Bajaj DX-6

Bajaj DX-6 1000 Watts Dry Iron Instruction Manual

Model: DX-6 | Model Number: 440195

1. Introduction

Thank you for choosing the Bajaj DX-6 1000 Watts Dry Iron. This manual provides essential information for the safe and effective operation, maintenance, and care of your appliance. Please read these instructions carefully before first use and retain them for future reference.

Proper use of this appliance will ensure its longevity and optimal performance. Always adhere to the safety guidelines to prevent injury or damage.

2. Product Overview

The Bajaj DX-6 Dry Iron is designed for efficient and safe ironing of various fabrics. Key features include:

- 1000 Watts power for quick heating.
- Advanced soleplate with anti-bacterial German coating for smooth glide.
- Thermol fuse safety mechanism.
- Automatic shut-off for enhanced safety.
- Cool-touch body for comfortable handling.
- 360-degree swivel cord for flexible movement.

Components

1. Temperature Control Knob: Adjusts heat settings for different fabrics.
2. Indicator Light: Illuminates when the iron is heating and turns off when the set temperature is reached.
3. Soleplate: The heated surface that comes into contact with fabric.
4. Handle: For gripping and maneuvering the iron.
5. Power Cord: Connects the iron to the electrical outlet.

3. Setup

1. **Unpacking:** Carefully remove the iron from its packaging. Retain the packaging for storage or future transport.
2. **Inspection:** Check the iron for any signs of damage. Do not use if the iron or power cord is damaged.
3. **First Use:** Before first use, wipe the soleplate with a damp cloth to remove any manufacturing residue. Some slight odor or smoke may occur during the first heating; this is normal and will dissipate quickly.
4. **Placement:** Place the iron on a stable, heat-resistant ironing board.

4. Operating Instructions

1. **Prepare Garment:** Ensure the garment is clean and dry. Check the fabric care label for recommended ironing temperature.

2. **Set Temperature:** Plug the iron into a suitable electrical outlet. Turn the temperature control knob to the desired setting according to the fabric type (e.g., synthetic, silk, wool, cotton, linen). The indicator light will illuminate.
3. **Preheating:** Allow the iron to heat up. The indicator light will turn off once the selected temperature is reached, indicating the iron is ready for use.
4. **Ironing:** Begin ironing the garment. For best results, iron in smooth, even strokes.
5. **Automatic Shut-Off:** The iron is equipped with an automatic shut-off feature for safety. If left unattended for a period, it will automatically turn off. To reactivate, simply move the iron.
6. **After Use:** Once ironing is complete, turn the temperature control knob to the 'MIN' position and unplug the iron from the electrical outlet.

5. Maintenance and Care

1. **Cleaning the Soleplate:** After the iron has cooled completely, wipe the soleplate with a damp cloth. For stubborn stains, use a non-abrasive soleplate cleaner. Do not use harsh scouring pads or metallic cleaners.

2. **Cleaning the Body:** Wipe the exterior of the iron with a soft, damp cloth. Do not immerse the iron in water or any other liquid.
3. **Storage:** Ensure the iron is completely cool before storing. Wrap the power cord neatly around the cord wrap area (if available) or secure it with a tie. Store the iron upright in a dry, safe place, away from moisture and direct sunlight.

6. Troubleshooting

If you encounter issues with your Bajaj DX-6 Dry Iron, refer to the following table:

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Iron not heating	Not plugged in; power outage; temperature knob set to 'MIN'; automatic shut-off activated.	Ensure iron is plugged in and power is on. Check circuit breaker. Turn temperature knob to desired setting. Move the iron to reactivate.
Iron sticking to fabric	Temperature too high for fabric; soleplate is dirty.	Reduce temperature setting. Clean the soleplate as per maintenance instructions.
Indicator light not working	Iron has reached set temperature; fault in indicator light.	This is normal if the iron is at temperature. If the iron is not heating and the light is off, contact customer support.

If the problem persists after attempting these solutions, please contact Bajaj customer support.

7. Specifications

Feature	Detail
Brand	Bajaj
Model Name	DX-6
Item Model Number	440195
Power Consumption	1000 Watts
Colour	White
Product Dimensions	27L x 11W Centimeters
Item Weight	800 g
Base Material	Aluminium (with Anti-Bacterial German Coating)
Special Feature	Heavy, Automatic Shut-Off, Cool Touch Body, Thermol Fuse Safety
Included Components	Dry iron and Warranty card
Country of Origin	India

8. Warranty and Support

Your Bajaj DX-6 Dry Iron comes with a **2-year Bajaj warranty** from the date of purchase. Please retain your purchase receipt and the warranty card for any warranty claims.

For service, repairs, or any product-related queries, please contact Bajaj customer support. Refer to the warranty card or Bajaj's official website for contact details.

9. Important Safety Instructions

- Always ensure the voltage indicated on the rating label corresponds to your mains voltage.
- Do not leave the iron unattended while it is switched on or connected to the power supply.
- Keep the iron and its cord out of reach of children and pets when it is switched on or cooling down.
- Do not immerse the iron, cord, or plug in water or any other liquid.

- Avoid touching hot surfaces. Use handles or knobs.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts, and before cleaning the appliance.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- Do not let the cord touch hot surfaces.
- Use the iron only for its intended household use.
- Always place the iron on a stable, heat-resistant surface when resting.
