## Mayflower Products FBA\_MPC-SL-11x14

# Mayflower Products Pro Size Polishing Cloth Set Instruction Manual

Model: FBA\_MPC-SL-11x14

## INTRODUCTION

The Mayflower Products Pro Size Polishing Cloth Set is designed for cleaning, shining, and protecting various fine valuables. This set includes two large, 11 x 14 inch cloths, crafted from 100% pure cotton. The cloths are treated with non-toxic ingredients, making them safe for use on gold (14k and 18k), silver, and platinum jewelry, coins, watches, and silverware. They effectively remove tarnish and restore the original brilliance of metals, while also providing a protective layer to prevent future tarnishing.

## SETUP

The Mayflower Products Polishing Cloths require no special setup. Simply remove the cloth from its packaging. No additional cleaning solutions or pastes are needed, as the white inner layer of the cloth is pre-treated with cleaning agents.

## OPERATING INSTRUCTIONS

Follow these two simple steps to clean and polish your valuables:

### 1. **Step 1: Cleaning and Tarnish Removal (White Layer)**

Use the white inner layer of the cloth to gently rub the item you wish to clean. This layer contains the specialized cleaning ingredients that will remove dirt, grime, and tarnish, restoring the item's original brightness. Apply light to moderate pressure as needed.

## 2. Step 2: Buffing and Final Shine (Gray Layer)

After cleaning with the white layer, use the untreated gray flannel outer layer of the cloth. Gently buff the item to achieve a brilliant, streak-free shine. This step helps to polish the surface and enhance its luster.

# Easy Two-Step Cleaning

# 1

The white layer has built-in our unique formula that gently polishes and removes dirt and tarnish, revealing your piece's original brightness. Use the white cloth first

# 2

Secondly, use the untreated, soft gray cloth to buff and achieve a final brilliant shine.

## Multipurpose Use

The Mayflower Products Polishing Cloth is versatile and can be used on a variety of items:

- **Jewelry:** Gold, silver, and platinum rings, necklaces, bracelets, and earrings.
- **Watches:** Gold and silver watches.
- **Coins:** Gold and silver collectible coins.
- **Silverware:** Forks, spoons, knives, and other silver serving pieces.
- **Musical Instruments:** Silver or gold-plated instruments like flutes and trumpets.
- **Antiques:** Various metal antiques requiring gentle polishing.

## MAINTENANCE

The Mayflower Products Polishing Cloths are designed for repeated use. The cleaning agents are embedded within the white layer, allowing the cloth to remain effective even after it appears stained from previous polishing sessions.

- **Storage:** Store the cloths in a dry place, preferably in their original packaging or a sealed bag, to prolong their effectiveness.
- **Cleaning the Cloth:** These cloths are pre-treated and contain cleaning agents. Washing the cloths is not recommended as it may remove the active ingredients and reduce their effectiveness. Continue to use the cloth until it no longer effectively cleans or polishes.
- **Durability:** The cloths are durable and designed to last through many cleaning cycles, offering a cost-effective solution for maintaining your valuables.

# Reusable

*This cloth works again and again – even if it's stained from past shines.*

**No paste or solution required**

– it's all in the cloth! The white flannel is dry-infused with cleaning agents, ready to polish and restore shine instantly

**Durable.** The cloth's cleaning ingredients are designed to last. Continue using it repeatedly for as long as it delivers your preferred results

**Cost-effective.** No need to replace after one use

## TROUBLESHOOTING

- **Item Not Shining:**
  - Ensure you are using the white inner layer first for cleaning, then the gray outer layer for buffing.
  - Apply consistent, gentle pressure. For heavily tarnished items, more rubbing may be required.
  - The cloth may be saturated with tarnish or dirt. If the cloth is excessively dark and no longer effective, it may be

time to replace it.

- **Tarnish Remains:**

- Some deep tarnish may require multiple applications or more vigorous rubbing with the white layer.
- Ensure the item is made of a compatible metal (gold, silver, platinum). The cloth is not designed for all metal types.

- **Cloth Appears Dirty:**

It is normal for the white layer of the cloth to darken as it removes tarnish. This indicates the cloth is working. Do not wash the cloth, as this will remove the cleaning agents.

## SPECIFICATIONS

Feature	Detail
Product Dimensions (each cloth)	11 x 14 inches (28 x 35.5 cm)
Item Weight (set of 2)	2.08 ounces
Material	100% Ultra-Soft Cotton
Color	Gray (outer layer), White (inner layer)
Manufacturer	Mayflower Products
Item Model Number	FBA_MPC-SL-11x14
UPC	860010137376, 784672838894
Origin	Made in USA
Included Components	2 Polishing cloths, Insert with directions of use
