## Hunter 59214

# Hunter Ocala 52-inch Indoor/Outdoor Ceiling Fan User Manual

Model: 59214

Brand: Hunter Fan Company

## PRODUCT OVERVIEW

The Hunter Ocala 52-inch Indoor/Outdoor Ceiling Fan is designed to provide efficient air circulation and illumination for both indoor and covered outdoor spaces. Featuring a durable construction and a versatile design, this fan is suitable for various room types, including living rooms, bedrooms, and patios. It incorporates energy-efficient LED lighting and a reversible motor for year-round comfort.

Figure 1: Hunter Ocala 52-inch Ceiling Fan, Noble Bronze finish. This image shows the complete fan assembly with four blades and an integrated light kit with a clear glass shade.

## KEY FEATURES

- **LED Light Kit:** Equipped with energy-efficient, dimmable LED bulbs to control lighting and ambiance.

- **Room Placement Versatility:** Height adjustable with included 3-inch and 2-inch downrods, suitable for indoor and damp-rated covered outdoor areas like porches and patios.
- **Multi-Speed Reversible Motor:** Features a Whisper Wind motor for powerful, quiet airflow. The reversible function allows for downdraft mode in summer and updraft mode in winter.
- **Modern Industrial Design:** The Ocala fan boasts an industrial rustic aesthetic with a clear glass light cover, measuring 52 x 52 x 9.8 inches.
- **Pull Chain Control:** Convenient pull chains for easy on/off and speed adjustment of the fan, and light control.

## SETUP AND INSTALLATION

---

Installation of the Ocala ceiling fan is designed to be straightforward for homeowners with basic electrical knowledge. Ensure the mounting location is properly anchored to the ceiling structure and can support the fan's weight (approximately 18 pounds).

### Mounting Options:

- **Standard Mounting:** Utilizes the included downrods for optimal air movement.
- **Low Profile Mounting:** For lower ceilings, using the shorter downrod.
- **Angled Mounting:** Possible with an appropriate adapter (not included) for sloped ceilings.

## Included In The Box

Figure 2: Fan Dimensions and Mounting Options. This diagram illustrates the different mounting configurations and corresponding fan heights.

### What's Included:

The package includes the ceiling fan unit, four reversible blades, an integrated LED light kit, and 2-inch and 3-inch downrods. Additional bolts for specific installation needs may be required and are not always included.

Figure 3: Included Components. This graphic details the main components found within the product packaging.

## OPERATING INSTRUCTIONS

---

The Hunter Ocala fan is operated using two distinct pull chains located on the fan's light kit. One chain controls the fan speeds, and the other controls the light.

### Fan Speed Control:

1. **First Pull:** Activates the fan at High speed.
2. **Second Pull:** Changes the fan speed to Medium.
3. **Third Pull:** Changes the fan speed to Low.
4. **Fourth Pull:** Turns the fan Off.

### Light Control:

The second pull chain operates the integrated LED light kit. Pull the chain once to turn the light On, and pull it again to turn the light Off. The LED lights are dimmable, allowing for adjustment of brightness and ambiance.

### Reversible Blade Function:

The fan features a reversible motor to optimize air circulation for different seasons. A switch located on the motor housing (often inside the light globe) allows you to change the blade direction:

- **Downdraft (Summer):** Blades rotate counter-clockwise, pushing cool air down.
- **Updraft (Winter):** Blades rotate clockwise, drawing cool air up and circulating warm air.

Figure 4: Reversible Fan Blades. The fan blades offer two distinct finishes, allowing for customization to match your decor.

## MAINTENANCE

---

Regular maintenance helps ensure the longevity and optimal performance of your Hunter Ocala ceiling fan. Keep the fan blades and motor housing clean by wiping them with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the finish. Periodically check all screws and connections to ensure they are secure. The LED bulbs are designed for long life and typically do not require frequent replacement.

## TROUBLESHOOTING

---

If you encounter issues with your Hunter Ocala ceiling fan, refer to the following common troubleshooting tips:

- **Fan Shakes or Wobbles:**
  - Ensure all blade screws are tightened securely.
  - Verify that the mounting bracket is firmly attached to the ceiling joist.

- Check for any bent or warped blades.
  - Use the included balancing kit if necessary, though often not required due to quality materials.
- **Insufficient Airflow:**
    - Confirm the fan is operating at the highest speed setting.
    - Ensure the fan is set to the correct direction for the season (downdraft for cooling).
    - Consider the room size relative to the fan's capacity. While this 52-inch fan is suitable for large rooms (up to 10x20 ft), very large or open-concept spaces might require additional air circulation.
  - **Difficulty Changing Seasons (Reversible Switch):**
    - The reversible switch is located on the motor housing, often inside the light globe. You may need to remove the light cover to access it.
    - Ensure the fan is completely stopped before attempting to change the direction.
  - **No Remote Control:**
    - This model primarily uses pull chain controls. A remote control unit is not included and must be purchased separately if desired.

### SPECIFICATIONS

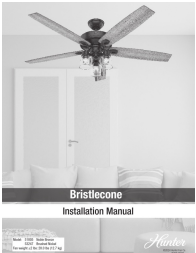

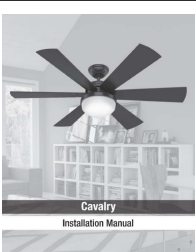

Feature	Detail
Brand	Hunter
Model Name	59214 (Ocala)
Color	Noble Bronze finish
Product Dimensions	52"D x 52"W x 13.3"H
Number of Blades	4
