

Hampton Bay YJAF052-C

Hampton Bay 11 ft. LED Offset Outdoor Patio Umbrella

Model: YJAF052-C

Brand: Hampton Bay

IMPORTANT SAFETY INFORMATION

Please read and understand all instructions before assembling and using this product. Failure to follow these instructions may result in injury or damage.

- Always ensure the umbrella base is properly weighted and stable before opening the canopy.
- Do not use the umbrella in strong winds or severe weather conditions. Close and secure the canopy to prevent damage or injury.
- Keep children and pets away from the umbrella during operation to avoid accidents.
- Regularly inspect all parts for wear, damage, or loose connections. Replace damaged parts immediately.
- Do not hang objects from the umbrella frame or canopy.

PACKAGE CONTENTS

Verify that all components are present before beginning assembly:

- Umbrella Canopy (Sunbrella Henna)
- Offset Umbrella Frame (Steel)
- Umbrella Base
- Crank Handle
- Assembly Hardware

SETUP INSTRUCTIONS

Step 1: Assemble the Base

Place the umbrella base in the desired location on a flat, stable surface. Ensure the base is filled with sand

or water as per manufacturer recommendations to provide adequate stability. The base is designed to be filled for optimal performance.

Image: The square umbrella base with a central pole receiver.

Step 2: Attach the Umbrella Frame

Insert the main pole of the umbrella frame into the receiver on the assembled base. Secure it firmly using the provided hardware (e.g., tightening knob or bolts) to ensure a stable connection.

Step 3: Secure the Canopy

Ensure the canopy is properly attached to the frame's arms. The LED lights are integrated into the canopy and will draw power from a solar panel located at the top of the umbrella. Allow the solar panel to charge in direct sunlight for a full day before expecting the lights to function.

OPERATING INSTRUCTIONS

Opening the Umbrella

Locate the crank handle on the umbrella pole. Turn the crank handle clockwise to extend the canopy. Continue cranking until the canopy is fully open and taut. Do not over-crank.

Image: Close-up of the umbrella's crank lift mechanism and curved support arm.

Adjusting the Umbrella

This offset umbrella features a manual tilt mechanism and can be rotated. To tilt the canopy, locate the tilt adjustment lever or button on the frame and adjust to the desired angle. To rotate the umbrella, loosen the rotation lock (if present) and carefully pivot the canopy to the desired position, then re-secure the lock.

Closing and Securing the Umbrella

Turn the crank handle counter-clockwise to retract the canopy. Once fully closed, wrap the attached securing strap around the folded canopy and fasten it to prevent the umbrella from opening unexpectedly or being caught by wind.

MAINTENANCE

Cleaning

- **Canopy (Sunbrella Fabric):** Clean with mild soap and lukewarm water. Use a soft brush to remove dirt. Rinse thoroughly and allow to air dry completely before folding or storing. Do not use harsh chemicals or bleach.
- **Frame:** Wipe the steel frame with a damp cloth and mild soap. Dry thoroughly to prevent rust.

Storage

When not in use for extended periods or during inclement weather, close and secure the umbrella. For long-term storage, consider using a protective cover or storing the umbrella indoors in a dry, sheltered area to prolong its lifespan.

TROUBLESHOOTING

- **Umbrella not opening/closing smoothly:** Check for any obstructions in the mechanism or canopy fabric. Apply a silicone-based lubricant to moving parts if necessary.

- **Umbrella unstable:** Ensure the base is adequately weighted with sand or water. Verify all connections between the frame and base are tight.
- **LED lights not working:** Ensure the solar panel has received sufficient direct sunlight to charge. Check for any debris covering the solar panel.

SPECIFICATIONS

Feature	Specification
Brand	Hampton Bay
Model Number	YJAF052-C
Canopy Diameter	11 Feet
Canopy Material	Sunbrella Fabric
Frame Material	Steel
Shaft Material	Steel
Opening Mechanism	Crank Lift
Tilt Mechanism	Manual Tilt
Special Features	Integrated LED Lights
Included Components	Base
Approximate Item Weight	0.69 Kilograms (Please verify actual product weight upon receipt)
