User Manual

ZELOTES 7200 DPI 7 BUTTONS PROFESSIONAL LED OPTICAL USB WIRED GAMING MOUSE

Model: BC72682

Introduction

Thank you for choosing the zelotes 7200 DPI 7 Buttons Professional LED Optical USB Wired Gaming Mouse. This manual provides detailed instructions on setting up, operating, and maintaining your new gaming mouse to ensure optimal performance and longevity. Designed for both gaming and office use, this mouse offers precise control, customizable features, and an ergonomic design for comfortable long-term use.

Package Contents

Please verify that all items are present in your package:

- 1 x zelotes Wired Gaming Mouse
- 1 x User Manual (this document)

Setup

The zelotes gaming mouse is designed for intelligent connectivity, offering a simple plug-and-play experience without the need for additional drivers or software installation.

1. **Connect the Mouse:** Locate an available USB port on your computer. Insert the USB connector of the zelotes gaming mouse firmly into the USB port.
2. **System Recognition:** Your operating system (Windows, Mac OS, Linux) will automatically detect and install the necessary drivers. This process usually takes a few seconds.
3. **Ready for Use:** Once the installation is complete, the mouse's LED backlighting will illuminate, indicating it is ready for immediate use.

Operating Instructions

The zelotes gaming mouse features 7 programmable buttons and adjustable DPI settings to enhance your gaming and productivity experience.

Button Functions

- ① left button, ② right button, ③ middle button, ④ forward button,
- ⑤ backward button, ⑥ sensitivity adjustment button,
- ⑦ free from double click

Image: Detailed diagram illustrating the location and numbering of the mouse's buttons.

Table: Button Layout and Functionality

Number	Button Name	Function
①	Left Button	Standard left-click function.
②	Right Button	Standard right-click function.
③	Middle Button (Scroll Wheel Click)	Clickable scroll wheel, often used for opening links in new tabs or auto-scrolling.
④	Forward Button	Navigates forward in web browsers or file explorers.
⑤	Backward Button	Navigates backward in web browsers or file explorers.
⑥	DPI Adjustment Button	Cycles through DPI sensitivity settings.
⑦	Fire Key (Double Click)	Performs a rapid double-click action.

DPI Sensitivity Adjustment

The mouse features five adjustable DPI settings: 1000, 1600, 2400, 3200, and 7200 DPI. To change the sensitivity:

- Press the **DPI Adjustment Button** (labeled ⑥ in the diagram) located behind the scroll wheel.
- Each press will cycle to the next DPI setting. The LED lighting may change color or pattern to indicate the current DPI level (refer to specific product behavior for visual cues).
- Select the DPI setting that best suits your task, whether it's precise aiming in games or general desktop navigation.

LED Backlighting

The zelotes gaming mouse features dynamic LED backlighting that changes color. This lighting serves both aesthetic and functional purposes, sometimes indicating the current DPI setting. The LED color light will constantly change when connected to your computer. While specific controls for turning off or setting a certain color are not detailed in the basic plug-and-play functionality, the default behavior is a continuous color cycle.

Maintenance

Proper care will extend the life of your zelotes gaming mouse:

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the mouse. For stubborn dirt, slightly dampen the cloth with

water. Avoid using harsh chemicals or abrasive materials.

- **Sensor Care:** Keep the optical sensor on the underside of the mouse clean and free of dust or debris to ensure accurate tracking.
- **Cable Management:** Avoid sharp bends or excessive pulling on the USB cable to prevent internal wire damage.
- **Storage:** When not in use, store the mouse in a clean, dry environment away from extreme temperatures.

Troubleshooting

If you encounter issues with your zelotes gaming mouse, refer to the following common solutions:

Table: Common Issues and Solutions

Problem	Possible Cause	Solution
Mouse not responding / No LED light	Loose USB connection or faulty USB port.	Ensure the USB cable is securely plugged into the computer. Try a different USB port. Restart your computer.
Cursor movement is erratic or jumpy	Dirty optical sensor or unsuitable mouse pad surface.	Clean the optical sensor on the underside of the mouse. Use a clean, uniform-colored mouse pad or surface.
DPI adjustment not working	Button malfunction or temporary software glitch.	Ensure you are pressing the correct DPI button. Disconnect and reconnect the mouse. Test on another computer if possible.
Buttons not responding	Software conflict or hardware issue.	Restart your computer. Check for any conflicting software or drivers. If the issue persists, the button may be faulty.

Specifications

Table: Product Specifications

Feature	Detail
Brand	zelotes
