixing Bowl

- Dough Hook (Aluminium)
- Whisking Attachment (Stainless Steel)
- Flat Beater (Aluminium)
- Anti-Splash Cover Guard
- 1.5-Liter Glass Blender with Lid
- Meat Mincing Accessories (3 different sized discs, sausage maker, Kubbeh attachment)
- Instruction Manual and Warranty Card

Setup and Assembly

1. **Unpacking:**
   Carefully remove all components from the packaging. Ensure all parts listed in the "Product Components" section are present and undamaged.
2. **Cleaning:**
   Before first use, wash the mixing bowl, all attachments (dough hook, whisk, flat beater, mincing parts, blender jar, and lid) in warm soapy water. Rinse thoroughly and dry completely. Wipe the main unit with a damp cloth.

3. **Placing the Mixer:**
   Place the stand mixer on a clean, dry, and stable surface. Ensure there is adequate space around the appliance for ventilation and operation.

Operating Instructions

General Operation

1. To lift the tilt-head, turn the small knob located near the speed control knob.
2. Place the stainless steel mixing bowl onto the device plate and turn it clockwise until it is fixed securely.
3. Attach the desired blade (dough hook, whisk, or flat beater) to the blade connector by rotating it clockwise until fixed.
4. Lower the tilt-head and lock it into position.
5. Add ingredients to the mixing bowl.
6. Select the desired speed setting using the knob (1-8 for continuous operation, 'P' for pulse).

Video 1: Demonstration of the Bajaj Platini SM02 Stand Mixer's various functions including kneading, whisking, mixing, mincing, and blending.

Kneading Function (Dough Hook)

Use the aluminium dough hook for preparing dough for breads, pizzas, and pasta.

- Attach the dough hook and splash cover as described in general operation.
- Add ingredients to the bowl.
- For dough, start at Speed 1 for approximately 5 minutes. Do not exceed Speed 2 for dough kneading.
- Maximum capacity: 600 grams of dry flour or 1 kg of dough.

Whisking Function (Whisking Attachment)

The stainless steel whisking attachment is ideal for light, airy mixtures like egg whites, cream, and mayonnaise.

- Attach the whisking attachment and splash cover.
- Add ingredients such as egg whites or cream.
- Set the speed to 6 to 8 for approximately 5 minutes, or until stiff peaks are formed (for egg whites/cream).
- Maximum capacity: 20 eggs.

Mixing Function (Flat Beater)

The aluminium flat beater is suitable for normal to heavy mixtures, such as cake batters and cookie dough.

- Attach the flat beater and splash cover.
- Add ingredients for your cake or cookie batter.
- Use speeds 1 to 8 for up to 5 minutes, depending on the consistency required.

Mincing Function (Meat Mincing Attachment)

The meat mincing attachment allows you to prepare minced meat, sausages, and Kubbeh.

1. Assemble the meat mincing attachment by inserting the spiral shaft, selecting the appropriate grinding disc (fine, medium, or coarse), and securing the cutter housing.
2. Attach the assembled mincing unit to the front side of the large cover in a horizontal position.
3. Place the feeding tray on top of the mincing unit.

4. Add pieces of meat into the feeder tube and use the food pusher to guide them through.
5. For sausage or Kubbeh making, replace the grinding disc with the appropriate plastic attachment before securing the cutter housing.

Blending Function (Glass Blender)

The 1.5-liter glass blender is perfect for smoothies, juices, and crushing ice.

1. Ensure the blender blades are securely attached to the base of the glass jar.
2. Place the blender jar onto the top of the large cover and lock it into place by twisting.
3. Add your desired ingredients (fruits, liquids, ice cubes).
4. Secure the blender lid.
5. Select the desired speed setting (Speed 8 for 4 minutes is recommended for blending).

Cleaning and Maintenance

- Always unplug the appliance before cleaning.
- The main motor unit should be wiped clean with a damp cloth only. Never immerse it in water.
- The stainless steel mixing bowl, dough hook, whisk, flat beater, and meat mincing attachments are **NOT** dishwasher safe. Wash them by hand in warm soapy water, rinse, and dry thoroughly.
- The glass blender jar and lid can be washed in warm soapy water. Ensure blades are cleaned carefully.
- Store the appliance and its attachments in a dry, safe place.

Troubleshooting

Problem	Possible Cause	Solution
Mixer does not start.	Not plugged in; power switch off; head not locked down.	Check power connection; ensure switch is on; lock the tilt-head securely.
Attachments not fitting correctly.	Incorrect attachment for the task; not rotated clockwise to lock.	Ensure the correct attachment is selected; rotate clockwise until it clicks into place.
Motor overheating.	Overloaded with ingredients; continuous operation at high speed for too long.	Reduce ingredient quantity; allow the mixer to cool down before resuming. Follow recommended speed settings and operating times.
Meat mincer not processing meat.	Meat pieces too large; incorrect disc used; attachment not assembled correctly.	Cut meat into smaller pieces; ensure appropriate disc is selected; reassemble the mincing attachment carefully.

Specifications

- **Model Name:** Platini SM02
- **Brand:** Bajaj
- **Power:** 1000 Watts
- **Voltage:** 1000 Volts
- **Mixing Bowl Capacity:** 5.2 Liters (Stainless Steel)
