

SAS 6602

SAS 6602 Thickster Textured Safety Latex Gloves User Manual

Model: 6602

INTRODUCTION

This manual provides instructions for the proper use, care, and maintenance of your SAS 6602 Thickster Textured Safety Latex Gloves. These gloves are designed for heavy-duty applications, offering enhanced protection and durability compared to standard latex gloves.

Please read this manual thoroughly before using the product to ensure safe and effective operation.

IMPORTANT SAFETY INFORMATION

WARNING: This product contains latex, which may cause allergic reactions in some individuals. Discontinue use immediately if irritation or allergic reaction occurs.

Proposition 65 Warning: This product can expose you to chemicals which are known to the State of California to cause cancer and birth defects or other reproductive harm. For more information, go to www.P65Warnings.ca.gov.

Always inspect gloves for tears or punctures before use. Do not use damaged gloves. These gloves are for single-use only and should be disposed of properly after use.

SETUP

The SAS 6602 Thickster gloves are ready for immediate use upon removal from the packaging. No assembly or special preparation is required.

1. Open the box and remove one pair of gloves.
2. Ensure your hands are clean and dry before donning the gloves.
3. Carefully slide your hands into the gloves, ensuring a comfortable fit. The gloves are ambidextrous.

OPERATING INSTRUCTIONS

These gloves are designed for various heavy-duty tasks requiring hand protection. Their textured grip enhances control, and the extra thickness provides superior tear resistance.

- **Automotive Work:** Protects hands from oils, greases, and chemicals.
- **Painting:** Prevents paint and solvents from contacting skin.
- **Furniture Refinishing:** Offers protection during sanding, stripping, and finishing processes.
- **Janitorial Tasks:** Suitable for cleaning with various agents.
- **Agricultural Uses:** Provides barrier protection in farm environments.

To remove gloves, grasp the cuff of one glove and peel it off, turning it inside out. Hold the removed glove in the gloved hand. Then, slide an ungloved finger under the cuff of the remaining glove and peel it off, turning it inside out over the first glove. Dispose of both gloves properly.

MAINTENANCE

These gloves are disposable and not intended for reuse. Proper disposal after a single use is recommended to maintain hygiene and protective integrity.

- **Storage:** Store gloves in their original packaging in a cool, dry place, away from direct sunlight and heat.
- **Cleaning:** Not applicable as gloves are disposable. Do not attempt to wash or sterilize for reuse.

TROUBLESHOOTING

- **Glove Tears During Donning:** Ensure hands are dry. Select the correct size for a comfortable fit. Avoid sharp objects or jewelry that could snag the glove.
- **Allergic Reaction:** If skin irritation, redness, or itching occurs, remove gloves immediately and wash hands thoroughly. Consult a medical professional if symptoms persist. Consider using latex-free alternatives if you have a latex allergy.
- **Poor Grip:** The gloves feature a textured grip. If grip is insufficient for a specific task, ensure the gloves are clean and dry. For extremely oily or wet conditions, additional precautions may be necessary.

SPECIFICATIONS

Feature	Detail
Brand	SAS
