# Hunter Builder 53326 52-inch Indoor Ceiling Fan with LED Lights - Instruction Manual

Model: Builder 53326 | Brand: Hunter

## 1. INTRODUCTION

This manual provides comprehensive instructions for the Hunter Builder 53326 52-inch Indoor Ceiling Fan with LED Lights. This traditional indoor ceiling fan is designed to enhance comfort and lighting in various rooms, including kitchens, bedrooms, living rooms, and home offices. It features a low-profile mount, energy-efficient LED lighting, and a quiet motor with reversible settings for year-round use.

## 2. SAFETY INFORMATION

Read all instructions carefully before beginning installation. Failure to follow these instructions could result in electric shock, fire, or personal injury.

- Ensure power is disconnected at the circuit breaker before installation or maintenance.
- All wiring must be in accordance with national and local electrical codes.
- Mount the fan only to an outlet box marked "Acceptable for Fan Support of 35 lbs (15.9 kg) or less" and use the mounting screws provided with the outlet box.
- Do not operate the fan with damaged blades. Replace all blades if one is damaged.
- Maintain a minimum clearance of 7 feet from the floor to the trailing edge of the blades.

### 3. PACKAGE CONTENTS

Verify all components are present before beginning installation:

- 1 Ceiling Fan unit
- 5 Fan Blades
- Candelabra Incandescent light kit (includes LED bulbs)

## 4. SETUP AND INSTALLATION

---

The Hunter Builder 53326 is designed for a low-profile flush mount, suitable for ceilings under 9 feet high.

### 4.1 Pre-Installation

- Unpack the fan and check for any damage.
- Ensure all parts are present as listed in the package contents.
- Turn off power at the circuit breaker.

### 4.2 Mounting the Fan

1. Attach the mounting bracket to the ceiling outlet box using the provided screws. Ensure the outlet box is rated for fan support.
2. Carefully lift the fan motor assembly and hang it from the mounting bracket.
3. Connect the electrical wiring according to the wiring diagram in the full instruction manual (not included here).
4. Secure the fan motor housing to the mounting bracket.

### 4.3 Attaching the Blades

1. Attach each of the 5 fan blades to the blade irons using the provided screws.
2. Secure the blade assemblies to the motor housing.

### 4.4 Installing the Light Kit

1. Connect the light kit wiring to the fan motor wiring.
2. Attach the light kit housing to the bottom of the fan motor.
3. Install the LED bulbs into the sockets.
4. Reattach the glass shades.

Reversible Blades

Figure 3: The fan features reversible blades, offering both a wood grain and a snow white finish to match your decor.

## 5. OPERATING INSTRUCTIONS

The Hunter Builder 53326 ceiling fan is operated via pull chains for both fan speed and light control.

### 5.1 Fan Speed Control

- Locate the fan speed pull chain (typically shorter or marked).
- Pull the chain once for high speed, twice for medium, three times for low, and four times to turn the fan off.

### 5.2 Light Control

- Locate the light pull chain (typically longer or marked).
- Pull the chain once to turn the lights on, and again to turn them off. The LED bulbs are fully dimmable if connected to a compatible dimmer switch (not included).

### 5.3 Reversible Function

A slide switch on the fan motor housing allows you to reverse the direction of the blades.

- **Summer Mode:** Blades rotate counter-clockwise to create a downward airflow, providing a cooling effect.
- **Winter Mode:** Blades rotate clockwise to create an upward airflow, circulating warm air trapped near the ceiling.

## 6. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your Hunter ceiling fan.

### 6.1 Cleaning

- Always turn off power at the circuit breaker before cleaning.
- Use a soft, damp cloth to clean the fan blades and motor housing. Avoid harsh chemicals or abrasive cleaners.
- The glass shades can be easily removed for cleaning.

## 6.2 Light Bulb Replacement

- Ensure power is off.
- Carefully remove the glass shade by twisting or unscrewing it.
- Unscrew the old bulb and replace it with a new candelabra incandescent or compatible LED bulb.
- Reattach the glass shade.

## 7. TROUBLESHOOTING

If you experience issues with your fan, consult the following common solutions:

Problem	Possible Cause	Solution
Fan does not start	No power to the fan; loose wire connections; incorrect wiring.	Check circuit breaker; verify all wire connections are secure; consult a qualified electrician.
Fan wobbles	Loose blade screws; unbalanced blades; improper mounting.	Tighten all blade screws; use a balancing kit (not included) to balance blades; ensure mounting bracket is secure.
Lights do not work	Loose bulb; faulty bulb; incorrect wiring to light kit.	Tighten or replace bulbs; check light kit wiring connections.
Noisy operation	Loose screws; motor issues; blades hitting an obstruction.	Check and tighten all screws; ensure no obstructions are in the blade path. If motor noise persists, contact customer support.

## 8. SPECIFICATIONS
